SUPPLEMENTARY INFORMATION: On January 20, 2025, President Trump issued the “Regulatory Freeze Pending Review” memorandum published in the **Federal Register** on January 25, 2025 (90 FR 8249). This Presidential action ordered all executive departments and agencies to consider postponing for 60 days the effective date of certain rules published in the **Federal Register** for the purpose of reviewing any questions of fact, law, and policy that the rules may raise. Additionally, executive departments and agencies were to consider opening a comment period to allow interested parties to provide comments about issues of fact, law, and policy raised by the rules postponed under the memorandum.

Consistent with the Presidential Memorandum of January 20, 2025, the U.S. Department of Energy (DOE) temporarily postponed the effective date of its final rule amending the test procedures for central air conditioners and heat pumps (CAC/HP) published in the **Federal Register** on January 7, 2025 (90 FR 1224), to March 21, 2025. 90 FR 9001 (Feb. 5, 2025). DOE also requested comments on the impacts of a further delay of the test procedures as well as legal, factual, or policy issues raised by the rule.

DOE received comments in response to the February 2025 delay of effective date from the interested parties listed in Table 1.
