

the use of MIC in the Bayer carbamate pesticide manufacturing processes, through, for example, substitution of less hazardous intermediates, intensifying existing manufacturing processes, or consuming MIC simultaneously with its production. Examine these approaches using the best practices for inherently safer process assessment identified under Task 1.

- Estimate projected costs of alternative approaches identified above.
- Compare the inherently safer process assessments conducted by Bayer and previous owners of the Institute site with benchmarks established under Task 1.

Deliverables

For each task, the NAS shall provide a monthly progress report to the CSB from inception to completion. The NAS should promptly notify the CSB of any problems encountered or other matters that require CSB attention.

The principal deliverable item is a detailed written report of the expert panel addressing each point in Tasks 1 and 2, above. The report should be produced within 12 months of the initiation of the project. The panel may conduct public hearings in West Virginia, or elsewhere, as appropriate.

Questions for Public Comment

1. Does the proposed Task Statement include the appropriate topics for consideration by the NAS? Are there any additional general or specific topics the NAS panel will need to consider in order to reach a satisfactory answer on the feasibility and costs of reducing the use and storage of MIC?
2. If funds are available, should the CSB initiate a second, related study to consider the feasibility, costs, and benefits of inherently safer alternatives to other chemicals? For example, should a study consider alternatives to the use of hydrogen fluoride in refinery alkylation processes and/or to the use of chlorine in water treatment? What other chemicals or processes should be considered if a second study is undertaken?
3. What kinds of backgrounds and expertise should be represented on the NAS panel?
4. Is the proposed timetable appropriate?

Electronic Submission of Comments

Electronic submission of comments is preferred. Comments should be submitted by e-mail to nascomments@csb.gov. Comments may be submitted in the body of the e-mail message or as an attached PDF, MS
