

allow an alternative to the proposed action.

In addition to this notice, the scoping process will include the distribution of letters to interested parties requesting comments on the proposed action, and a public notice will be published in area media.

The Forest Service has identified the following preliminary issues: (1) Potential impacts to wildlife in the proposed project area; (2) potential impacts to the watershed; (3) potential impacts to cultural and paleontological resources; (4) potential impacts to adjacent private lands; and (5) potential impacts to livestock grazing permits on the National Grassland.

This notice is to inform the public of the proposed action and invite the public to participate by providing any comments or information they may have concerning the proposal. This information will be used to identify important issues and determine the extent of the analysis necessary to make an informed decision on the proposal. Such issues will assist in the formulation of additional alternatives and the development of mitigation measures necessary to reduce impacts.

A DEIS will be prepared for comment. The comment period on the DEIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, as a result of *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978), reviewers of DEISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. Also, in conjunction with *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980), environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the FEIS may be waived or dismissed by the courts. Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the FEIS.

To assist the Forest Service in identifying and considering issues and concerns, comments on the DEIS should

be as specific as possible to the proposed action. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21)

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

Forest Service

Glenn/Colusa Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Glenn/Colusa Resource Advisory Committee will meet in Willows, California. The committee is authorized under the Secure Rural Schools and Community Self-Determination Act (Pub. L. 110-343) (the Act) and operates in compliance with the Federal Advisory Committee Act. The purpose of the committee is to improve collaborative relationships and to provide advice and recommendations to the Forest Service concerning projects and funding consistent with the title II of the Act. The meeting is open to the public. The purpose of the meeting is review and discuss existing projects, and review new proposals for additional projects.

DATES: The meeting will be held June 20, 2011 at 1:30 p.m.

ADDRESSES: The meeting will be held at Mendocino National Forest, Grindstone Ranger District Office, Black Butte and Snow Mountain Conference Rooms, located at 825 N. Humboldt, Willows, CA 95988. Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION**.

All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received at Grindstone Ranger District, Stonyford Work Center, 5171 Stonyford-Elk Creek Rd., Stonyford, CA 95979. Please call ahead to 530-963-3128 to facilitate

entry into the building to view comments.

FOR FURTHER INFORMATION CONTACT:

Laurie L. Pearson, Visitor Information Assistant, and Glenn/Colusa R.A.C. Coordinator, Grindstone Ranger District, 530-963-3128, LLPearson@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Standard Time, Monday through Friday. Requests for reasonable accommodation for access to the facility or proceedings may be made by contacting the person listed **FOR FURTHER INFORMATION**.

SUPPLEMENTARY INFORMATION: The following business will be conducted: 1. Introductions, 2. Approval of Minutes, 3. RAC Admin. Updates, 4. Public Comment, 5. Voting on New Proposals, 6. Project Reviews, 7. Schedule Monitoring Field Trip, 8. General Discussion, 9. Meeting Schedule, 10. Adjourn.

Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by June 10, 2011 to be scheduled on the agenda. Written comments and requests for time for oral comments must be sent to Stonyford Work Center, Attn: Laurie L. Pearson, Glenn/Colusa R.A.C. Coordinator, PO Box 160, Stonyford, CA 95979, or by e-mail to LLPearson@fs.fed.us, or via facsimile to 530-963-3173.

Dated: June 1, 2011.

Eduardo Olmedo,
Designated Federal Official.

BROADCASTING BOARD OF GOVERNORS

SES Performance Review Board Membership

AGENCY: Broadcasting Board of Governors (BBG).

ACTION: Notice of Membership of SES Performance Review Board.

SUMMARY: Title 5 United States Code, Section 4314, requires that notice of the appointment of an individual to serve as a member of a performance review board (PRB) shall be published in the **Federal Register**. The following

individuals have been appointed to serve as PRB members for BBG: Jon C. Brause, Deputy Assistant Administrator, Bureau for Democracy, Conflict and Humanitarian Services, U.S. Agency for International Development; Nigel Mote, Executive Director, U.S. Nuclear Waste Technical Review Board; and Ariane Whittemore, Special Assistant, Total Force Management, Manpower and Reserve Affairs, Office of the Assistant Secretary, U.S. Department of the Navy.

ADDRESSES: Broadcasting Board of Governors, 330 Independence Ave., SW., Washington, DC 20237.

FOR FURTHER INFORMATION CONTACT: Donna S. Grace, Director, Office of Human Resources, 202-382-7500.

Jeffrey N. Trimble,

Executive Director, Broadcasting Board of Governors.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-821-809]

Continuation of Suspended Antidumping Duty Investigation on Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From the Russian Federation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determination by the Department of Commerce ("the Department") and the International Trade Commission ("ITC") that termination of the suspended antidumping duty investigation on certain hot-rolled flat-rolled carbon quality steel products ("hot-rolled steel") from the Russian Federation ("Russia") would likely lead to continuation or recurrence of dumping, and material injury to an industry in the United States, the Department is publishing notice of the continuation of this suspended antidumping duty investigation.

DATES: *Effective Date:* June 17, 2011.

FOR FURTHER INFORMATION CONTACT: Anne D'Alauro or Sally Gannon, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4830 or (202) 482-0162, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 1, 2010, the Department initiated, and the ITC instituted, a sunset review of the suspended antidumping duty investigation on hot-rolled steel from Russia ("the Agreement"), pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-year ("Sunset") Review*, 75 FR 16437 (April 1, 2010). As a result of its review, the Department determined that termination of the suspended antidumping duty investigation on hot-rolled steel from Russia would likely lead to a continuation or recurrence of dumping and notified the ITC of the magnitude of the margins likely to prevail, should the Agreement be terminated. See *Certain Hot-Rolled Flat-Rolled Steel Products from the Russian Federation; Final Results of the Expedited Sunset Review of Antidumping Duty Suspended Investigation*, 75 FR 47263 (August 5, 2010).

On June 2, 2011, pursuant to section 751(c) of the Act, the ITC determined that termination of the Agreement on hot-rolled steel from Russia would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. See *Hot-Rolled Flat-Rolled Carbon-Quality Steel Products from Brazil, Japan, and Russia*, 76 FR 34101 (June 10, 2011).

Therefore, pursuant to section 351.218(f)(4) of the Department's regulations, the Department is publishing this notice of the continuation of the Agreement on hot-rolled steel from Russia.

Scope

See Appendix 1.

Continuation

As a result of the respective determinations by the Department and the ITC that termination of the Agreement on hot-rolled steel from Russia would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby gives notice of the continuation of the Agreement on hot-rolled steel from Russia. The effective date of continuation will be the date of publication in the **Federal Register** of this Continuation Notice. Pursuant to sections 751(c)(2) of the Act, the Department intends to initiate the next five-year sunset review of the Agreement on hot-rolled steel from Russia not later than May 2016.

This five-year (sunset) review and notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: June 9, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

Appendix I

For the purposes of this Suspension Agreement, "hot-rolled steel" means certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness.

Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this agreement.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free ("IF")) steels, high strength low alloy ("HSLA") steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this agreement, regardless of HTSUS definitions, are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated: 1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.012 percent of boron, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this agreement unless otherwise excluded. The following products, by way of example, are outside and/or specifically excluded from the scope of this agreement:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including *e.g.*, ASTM specifications A543, A387, A514, A517, and A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
