Background

On April 10, 2006, the FHWA published a notice in the **Federal Register** (71 FR 18134) announcing the initiation of a reassessment of the HPMS. The notice served as an announcement and requested public comment on issues related to the reassessment effort of the HPMS that the FHWA initiated. Public comments were solicited at that time on the described conceptual plan for the reassessment, in addition to comments on other issues that should be considered in planning and conducting the reassessment. During the reassessment, the FHWA developed working issue papers and placed them in the docket for review and comment. The working issue papers are still available for comment in the docket.

The HPMS first was developed in 1978 as a national highway transportation system database. In its current configuration, the HPMS includes limited data on all public roads, more detailed data for a sample of the arterial and collector functional systems, and area-wide summary information for urbanized, small urban, and rural areas. Over its nearly 30 year life, the HPMS has evolved, adjusting to legislative and other changes in the focus of the highway program.

Draft HPMS Reassessment Recommendations Report

The FHWA continues to take an open approach to completing the reassessment effort. Major emphasis is directed towards determining the data needs of FHWA's partners, stakeholders, and customers, the various uses of the existing HPMS, and the ability of data providers to support these data needs.

There are three major categories of proposed changes discussed in the HPMS Reassessment Recommendations Report: (1) Structure of HPMS; (2) Data Items; and, (3) Data Quality Process Improvement. In each category, the report explores the potential impact of the recommended changes on the State data providers, the FHWA, and the data users. Each recommendations is accompanied by an explanation as to

why certain decisions were made, along with feedback from HPMS data users and providers gathered through the outreach portion of the reassessment. The recommendation topic areas by category are:

- Structure of HPMS: Data Model, Sampling, Boundaries and Functional Classification, and Interchanges and Ramps;
- Data Items: Safety, Pavements, Interchanges and Ramps, Freight, and Capacity; and
- Data Quality and Process Improvement.

The FHWA has prepared the draft version of the HPMS Reassessment Recommendations Report after taking into consideration comments made directly through the docket, raised at all workshops, and collected through other outreach efforts. Comments on the draft report should be submitted to the FHWA through the docket on or before June 30, 2007. The FHWA will respond to comments on the draft report generated by this notice and expects to complete its final recommendations report and publish it in the **Federal Register** for public review and comment by September 30, 2007.

Outreach

As a part of the reassessment, the FHWA will conduct a second series of outreach meetings and workshops: On March 7-8 (8 a.m.-4 p.m., e.t.) in Baltimore, MD, on March 13-14 (8 a.m.-4 p.m., p.t.) in Sacramento, CA, and on March 27-28 (8 a.m.-4 p.m., c.t.) in Topeka, KS, at which interested parties are asked to provide input and help to refine a future HPMS direction based on the recommendations made in the draft report. The FHWA will post specific workshop information online at <http://www.fhwa.dot.gov/policy/ohpi/hpms/index.htm>. Soon after the outreach workshops take place, the FHWA will place the minutes and other supporting documents in the docket for review and comment. Interested parties should continue to check the docket for new material.

Conclusion

The FHWA is soliciting public comments on the draft HPMS Reassessment Recommendations Report. Modifications to this draft report may be based on the comments received, if any. The draft report is available in the docket and via the FHWA Web site at: <http://www.fhwa.dot.gov/policy/ohpi/hpms/index.htm>. Additionally, the FHWA will hold several outreach sessions to further discuss the reassessment of the HPMS. As previously mentioned, the FHWA will

post specific information about the outreach meetings on its Web site at <http://www.fhwa.dot.gov/policy/ohpi/hpms/index.htm>.
