

maintained in offices that are locked during non-duty hours. The computer database is controlled by password protection and the computer network is protected by means of a firewall. File folders are stored in locked file cabinets.

RETENTION AND DISPOSAL:

Record retention and disposal are handled in accordance with instructions outlined in the Farm and Foreign Agricultural Service Handbook, "Records Management, 2-AS (Revision 10), Amendment 1."

SYSTEM MANAGER/S/ AND ADDRESS:

Deputy Administrator for Compliance, Risk Management Agency, Federal Crop Insurance Corporation, 1400 Independence Avenue, SW. Stop 0806, Washington, DC 20250-0806, telephone number (202) 720-0642.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Pursuant to the provisions of 5 U.S.C. 552a(k)(2), material in this system of records is exempt from the requirements of 5 U.S.C. 552(a)(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f) because it contains investigatory material compiled for law enforcement purposes. See 7 CFR 1.123.

5 U.S.C. 552a(c)(3) requires that an accounting of disclosures be made available to an individual. This would impair compliance reviews by alerting the subject of the review to the existence of those compliance reviews. The release of information from these files could result in the destruction or alteration of documentary evidence necessary to prosecution, improper influence or witnesses and other activities which could impede or compromise the review.

5 U.S.C. 552a(d) requires that an individual is given access to and the right to amend files pertaining to him or her. Such individual access to these files could hamper reviews in progress by alerting subjects involved in compliance reviews that their actions are under scrutiny, and allow them time to take measures to prevent detection of any illegal activities or escape prosecution. Release of these records also would disclose investigatory techniques and review procedures employed by the RMA Office of Risk Compliance, Federal Crop Insurance Corporation and other agencies, which may impair law enforcement activities.

5 U.S.C. 552a(e)(1) permits the maintenance of only such information as is relevant and necessary to accomplish a purpose of the Agency required by statute or Executive Order. Exemption from this provision is required because determination of

relevance and necessity can be made only after information is evaluated. Evaluation at the time of collection is too time consuming for the effective conduct of a compliance review. Further, the determination of relevance or necessity of specific information at the early stages of the compliance review is not possible.

5 U.S.C. 552a(e)(4)(G), (H) and (f) provide for notification and access procedures. If these requirements were followed it would necessarily alert subjects of the compliance review to the existence of the review and could impair the outcome of the review. Similarly, access to the records could interfere with compliance review and ultimate law enforcement proceedings; disclose confidential informants and information; constitute an unwarranted invasion of personal privacy of others; and reveal confidential investigative techniques and procedures.

5 U.S.C. 552a(e)(4)(I) requires that categories of records in each system be published. Application of this provision could disclose investigative techniques and procedures employed by compliance reviewers, which may impair law enforcement activities.
