

and garden pesticides in urban areas of California, Oregon and Washington through which "salmon supporting waters" pass that they are to make the point of sale notification whenever products containing these seven active ingredients are sold. The Court's Order also requires defendant-intervenors (groups representing pesticide manufacturers, growers and other pesticide users) to distribute the point of sale notifications to sales outlets in these urban areas on or before April 5, 2004.

The January 22 Order does not direct defendant-intervenors to distribute the point of sale notifications as "labeling" within the meaning of section 2(p) of FIFRA. To the extent, however, that intervenors or pesticide registrants wish to distribute the point of sale notification developed by EPA as labeling, EPA will exercise its enforcement discretion authority. This will allow defendant-intervenors to distribute the notifications for the duration of the Court's injunction without notifying EPA, without seeking or obtaining approval from EPA and without the need for establishment registration or reporting regarding the production of the notification. Further, EPA will not take enforcement actions on the basis of misbranding under FIFRA, solely with respect to the point of sale notification materials that may be attached to or accompany any of the subject pesticide products. Any labeling changes different from or in addition to the point of sale notification developed by EPA remain subject to FIFRA's labeling requirements and misbranding provisions, and the existing procedures of 40 CFR parts 152 and 167.

3. Through this Notice, EPA is requesting that state pesticide agencies, state fish agencies and Land Grant University extension coordinators in urban areas of California, Oregon and Washington, provide the point of sale notification to Certified Applicators certified in any category that would permit the applicator to apply pesticides in parks, golf courses and housing areas in the urban areas. EPA will provide to the state pesticide agencies, state fish agencies and Land Grant University extension pesticide coordinators in California, Oregon and Washington, copies of the point of sale notification on or before April 5, 2004.

B. Court's Definition of Urban Areas

The urban areas subject to the Order are defined by the Court as all urbanized areas in California, Oregon and Washington with populations of at least 50,000 people (as defined by the 2000 U.S. Census) within a federally listed

salmon ESU. These areas are identified in exhibit 2 of the January 22, 2004 Order, which can be accessed on EPA's Web site at www.epa.gov/espp.

C. Time Period for Which These Requirements are in Effect

1. As explained in detail in the January 22, 2004 Order, the Order terminates automatically for a particular pesticide and salmon ESU upon the occurrence of one of the following: (i) Completion by EPA of its ESA section 7(a)(2) consultation obligation; (ii) the issuance by NMFS of a biological opinion; (iii) a finding by EPA made for ESA section 7 compliance purposes that the pesticide is "not likely to adversely affect" that particular salmon ESU, provided that NMFS has not rejected or affirmatively failed to concur in that "not likely to adversely affect" determination; or (iv) a finding by EPA made for ESA section 7 compliance purposes that the pesticide will have "no effect" on the particular salmon ESU. EPA's findings for particular pesticides and salmon ESUs as of the January 22, 2004 Order are set forth in exhibit 1 of that Order. As EPA makes additional effects determinations, or as NMFS moves ahead in its review of EPA's determinations, pesticide registrants, retailers and users should review EPA's Web site, as well as any additional information updating the Order, to ascertain the applicability of the Order, including the requirement to make point of sale notifications, in their area.

2. On February 17, 2004, CropLife America and other defendant-intervenors in the Washington Toxics Coalition case, appealed the Court's Order. If further judicial proceeding occur that may affect the Order, EPA intends to provide notice on its Web site at www.epa.gov/espp.

D. Obtaining Additional Copies of Point of Sale Notifications

1. Any sales outlet of lawn and garden pesticide products subject to the point of sale notification provisions in the January 22, 2004 Order, in these urban areas that have not received the point of sale notifications from defendant-intervenors by April 5, 2004, may obtain such materials from defendant-intervenors through the following Web site: www.pestfacts.org.

2. Any state pesticide agency, state fish agency, or Land Grant University extension coordinator subject to the request to distribute the point of sale notification to certain Certified Applicators who have not received the point of sale notifications from EPA by April 5, 2004, or who need additional

copies of the point of sale notification, may obtain such materials by contacting the person indicated in this Notice under **FOR FURTHER INFORMATION CONTACT**.
