

one-time adjustment increased the exemption threshold to \$28 million for 1997 data collection.

Section 203.2(e)(1)(i) of Regulation C provides that the Board will adjust the threshold based on the year-to-year change in the average of the CPIW, not seasonally adjusted, for each twelve-month period ending in November, rounded to the nearest million dollars. Pursuant to this section, the Board has adjusted the threshold annually, as appropriate.

For 2009, the threshold was \$39 million. During the twelve-month period ending in November 2009, the CPIW decreased by 0.98 percent. That decrease results in a new threshold, before rounding, of about \$38.62 million dollars, which must be rounded to the nearest million dollars pursuant to Regulation C. As a result, the exemption threshold remains \$39 million. Thus, depository institutions with assets of \$39 million or less as of December 31, 2009 are exempt from collecting data in 2010. An institution's exemption from collecting data in 2010 does not affect its responsibility to report data it was required to collect in 2009.

Final Rule

Under the Administrative Procedures Act, notice and opportunity for public comment are not required if the Board finds that notice and public comment are unnecessary. 5 U.S.C. 553(b)(B). The amendment in this notice is technical. Comment 2(e)-2 is amended to update the exemption threshold. This amendment merely applies the formula established by Regulation C for determining any adjustments to the exemption threshold. For these reasons, the Board has determined that publishing a notice of proposed rulemaking and providing opportunity for public comment are unnecessary. Therefore, the amendment is adopted in final form.

Airworthiness Directives; PILATUS Aircraft Ltd. Model PC–7 Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for the products listed above. This AD results from mandatory continuing airworthiness information (MCAI) issued by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

This Airworthiness Directive (AD) is prompted due to the discovery of cracks caused by stress corrosion in the main-gear support struts. All the main-gear support struts that had cracks were made from material AA2024–T351 which has a lower resistance to stress corrosion cracking.

Such cracks, if undetected, could lead to the failure of the strut during landing which could then cause the Main Landing Gear (MLG) to collapse.

We are issuing this AD to require actions to correct the unsafe condition on these products.

DATES: This AD becomes effective February 1, 2010.

On February 1, 2010, the Director of the Federal Register approved the incorporation by reference of certain publications listed in this AD.

ADDRESSES: You may examine the AD docket on the Internet at <http://www.regulations.gov> or in person at Document Management Facility, U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590.
