

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we are directing CBP to continue to suspend liquidation of all imports of subject merchandise entered or withdrawn from warehouse, for consumption for the PRC-wide entity and the Separate Rate Recipients on or after March 16, 2010. We will instruct CBP to continue to require a cash deposit or the posting of a bond for all companies based on the estimated weighted-average dumping margins shown above.

These suspension of liquidation instructions will remain in effect until further notice.

ITC Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission ("ITC") of our final determination of sales at LTFV. As our final determination is affirmative, in accordance with section 735(b)(2) of the Act, within 45 days the ITC will determine whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the merchandise under investigation. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess antidumping duties on all imports of the merchandise under investigation entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding APO

This notice also serves as a reminder to the parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination and notice are issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: May 24, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. 100513224-224-01 I.D. GF001]

NOAA's Office of Ocean Exploration and Research; Fiscal Year 2011 Ocean Exploration of the Aleutian Trench

AGENCY: Office of Ocean Exploration and Research (OER) Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of funding availability.

SUMMARY: The Office of Ocean Exploration and Research (OER) is seeking pre-proposals and full proposals to support its mission, consistent with NOAA's Strategic Plan, to search, investigate, and document poorly-known and unknown areas of the Aleutian Trench, through interdisciplinary exploration, and to advance and disseminate knowledge of the ocean environment and its physical, chemical, and biological resources. Competitive Ocean Exploration proposals will be bold, innovative and interdisciplinary in their approach. NOAA OER anticipates a total of approximately \$1,000,000 will be available through this announcement. **DATES:** Completed pre-proposals must be received by 5 pm (EDT) on July 1, 2010. Full proposal submissions must be received by 5 p.m. (EDT) on September 10, 2010. Applications received after the above deadlines will not be considered.

ADDRESSES: Pre-proposals must be submitted by either (1) e-mail at OAR.OE.FAQ@noaa.gov, or (2) hard-copy to ATTN: Dr. Nicolas Alvarado, NOAA Office of Ocean Exploration & Research, SSMC III, 10th Floor, 1315 East West Highway, Silver Spring, Maryland 20910. For e-mail submissions, please put your last name in the subject heading along with "OE Pre-proposal," e.g., "Smith OE Pre-proposal." Adobe PDF format is preferred. No facsimile pre-proposals will be accepted.

Full proposals must be submitted through Grants.gov. Applicants without Internet access may submit hard-copies to: ATTN: Dr. Nicolas Alvarado, NOAA

Office of Ocean Exploration & Research, SSMC III, 10th Floor, 1315 East West Highway, Silver Spring, Maryland 20910. No e-mail or facsimile full proposal submissions will be accepted from applicants.

The required cover sheet for pre-proposals may be obtained through the OER Office Web site at: <http://www.explore.noaa.gov/research-funding-opportunities>. Application forms for full proposals are available through <http://www.Grants.gov>. For applicants without Internet access, hard copies of the cover sheet and the full proposal application package can be obtained via mail at NOAA Office of Ocean Exploration and Research, 1315 East West Highway, SSMC III, 10th Floor, Silver Spring, Maryland 20910, or requested by phone at (301) 734-1015.

FOR FURTHER INFORMATION CONTACT: For further information contact the NOAA Office of Ocean Exploration and Research at (301) 734-1015 or submit inquiries via e-mail to the Frequently Asked Questions address:

OAR.OE.FAQ@noaa.gov. E-mail inquiries should include the Principal Investigator's name in the subject heading. Inquiries can be mailed to: ATTN: Dr. Nicolas Alvarado, NOAA Office of Ocean Exploration and Research, 1315 East-West Highway SSMC III, 10th Floor, R/OER Silver Spring, Maryland 20910.

SUPPLEMENTARY INFORMATION: *Electronic Access:* The full text of the full funding opportunity (FFO) announcement for this program can be accessed via the Grants.gov Web site at <http://www.grants.gov>. The announcement will also be available by contacting the program officials identified under **FOR FURTHER INFORMATION CONTACT**. Applicants must comply with all requirements contained in the FFO announcement.

Statutory Authority: 33 U.S.C. 3403(a)(4).

Program Description: The Office of Ocean Exploration and Research (OER) is seeking pre-proposals and full proposals to support its mission, consistent with NOAA's Strategic Plan, to search, investigate, and document poorly-known and unknown areas of the Aleutian Trench, through interdisciplinary exploration, and to advance and disseminate knowledge of the ocean environment and its physical, chemical, and biological resources. Competitive Ocean Exploration (OE) proposals will be bold, innovative and interdisciplinary in their approach.

Specifically, the OER program intends to provide 60 days of UNOLS Global Class ship-time for operations in the Aleutian Trench. These 60 days will

focus on preliminary mapping of the East-West extent of the axis of the trench which resides in the U.S. Exclusive Economic Zone. In addition to mapping, ship operations can include, but are not limited to, the deployment or towing of sensors and instrumentation packages. This announcement is intended to solicit proposals that can augment the survey operations of the Global Class vessel with minimal interference to the primary survey mission, or proposals for work on other vessels that can operate in conjunction with the Global Class vessel. Only exploratory proposals will be funded, any other kind of project will not be reviewed.

Applicants are encouraged to visit the Ocean Explorer Web site (<http://www.oceanexplorer.noaa.gov>) to familiarize themselves with past and present OER-funded activities. The office priorities for this opportunity support NOAA's mission support goal of: Ecosystems—Protect, Restore, and Manage Use of Coastal and Ocean Resources through Ecosystem-Based Management.

Funding Availability: For Fiscal Year (FY) 2011, OER anticipates a total of approximately \$1,000,000 will be available through this announcement. Depending on the quality and quantity of proposals received, OER anticipates supporting approximately 2–4 awards through this solicitation, resulting in an average award level of approximately \$250,000–\$500,000, including analysis and publication. OE is currently working with other NOAA program offices, Federal institutions, and public and private organizations to design this expedition, including developing a consistent approach to gather, organize, and process data and information. Once proposals have been selected, OE will work with the PIs to plan an integrated expedition that will optimize ship and asset schedules. The OER Director may hold-over select proposals submitted for 2011 funding for consideration in 2012. The amount of funding available through this announcement is subject to the final FY11 appropriation for the Office of Ocean Exploration and Research. Publication of this announcement does not obligate NOAA to fund any specific project or to obligate all or any part of available funds. There is no guarantee that sufficient funds will be available to initiate or continue research activities where funding has been recommended by OER. The exact amount of funds that OER may recommend be granted will be determined in pre-award negotiations between the applicant and NOAA representatives. Future opportunities for

submitting proposals may be available and will depend on OER funding levels.

Eligibility: Eligible applicants are institutions of higher education; other nonprofits; commercial organizations; foreign governments; organizations under the jurisdiction of foreign governments; international organizations; State, local and Indian Tribal governments; and other Federal agencies. **Please Note:** Before non-NOAA applicants may be funded, they must demonstrate that they have legal authority to receive funds from another Federal agency that is in excess of their appropriation. Because this announcement is not proposing to procure goods or services from applicants, the Economy Act (31 U.S.C. 1535) is not an appropriate legal basis.

Cost Sharing Requirements: This program does not have any cost-sharing requirements.

Preparation of Pre-proposals: Applicants are required to submit a two-page pre-proposal application before submitting a full proposal. Applicants must also attach a cover sheet for the pre-proposal, which may be obtained through the OER Office Web site. Please see section IV.B.1. of the FFO for more information on the contents of the pre-proposal. The purpose of a pre-proposal is to evaluate an applicant's proposal and to provide feedback on the viability of the project. An applicant is free to submit a full proposal regardless of the result of the OER Director's evaluation.

Evaluation and Selection Procedures: The general evaluation criteria and selection factors that will be applied to pre-proposals and full proposals for this funding opportunity are summarized below. Further information about the evaluation criteria and selection factors can be found in the full funding opportunity announcement.

Evaluation Criteria for Projects

i. Pre-Proposal Evaluation Criteria

The OER Director, in consultation with the Office staff, will evaluate pre-proposals using the following criteria: (1) Importance, Relevance and Applicability of Proposal to the OER Goals and thematic priorities (see Section I.A. Office & Notice Objectives and Section I.B. Office Priorities & Guidance of the FFO announcement for more information); (2) Scientific and Technical Merit, (3) Overall qualifications of applicants, (4) Project Costs, (5) Logistical feasibility (*e.g.*, ship or equipment availability), and (6) Consistency with the priorities of this announcement. These factors are described in more detail below and in

Section V.A.ii. "Full Proposal Evaluation Criteria" of the FFO.

ii. Full Proposal Evaluation Criteria

The following criteria, with the corresponding weight value, will be used to review full proposals: 1. Importance/Relevance and Applicability of Proposal to OER Goals (40%): This criterion ascertains whether there is intrinsic value in the proposed work and relevance to appropriate NOAA, international, regional, State, or local activities. For the OER review process this includes the degree to which the proposal addresses and supports OER's mission, objectives, themes and priorities (*see* Section I.A. Office & Notice Objectives, and Section I.B. Office Priorities & Guidance contained in the FFO). A central aspect of this criteria is whether the proposed effort is exploratory in nature (expanding the breadth of knowledge) as opposed to a research focus (expanding the depth of knowledge on any particular topic). 2. Scientific and Technical Merit (40%): This criterion ascertains whether the approach is technically sound and/or innovative, whether the methods are appropriate, and whether there are clear project goals and objectives. For the OER review process, in addition to the scientific, and/or technical merit of the effort, review criteria include whether: (a) The effort is interdisciplinary with suitable plans and methods, (b) the anticipated results (as appropriate, scientific, technical, historical, cultural, societal or economic) will have high downstream impact, *e.g.*, leading to the revision of existing paradigms, the formulation of new paradigms or new frontiers of knowledge or activity, and (c) plans for preservation, documentation, and sharing of data, multimedia, specimen collections are adequately and clearly outlined. 3. Overall qualifications of applicants (10%): This ascertains whether the applicant(s) possesses the necessary education, experience, training, facilities and administrative resources to accomplish the project. For the OER review process this includes (a) the qualifications of the applicant(s), (b) the strength, diversity and depth of any partnership to accomplish the work proposed, and (c) the applicant's prior OER award performance, including timely publication of results, if applicable. 4. Project Costs (10%): This criterion evaluates the budget to determine whether it is realistic and commensurate with the project needs and time-frame. For the OER review process this includes the reasonableness of project costs, relative to the scope and impact of work proposed and the

available funds. 5. Outreach and education (no points): This criterion assesses whether the project provides a focused and effective education and outreach strategy regarding NOAA's mission to protect the Nation's natural resources. This criterion is not used in this competition.

Review and Selection Process

Upon receipt of a pre-proposal application, the OER Director, after consultation with OER staff, will evaluate each pre-proposal using the Pre-Proposal Evaluation Criteria, and make the decision whether to encourage or discourage the applicant from submitting a full proposal. A recommendation from the OER Director that discourages the submission of a full proposal does not preclude the applicant from submitting the full proposal.

Once a full proposal is received by NOAA, an initial administrative review is conducted to determine compliance with requirements and completeness of the application. Proposals determined to be in compliance and complete will be subjected to peer-review. Peer reviewers shall rate the individual proposals using the evaluation criteria and percentage weights provided above and provide summary comment. Both Federal and non-Federal experts in the field may be used in the peer-review process, which may include external mail reviews and/or a peer-review panel. Peer-review panelists will not be asked to reach consensus on individual proposals. Based on the individual external mail reviewer scores, summary comments, and summaries and scores by the panelists, if a peer-review panel is used, the OER Senior Scientist, after consultation with appropriate OER staff, will make funding recommendations to the Selecting Official, who is the OER Director. In making the final selections, the OER Director will award in rank order unless the proposal is justified to be selected out of rank order based upon one or more of the selection factors below and as further detailed in section V.C. of the FFO.

Selection Factors for Projects: The Selecting Official shall award in the rank order unless the proposal is justified to be selected out of rank order based on the following factors. 1. Availability of funding. 2. Balance/distribution of funds: a. Geographically (This includes ship availability). b. by type of institutions. c. by type of partners. d. by research areas. e. by project types. 3. Whether this project duplicates other projects funded or considered for funding by NOAA or other agencies. 4. Office priorities and

policy factors (as described in Section I.B of the FFO). 5. Applicants prior award performance. 6. Partnerships and/or participation of targeted groups. 7. Adequacy of information necessary for NOAA staff to make a NEPA determination and draft necessary documentation before recommendations for funding are made to the Grants Officer.

Intergovernmental Review:

Applications under this notice are subject to Executive Order 12372, "Intergovernmental Review of Programs." Applicants must contact their State's Single Point of Contact (SPOC) to find out about and comply with the State's process under EO 12372. The names and addresses of the SPOCs are listed in the Office of Management and Budget's Web site: <http://www.whitehouse.gov/omb/grants/spoc.html>.

Limitation of Liability: In no event will NOAA or the Department of Commerce be responsible for proposal preparation costs if these programs fail to receive funding or are cancelled because of other agency priorities. Publication of this announcement does not oblige NOAA to award any specific project or to obligate any available funds.

National Environmental Policy Act (NEPA): NOAA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for applicant projects or proposals which are seeking NOAA Federal funding opportunities. Detailed information on NOAA compliance with NEPA can be found at the following NOAA NEPA Web site: <http://www.nepa.noaa.gov/>, including our NOAA Administrative Order 216-6 for NEPA, http://www.nepa.noaa.gov/NAO216_6_TOC.pdf, and the Council on Environmental Quality implementation regulations, http://ceq.eh.doe.gov/nepa/regs/ceq/toc_ceq.htm. Consequently, as part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of non-indigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of

an environmental assessment, if NOAA determines an assessment is required. Applicants will also be required to cooperate with NOAA in identifying feasible measures to reduce or avoid any identified adverse environmental impacts of their proposal. The failure to do so shall be grounds for not selecting an application. In some cases, if additional information is required after an application is selected, funds can be withheld by the Grants Officer, under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable NOAA to make an assessment on any impacts that a project may have on the environment.

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements: The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of February 11, 2008 (73 FR 7696), are applicable to this solicitation.

Paperwork Reduction Act: This document contains collection-of-information requirements subject to the Paperwork Reduction Act (PRA). The use of Standard Forms 424, 424A, 424B, and SF-LLL and CD-346 has been approved by the Office of Management and Budget (OMB) under the respective control numbers 0348-0043, 0348-0044, 0348-0040, 0348-0046, and 0605-0001. Notwithstanding any other provision of law, no person is required to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number.

Executive Order 12866: This notice has been determined to be not significant for purposes of Executive Order 12866.

Executive Order 13132 (Federalism): It has been determined that this notice does not contain policies with federalism implications as that term is defined in Executive Order 13132.

Administrative Procedure Act/Regulatory Flexibility Act: Prior notices and an opportunity for public comment are not required by the Administrative Procedure Act or any other law for rules concerning public property, loans, grants, benefits, and contracts (5 U.S.C. 553(a)(2)). Because notice and opportunity for comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements for the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable. Therefore, a regulatory flexibility analysis has not been prepared.

Dated: May 25, 2010.

Mark E. Brown,

Chief Financial Officer/Chief Administrative Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

Marine Mammals; File No. 14610

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that the Alaska Department of Fish and Game (ADFG), Division of Wildlife Conservation, Juneau, AK (Principal Investigator: Robert Small, Ph.D.) has been issued a permit to conduct research on marine mammals.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668; phone (907)586-7221; fax (907)586-7249.

FOR FURTHER INFORMATION CONTACT: Tammy Adams or Carrie Hubbard, (301)713-2289.

SUPPLEMENTARY INFORMATION: On April 20, 2010, notice was published in the *Federal Register* (75 FR 20565) that a request for a permit to conduct research on beluga whales (*Delphinapterus leucas*), endangered bowhead whales (*Balaena mysticetus*), gray whales (*Eschrichtius robustus*), and endangered humpback whales (*Megaptera novaeangliae*) had been submitted by the above-named applicant. The requested permit has been issued for the beluga whale and gray whale projects under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216). A decision on the bowhead whale and humpback whale projects has been deferred pending completion of consultation under section 7 of the

Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*).

The permit is valid through May 31, 2015, for research activities including aerial surveys for beluga whales, capture of beluga whales for instrument attachment and sample collection, remote biopsy of beluga whales, and remote biopsy and instrument attachment for gray whales. Research may occur in waters of the Bering, Chukchi, and Beaufort Seas in Alaska to determine population abundance, stock structure, feeding areas and other important habitats, migration routes, behavior relative to human disturbance, and to genetically identify individuals to determine survival and calving intervals.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Dated: May 26, 2010.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

NOAA's Arctic Vision and Strategy; Comment Period Extension

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Request for comments.

SUMMARY: NOAA wishes to ensure its Arctic Vision and Strategy document reaches the broadest possible audience and allows adequate time for review, and therefore is extending the public comment period by fifteen days.

The Arctic has profound significance for climate and functioning of ecosystems around the globe. The region is particularly vulnerable and prone to rapid change. Increasing air and ocean temperatures, thawing permafrost, loss of sea ice, and shifts in ecosystems are evidence of widespread and dramatic ongoing change. As a result, critical environmental, economic, and national security issues are emerging, many of which have significant impacts for human lives, livelihoods, and coastal communities. Though NOAA has

numerous and diverse capabilities that support these emerging issues, a strategic approach that leverages NOAA's existing priorities and strengths, as well as those of our national and international partners, is needed. This document provides a high-level framework and six strategic goals to address NOAA's highest priorities in the region. It is based upon assumptions that the region will: continue to experience dramatic change; become more accessible to human activities; and, be a focus of increasing global strategic interest.

DATES: Comments must be submitted by June 25, 2010.

ADDRESSES: Submit comments by one of the following methods—

- Electronic Submissions: strategic.planning@noaa.gov.
- Mail: National Oceanic and Atmospheric Administration, Office of Program Planning and Integration, 1315 East-West Highway, Room 15749, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT:

Tracy Rouleau, Office of Program Planning and Integration, at strategic.planning@noaa.gov or (301) 713-1622 x187.

SUPPLEMENTARY INFORMATION: The original document published at 75 FR 25843, May 10, 2010; to view the document in its entirety, go to <http://www.arctic.noaa.gov/>.

NOAA invites comments on its: (a) vision for the Arctic; and (b) six strategic goals and five-year strategies for the Arctic.

Dated: May 25, 2010.
