Bureau of Reclamation

Central Valley Project Improvement Act, Criteria for Developing Refuge Water Management Plans

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability.

SUMMARY: The “Criteria for Developing Refuge Water Management Plans” (Refuge Criteria) are now available for public comment. The Refuge Criteria provide a common methodology, or standard, for efficient use of water by Federal Wildlife Refuges, State Wildlife Management Areas and Resource Conservation Districts that receive water under provisions of the Central Valley Project Improvement Act (CVPIA). They document the process and format by which Refuge Water Management Plans (Plans) should be prepared and submitted to Reclamation as part of the Refuge/District Water Supply Contracts and Memoranda of Agreement. The Refuge Criteria refer to Refuges, Wildlife Areas, and Resource Conservation Districts as Refuges. Those Refuges that entered into water supply contracts with Reclamation as a result of the CVPIA and subsequent Department of the Interior administrative review processes are required to prepare Plans using the Refuge Criteria.

DATES: Submit written comments by December 15, 2010.

ADDRESSES: Please mail comments to Ms. Christy Ritenour, Bureau of Reclamation, 2800 Cottage Way, MP-410, Sacramento, California, 95825, 916-978-5281, or e-mail at critenour@usbr.gov.

SUPPLEMENTARY INFORMATION: In response to the Central Valley Project Improvement Act of 1992 and a 1995 Department of the Interior administrative review process, the Interagency Coordinated Program for Wetland and Water Use Planning (ICP) was formed. The ICP was comprised of representatives from the Bureau of Reclamation, the U.S. Fish and Wildlife Service, the California Department of Fish and Game, and the Grassland Resource Conservation District. The ICP developed the 1998 Task Force Report, which outlines past, present, and future wetland planning and management issues and a methodology for Refuge Criteria. To continue the work of the now disbanded ICP, an Interagency Refuge Water Management Team (IRWMT) was formed composed of the same agencies to continue working on wetland issues such as water delivery, including additional work on wetland Refuge Criteria. The IRWMT used the 1998 Task Force Report and
