

product design, but when attached to infant products, warnings are useful, because they can serve to remind caregivers of the safety warnings while caregivers are using the products.

A third commenter requested that the information provided in the survey clearly distinguish between products intended for overnight and unattended sleep, and those designed for other activities, including napping. CPSC agrees this distinction will help clarify the question for caregivers. Accordingly, CPSC has revised the following question in the survey: "Which of the following product(s) do you use to put your infant to sleep" into two separate questions: (1) Which of the following products do you use to put your infant to sleep overnight?; and (2) Which of the following products do you use to put your infant in for supervised use, including napping? In addition, CPSC has changed the references throughout the survey from: "Warnings on Infant Sleep Products," to: "Warnings on Infant Products," to cover warning labels that might be intended for overnight and unattended sleep, as well as infant products designed for other activities.

This commenter also stated that asking responders a question about whether they "like" or "dislike" a warning label is inappropriate, and they suggested that it is more appropriate to ask about effectiveness of warning labels. CPSC agrees that seeking a response on the "likeability" of the warning label may not elicit a meaningful response. Accordingly, this question has been deleted from the survey. A copy of the proposed survey, "Revised Supporting Statement" titled *Consumer Product Safety Commission: Warning Label Comprehension and Interpretation by Consumers for Children's Sleep Environments*, is available at: www.regulations.gov under Docket No. CPSC–2020–0027, Supporting and Related Material.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

[Project No. 3273–024]

Chittenden Falls Hydropower, Inc.; Notice of Waiver Period for Water Quality Certification Application

On March 24, 2021, Chittenden Falls Hydropower, Inc. notified the Federal Energy Regulatory Commission that on March 8, 2021, it submitted a pre-filing meeting request, pursuant to 40 CFR 121.4, together with an application for a Clean Water Act section 401(a)(1) water quality certification to the New York State Department of Environmental Conservation (New York DEC), in conjunction with the above captioned project. Pursuant to 40 CFR 121.6, we hereby notify New York DEC of the following:

Date of Receipt of the Certification Request: April 7, 2021.¹

Reasonable Period of Time to Act on the Certification Request: One year.

Date Waiver Occurs for Failure to Act: April 7, 2022.

If New York DEC fails or refuses to act on the water quality certification request by the above waiver date, then the agency certifying authority is deemed waived pursuant to section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1).

Dated: April 8, 2021.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Western Area Power Administration

Boulder Canyon Project

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed fiscal year 2022 Boulder Canyon Project base charge and rates for electric service.

¹ 40 CFR 121.4(a) requires that a project proponent request a meeting with the state certifying authority to discuss the project at least 30 days prior to submitting a certification request. Here, Chittenden Falls Hydropower, Inc. submitted its request for a pre-filing meeting on March 8, 2021, which was the same date it submitted its section 401 application to New York DEC. To account for the 30-day period associated with the pre-filing meeting request and to render the certification request compliant with 40 CFR 121.5(b), the date of receipt of the certification request is 30 days after the pre-filing meeting was requested, *i.e.*, April 7, 2021.

SUMMARY: The Desert Southwest Region (DSW) of the Western Area Power Administration (WAPA) is proposing an adjustment to the base charge and rates for fiscal year (FY) 2022 Boulder Canyon Project (BCP) electric service under Rate Schedule BCP–F10. The proposal would increase the base charge 9 percent from \$65.4 million in FY 2021 to \$71.3 million in FY 2022. The change is primarily the result of an increase in Bureau of Reclamation's (Reclamation) replacement costs, an increase in WAPA's operations and maintenance expenses and replacement costs, and a decrease in prior year carryover funds from FY 2021. The proposed base charge and rates would go into effect on October 1, 2021 and remain in effect through September 30, 2022.

Publication of this **Federal Register** notice will initiate the public process.

DATES: The consultation and comment period begins today and will end July 14, 2021. DSW will present a detailed explanation of the proposed FY 2022 base charge and rates at a public information forum that will be held on May 17, 2021, from 10 a.m. to 12 p.m. Mountain Standard Time. DSW will also host a public comment forum that will be held on June 14, 2021, from 10 a.m. to 12 p.m. Mountain Standard Time. DSW will conduct both the public information forum and the public comment forum via Webex. Instructions for participating in the forums will be posted on DSW's website at least 14 days prior to the public information and comment forums at <https://www.wapa.gov/regions/DSW/Rates/Pages/boulder-canyon-rates.aspx>. DSW will accept written comments any time during the consultation and comment period.

ADDRESSES: Send written comments to Mr. Jack D. Murray, Acting Regional Manager, Desert Southwest Region, Western Area Power Administration, P.O. Box 6457, Phoenix, Arizona 85005–6457, or dswpwrmrk@wapa.gov. DSW will post information concerning the rate process and written comments received on its website at <https://www.wapa.gov/regions/DSW/Rates/Pages/boulder-canyon-rates.aspx>.

FOR FURTHER INFORMATION CONTACT: Ms. Tina Ramsey, Rates Manager, Desert Southwest Region, Western Area Power Administration, P.O. Box 6457, Phoenix, Arizona 85005–6457, (602) 605–2565, or dswpwrmrk@wapa.gov.
