

Issue Date: 5/20/1997.

Title: Nucleic Acid Probes and Methods for Detecting *Candida* DNA Cells in Blood.

U.S. Patent Application Serial No.: 08/065,845.

Filing Date: 5/20/1993.

Domestic Status: 5,426,027.

Issue Date: 6/20/1995.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7.

Specific DNA (oligonucleotide) probes have been developed for a wide variety of systemic disease causing fungi, including *Histoplasma capsulatum*, *Aspergillus* species, *Candida* species, *Fusarium* species, and others. A probe has been developed for identification of all dimorphic fungi. These probes can be used for the rapid identification of fungal pathogens and for the diagnosis of mycotic diseases.

ADDRESSES: Requests for a copy of these patent applications, inquiries, comments, and other materials relating to the contemplated license should be directed to Andrew Watkins, Director, Technology Transfer Office, Centers for Disease Control and Prevention (CDC), 4770 Buford Highway, Mailstop K-79, Atlanta, GA 30341, telephone: (770) 488-8610; facsimile: (770) 488-8615. Applications for a license filed in response to this notice will be treated as objections to the grant of the contemplated license. Only written comments and/or applications for a license which are received by CDC within sixty days of this notice will be considered. Comments and objections submitted in response to this notice will not be made available for public inspection, and to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552. A signed Confidential Disclosure Agreement will be required to receive a copy of any pending patent application.

Dated: March 31, 2003.

James D. Seligman,

Associate Director for Program Services,
Centers for Disease Control and Prevention
(CDC).

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 99F-2999]

Ciba Specialty Chemicals; Withdrawal of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the withdrawal, without prejudice to a future filing, of a food additive petition (FAP 9B4686) proposing that the food additive regulations be amended to provide for the safe use of benzenepropanoic acid, 3,5- bis(1,1-dimethylethyl)-4-hydroxy-, C7-C9-branched alkyl esters as an antioxidant and/or stabilizer for adhesives.

FOR FURTHER INFORMATION CONTACT:

Mark Hepp, Center for Food Safety and Applied Nutrition (HFS-275), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740-3858, 202-418-3098.

SUPPLEMENTARY INFORMATION: In a notice published in the *Federal Register* of September 7, 1999 (64 FR 48654), FDA announced that a food additive petition (FAP 9B4686) had been filed by Ciba Specialty Chemicals, 540 White Plains Rd., P.O. Box 2005, Tarrytown, NY 10591-9005. The petition proposed to amend the food additive regulations in § 178.2010 Antioxidants and/or stabilizers for polymers (21 CFR 178.2010) to provide for the safe use of benzenepropanoic acid, 3,5- bis(1,1-dimethylethyl)-4-hydroxy-, C7-C9-branched alkyl esters as an antioxidant and/or stabilizer for adhesives. Ciba Specialty Chemicals has now withdrawn the petition without prejudice to a future filing (21 CFR 171.7).

Dated: March 20, 2003.

Alan M. Rulis,

Director, Office of Food Additive Safety,
Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

[CFDA Number 93.110B]

Maternal and Child Health Federal Set-Aside Program; Special Projects of Regional and National Significance; Comprehensive Hemophilia Diagnostic and Treatment Centers; Regional Project Grant

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of availability of funds.

SUMMARY: The Health Resources and Services Administration (HRSA) announces that \$360,000 in fiscal year (FY) 2003 funds is available to fund one grant to establish a regional network of hemophilia treatment centers (HTCs) in the Maternal and Child Health Bureau Hemophilia Program, Region IV North (Kentucky, North Carolina, South Carolina, and Tennessee) to provide comprehensive care for people with hemophilia and other congenital bleeding disorders and their families in the diagnosis and treatment of hemophilia and other bleeding disorders. This grant will be awarded for a 2-year period, subject to satisfactory progress and the availability of funds.

DATES: Applications must be received in the HRSA Grant Application Center (GAC) at the address below by the close of business, May 8, 2003. Applications will meet the deadline if they are either: (1) Received on or before the deadline date; or (2) postmarked on or before the deadline date, and received in time for submission to the objective review panel. A legible, dated receipt from a commercial carrier or U.S. Postal Service will be accepted instead of a postmark. Private metered postmarks will not be accepted as proof of timely mailing.

ADDRESSES: To receive a complete application kit, applicants may telephone the HRSA Grants Application Center at 1-877-477-2123 (1-877-HRSA-123) and present the announcement number HRSA 03-084 and announcement code HTC or register on-line at: <http://www.mchb.hrsa.gov/grants/>. All applications should be mailed or delivered to: Grants Management Officer (MCHB), HRSA Grants Application Center, 901 Russell Avenue, Suite 450, Gaithersburg, Maryland, 20879, telephone: 1-877-HRSA-123 (1-877-477-2123), e-mail: hrsagac@hrsa.gov.

Submission Requirements

Applicants are required to submit one ink-signed hard copy original of the complete application and two hard copies. Additionally, applicants are required to submit a diskette of the abstract.

The HRSA Grants Application Center will send out confirmation of the receipt of the application. If the acknowledgment is not received within 15 days of submitting the application, applicants should contact the HRSA Grants Application Center at 1-877-477-2123 or by e-mail at hrsagac@hrsa.gov to determine the status of the application.

FOR FURTHER INFORMATION CONTACT: Jack Arner, 301-443-1080 (for questions specific to project activities of the program and program objectives); and Theda Duvall, 301-443-1440 (for grants policy, budgetary, and business questions).

SUPPLEMENTARY INFORMATION:

Program Background and Objectives

Hemophilia is a group of hereditary bleeding disorders of specific blood clotting factors classified as hemophilia A and B. Classic hemophilia A is the result of a deficiency of clotting factor VIII; Hemophilia B is a deficiency of clotting factor IX. Approximately 17,000 persons in the United States, primarily males, are affected by hemophilia A or B, the most well known and prevalent of the clotting factor deficiencies. The program also serves individuals with other congenital bleeding disorders including von Willebrand Disease (VWD). It is estimated that up to 4 million individuals in the United States have VWD. VWD, a hereditary bleeding disorder caused by a problem with a protein needed for blood to clot, equally affects men and women.

The National Hemophilia Program was initiated in 1975 and has been since that time funded through Special Projects of Regional and National Significance (SPRANS) under the authority contained in 42 U.S.C. 701(a)(2). Comprehensive hemophilia diagnostic and treatment services are offered through 12 regional grantees, with a network of 135 HTC's located throughout the country. In addition to comprehensive medical services for hemophilia, the HTC's offer a comprehensive array of educational genetic counseling, peer support, and HIV prevention and risk reduction services. Regional services are based upon a regional needs assessment. They include capacity building, communication and information dissemination, regional strategic

planning, data collection and analyses, and the coordination of training and technical assistance to affiliated treatment centers, as needed. Services currently being provided through the MCHB Hemophilia grant in Region IV—North will end on May 31, 2003 and will require a new grant starting on June 1, 2003.

Authorization

Section 501(a)(2) of the Social Security Act, the MCH Federal Set-Aside Program (42 U.S.C. 701(a)(2)).

Purpose

This grant program supports the provision of comprehensive care (diagnosis and treatment) for people with hemophilia and other congenital bleeding disorders and their families through an integrated regional network of centers for such disorders. This grant will be used to promote in the Maternal and Child Health Bureau Hemophilia Program Region IV North: (1) Comprehensive care to meet the needs including medical, psycho-social, peer support, and genetic testing and counseling of individuals with hemophilia and other congenital bleeding disorders and their families throughout their life time; (2) outreach to unserved and underserved people with congenital bleeding disorders; and (3) collaboration with HTC's within the defined area and promotion of family-centered care within the client population.

The grant also supports the provision of regional coordination and administration including regional services for planning, service coordination and allocation of funds for comprehensive care to ensure those persons with hemophilia and other congenital bleeding disorders and their families have access to high quality care. Regional services should be based upon a regional needs assessment and should include capacity building, communication and information dissemination, regional strategic planning, data collection and analyses, and the coordination of training and technical assistance to affiliated treatment centers, as needed.

Eligibility

Under SPRANS project grant regulations at 42 CFR 51a.3, any public or private entity, including an Indian tribe or tribal organization (as defined at 25 U.S.C. 450b), is eligible to apply for funding covered by this announcement. Faith-based and community-based organizations are eligible to apply for these funds. Preference for funding will be given to applicants having a

geographical location within MCHB Hemophilia Region IV-North. Applicants having a geographical location outside of MCHB Hemophilia Region IV-North will receive consideration only if there is no acceptable application received from within MCHB Hemophilia Region IV-North.

Funding Level/Project Period

\$360,000 in FY 2003 is available to support the award of one grant with a project period of up to two years. Funding beyond FY 2003 is contingent upon satisfactory performance and the availability of funds.

The applicant will not be required to match or share in project costs if an award is made.

Review Criteria

Applications that are complete and responsive to the guidance will be evaluated by an objective review panel specifically convened for this solicitation and in accordance with applicable policies and procedures. In general, applications for this grant program will be reviewed using the following criteria listed in descending order of priority:

The extent to which the project will contribute to improvement of the health of persons with hemophilia and other congenital bleeding disorders, including the extent to which the project will accomplish a number of specific priorities (described in the project guidance) which are consistent with regulatory review criteria generally applicable to all Title V programs (at 42 CFR 51a.5) and are relevant to the specific project (65 points). This should incorporate the following components:

- Access to comprehensive care for individuals diagnosed with hemophilia and hemophilia/HIV and other congenital bleeding disorders as described in the *Current Standards and Criteria for the Care of Persons with Congenital Bleeding Disorders* as published by the National Hemophilia Foundation (NHF) which will be made available in the program guidance (25 points);
- Outreach to those not being served by Federally-funded hemophilia treatment centers (15 points);
- Emphasis on prevention to reduce complications and morbidity associated with hemophilia (5 points);
- Linkage of hemophilia treatment centers with primary care providers for children and adults served by the hemophilia treatment centers (5 points);
- Collaboration and coordination of services with State Title V Maternal and Child Health Programs; Ryan White

Titles I, II, and III, HIV community-based organizations; State and local health agencies; Ryan White Title IV HIV comprehensive family-centered care projects, prevention, education and peer support activities; national and local consumer organizations, including the National Hemophilia Foundation and its Chapters (5 points);

- Evidence of formal patient choice and grievance policies and procedures (5 points);
- Participation in other significant activities, and a description of any involvement with factor replacement product programs (5 points).
- The extent to which (A) the project personnel are well qualified by training and/or experience for their roles in the project and the applicant organization has adequate facilities and personnel; and (B) there is a plan for management of the regional network of hemophilia diagnostic and treatment centers (15 points). In addressing this criterion please describe the following items:
 - Regional program management;
 - Fostering communication among and providing technical assistance and training to HTC's;
 - Other significant regional activities;
 - The extent to which the estimated cost to the government of the project is reasonable, considering the anticipated results (10 points).
 - The strength of the project's plan for evaluation (10 points).

Additional criteria may be used to review and rank applications for this competition. Any such criteria will be identified in the program guidance included in the application kit.

Applicants should pay strict attention to addressing these criteria, in addition to those referenced above. Also, to the extent that regulatory review criteria generally applicable to all Title V programs (at 42 CFR part 51a.5) are relevant to this specific project, such factors will be taken into account.

Paperwork Reduction Act

OMB approval for any data collection in connection with this grant will be sought, as required under the Paperwork Reduction Act of 1995.

Public Health System Reporting Requirements

This program is subject to the Public Health System Reporting Requirements (approved under OMB No. 0937-0195). Under these requirements, the community-based non-governmental applicant must prepare and submit a Public Health System Impact Statement (PHSIS). The PHSIS is intended to provide information to State and local health officials to keep them apprised of

proposed health services grant applications submitted by community-based non-governmental organizations within their jurisdictions. The project abstract may be used in lieu of the one-page PHSIS.

Community-based non-governmental applicants are required to submit the following information to the head of the appropriate State and local health agencies in the area(s) to be impacted no later than the Federal application receipt due date:

- (a) A copy of the face page of the application (SF 424).
- (b) A summary of the project (PHSIS), not to exceed one page, which provides:
 - (1) A description of the population to be served.
 - (2) A summary of the services to be provided.
 - (3) A description of the coordination planned with the appropriate State and local health agencies.

Executive Order 12372

The MCH Federal Set-Aside program has been determined to be a program which is not subject to the provisions of Executive Order 12372 concerning intergovernmental review of Federal programs.

Dated: March 31, 2003.

Dennis P. Williams,

Deputy Administrator.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate

of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Practitioner Services Network Initiative—New—SAMHSA's Center for Substance Abuse Treatment (CSAT), plans to obtain information about the providers, care and characteristics of clients with substance abuse disorders and related co-morbidities that receive treatment from practitioners in private practice and organizational settings. This information is needed to complement available information about the substance abuse treatment provided in institutional and publicly funded settings, in order to more completely describe the full range and nature of substance abuse problems affecting the nation.

The CSAT Practitioner Services Network initiative provides support to six of the largest behavioral health associations in the nation to design and implement surveys using representative samples of their members and the clients they serve. The membership of the selected Associations collectively represent a significant proportion of the behavioral health professionals in the country. Two of these associations, the American Psychiatric Association and the American Psychological Association, have separately functioning internet-based PSN infrastructures; from these two groups CSAT will be able to purchase reports based on the data they have already collected.

For four other associations (*i.e.*, the American Association for Marriage and Family Therapy; the American Counseling Association; NAADAC, The Association for Addiction Professionals; and the National Association of Social Workers), CSAT will sponsor new data collection efforts to provide a core set of data elements to be collected in their upcoming membership surveys. The four Associations conduct periodic sample surveys of their memberships through their individual Practitioner Services Network infrastructures and will incorporate a common set of specific substance-abuse questions that are of importance to CSAT into these studies. CSAT will sponsor data collection and purchase, from each Association, a report that addresses the characteristics of practitioners who may be expected to encounter clients with substance abuse disorders, the characteristics of clients with behavioral
