In addition to completing the OSHA 301 Incident Report form and OSHA 300 Log of Work Related Injuries and Illnesses, Traylor would have to maintain records of:

1. The date, times (*e.g.*, began compression, time spent compressing, time performing intervention, time spent decompressing), and pressure for each hyperbaric intervention.
2. The name of each individual worker exposed to hyperbaric pressure and the decompression protocols and results for each worker.
3. The total number of interventions and the amount of hyperbaric work time at each pressure.
4. The post-intervention physical assessment of each individual CAW for signs and symptoms of decompression illness, barotrauma, nitrogen narcosis, oxygen toxicity or other health effects associated with work in compressed air or mixed gasses for each hyperbaric intervention.

1. To assist OSHA in administering the conditions specified herein, Traylor would have to:

a. Notify the OTPCA and the nearest affected Area Office of any recordable injury, illness, in-patient hospitalization, amputation, loss of an eye, or fatality (by submitting the completed OSHA 301 Incident Report form²⁸) resulting from exposure of an employee to hyperbaric conditions including those that do not require recompression treatment (*e.g.*, nitrogen narcosis, oxygen toxicity, barotrauma), but still meet the recordable injury or illness criteria (of 29 CFR 1904). The notification would have to be made within 8 hours of the incident, or after becoming aware of a recordable injury or illness, and a copy of the incident investigation (OSHA 301) would have to be provided within 24 hours of the incident, or after becoming aware of a recordable injury or illness. In addition to the information required by the OSHA 301, the incident-investigation report would have to include a root-cause determination, and the preventive and corrective actions identified and implemented.

c. Notify the OTPCA and the nearest affected Area Office within 15 working days and in writing, of any change in the compressed-air operations that affects Traylor's ability to comply with the proposed conditions specified herein.

d. Upon completion of each hyperbaric tunnel project, evaluate the effectiveness of the decompression tables used throughout the project, and provide a written report of this evaluation to the OTPCA and the nearest affected Area Office.

Note: The evaluation report would have to contain summaries of: (1) the number, dates, durations, and pressures of the hyperbaric interventions completed; (2) decompression protocols implemented (including composition of gas mixtures (air, oxygen, nitrox, and trimix), and the results achieved; (3) the total number of interventions and the number of hyperbaric incidents (decompression illnesses and/or health effects associated with hyperbaric interventions as recorded on OSHA 301 and 300 forms, and relevant medical diagnoses and treating physicians' opinions); and (4) root-causes, and preventive and corrective actions identified and implemented.

e. To assist OSHA in administering the proposed conditions specified herein, inform the OTPCA and the nearest affected Area Office as soon as possible after it has knowledge that it will:

- i. Cease to do business;
- ii. Change the location and address of the main office for managing the tunneling operations specified by the project-specific HOM; or
- iii. Transfer the operations specified herein to a successor company.

f. Notify all affected employees of this interim order/proposed permanent variance by the same means required to inform them of its application for a variance.

2. OSHA would have to approve the transfer of the proposed permanent variance to a successor company.

LEGAL SERVICES CORPORATION

Agricultural Worker Population Data for Basic Field—Migrant Grants

AGENCY: Legal Services Corporation.

ACTION: Notice.

SUMMARY: The Legal Services Corporation (LSC) provides special population grants to effectively and efficiently fund civil legal aid services to address the legal needs of agricultural workers and their dependents through grants entitled “Basic Field—Migrant.” The funding for these grants is based on data regarding the eligible client population to be served. LSC has obtained from the U.S. Department of Labor new data regarding this population that are more current than the data LSC has been using and that better reflect the population to be served. On February 3, 2015, LSC sought comments on the use of that data for grants beginning in January 2016 and related issues. Based on the comments received, LSC will not use the data for 2016 grants. LSC will make public additional information underlying the new data, contract with the Department of Labor for assistance addressing issues raised in the comments, consider development of revised data, and seek public comment on any revised data and a revised implementation plan. Implementation would begin January 2017.

FOR FURTHER INFORMATION CONTACT:

Mark Freedman, Senior Assistant General Counsel, Legal Services Corporation, 3333 K St. NW., Washington, DC 20007; 202–295–1623 (phone); 202–337–6519 (fax); mfreedman@lsc.gov.

SUPPLEMENTARY INFORMATION: The Legal Services Corporation (“LSC” or

“Corporation”) was established through the LSC Act “for the purpose of providing financial support for legal assistance in noncriminal matters or proceedings to persons financially unable to afford such assistance.” 42 U.S.C. 2996b(a). LSC performs this function primarily through distributing funding appropriated by Congress to independent civil legal aid programs that provide legal services to low-income persons throughout the United States and its possessions and territories. 42 U.S.C. 2996e(a)(1)(A). LSC designates geographic service areas and structures grants to support services to the entire eligible population in a service area or to a specified subpopulation of eligible clients. 45 CFR 1634.2(c) and (d), 1634.3(b). LSC awards these grants through a competitive process. 45 CFR part 1634. Congress has mandated that LSC “insure that grants and contracts are made so as to provide the most economical and effective delivery of legal assistance to persons in both urban and rural areas.” 42 U.S.C. 2996f(a)(3).

Throughout the United States and U.S. territories, LSC provides Basic Field—General grants to support legal services for eligible clients. LSC provides funding for those grants on a per-capita basis using the poverty population as determined by the U.S. Census Bureau every three years. Sec. 501(a), Public Law 104–134, 110 Stat. 1321, 1321–50, as amended by Public Law 113–6, div. B, title IV, 127 Stat. 198, 268 (LSC funding formula adopted in 1996, incorporated by reference in LSC’s appropriations thereafter, and amended in 2013). Since its establishment in 1974, LSC has also provided subpopulation grants to support legal services for the needs of agricultural workers through Basic Field—Migrant grants under the authority of the LSC Act to structure grants for the most economic and effective delivery of legal assistance. 42 U.S.C. 2996f(a)(3). Congress amended the LSC Act in 1977 to require that LSC conduct a study of the special legal needs of various subpopulations, including migrant or seasonal farm workers, and develop and implement appropriate means of addressing those needs. 42 U.S.C. 2996f(h). LSC’s study, issued in 1979, concluded that specialized legal expertise and knowledge were needed to address the distinctive “unmet special legal problems” that migrant and seasonal farmworkers shared because of their status as farmworkers.
