BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0120]

Notice of Issuance of Bulletin 2011-01, Mitigating Strategies

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of Issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued Bulletin 2011-01 to all holders of operating licenses for nuclear power reactors, except those who have permanently ceased operation and have certified that fuel has been removed from the reactor vessel. The NRC has issued this Bulletin to obtain a comprehensive verification of compliance with the regulatory requirements regarding the conditions of licenses.

DATES: The Bulletin was issued on May 11, 2011.

ADDRESSES: NRC Bulletin 2011-01: "Mitigating Strategies" is available through the NRC's Agencywide Documents Access and Management System (ADAMS) under Accession Number: ML111250360.

- *NRC's Public Document Room (PDR):* The public may examine and have copied, for a fee, publicly available documents at the NRC's PDR, O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* Publicly available documents created or received at the NRC are available online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of the NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Eric Bowman, Senior Project Manager, Generic Communications and Power Uprate Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory

Commission. *Telephone:* 301-415-2963; *e-mail:* Eric.Bowman@nrc.gov.

SUPPLEMENTARY INFORMATION:

The NRC Has Issued This Bulletin for Three Purposes

1. To require that addressees provide a comprehensive verification of their compliance with the regulatory requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 50.54(hh)(2),

2. To notify addressees about the NRC staff's need for information associated with licensee mitigating strategies under 10 CFR 50.54(hh)(2) in light of the recent events at Japan's Fukushima Daiichi facility in order to determine if (1) Additional assessment of program implementation is needed, (2) the current inspection program should be enhanced, or (3) further regulatory action is warranted, and

3. To require that addressees provide a written response to the NRC in accordance with 10 CFR 50.54(f).

Dated at Rockville, Maryland, this 24th day of May 2011.

For the Nuclear Regulatory Commission.

Stacey Rosenberg,

Chief, Generic Communications and Power Uprate Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-03754; NRC-2011-0033]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for ABB, Inc., Windsor, CT

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT: John Nicholson, Project Manager, Decommissioning Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, King of Prussia, Pennsylvania, 19406. *Telephone:* 610-337-5236; *fax number:* 610-337-5269; *e-mail:* John.Nicholson@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing a license amendment to Material License No. 06-00217-06 issued to ABB, Inc. (ABB or, "the licensee"), to authorize a revision to

the previously approved (June 1, 2004) Decommissioning Plan (DP) for its CE Windsor Site (Facility) located at 2000 Day Hill Road, Windsor, Connecticut. The NRC has prepared an Environmental Assessment (EA) in support of this amendment in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

Identification of Proposed Action

The purpose of the proposed amendment is to approve a revision, Decommissioning Plan Revision (DP) 2, to the previously approved site DP for the licensee's facility. The original DP was approved on June 1, 2004, and revision 1 was approved on July 8, 2009. Specifically, this Revision 2 to the approved DP expands the scope of the DP and provides the radiological status and remediation plans for select Formerly Utilized Sites Remedial Action Program (FUSRAP) areas, including the Site Brook and the adjacent Debris Pile. In addition, site-specific derived concentration guideline limits (DCGLs) for thorium-232 (Th-232) and radium-226 (Ra-226) are provided in the revised DP. Small quantities of Th-232 and Ra-226 were identified during investigational sampling of the Burning Grounds area, and DCGLs have been developed and submitted for approval as an addendum to the DP, Revision 2 (Derivation of the Site-Specific Soil DCGLs Addendum Soil DCGLs for Thorium and Radium). The revised DP does not change any previously approved remediation activities or DCGLs for uranium or cobalt-60 (Co-60) at the site. On February 26, 2010, and as supplemented on August 6, 2010, ABB, Inc. requested that NRC approve the proposed amendment. The licensee's request for the proposed change, including an opportunity to request a hearing or provide comments, was previously noticed in the **Federal Register** on February 15, 2011 (76FR8785).

The staff has prepared the EA in support of the proposed license amendment. The proposed actions will allow the licensee to continue to remediate the remainder of the site for eventual unrestricted use pending final status survey results. The licensee has obtained the proper permits from the State of Connecticut Department of Environmental Protection for the planned remediation activities
