Agricultural Marketing Service

[Doc. No. AMS-AMS-23-0005]

2023/2024 Rates Charged for AMS Services

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: The Agricultural Marketing Service (AMS) is announcing the 2023/2024 rates it will charge for voluntary grading, inspection, certification, auditing, and laboratory services for a variety of agricultural commodities including meat and poultry, fruits and vegetables, eggs, dairy products, rice, and cotton and tobacco. The 2023/2024 regular, overtime, holiday, and laboratory services rates will be applied at the beginning of the crop year, fiscal year or as required by law depending on the commodity. Other starting dates are added to this notice based on cotton industry practices. This action establishes the rates for user-funded programs based on costs incurred by AMS. This year, cost-based analyses indicated the need to increase user fee rates when current rates are insufficient to cover the costs of providing the service. While cost-saving measures have and will continue to be implemented, user fee rate increases are necessary to offset rising operational costs. In cases where current rates are sufficient to cover the costs of providing the service, user fee rates remain unchanged.

DATES: May 23, 2023.

FOR FURTHER INFORMATION CONTACT: Melissa Bailey, Associate Administrator, AMS, USDA, Room 2036-S, 1400 Independence Ave. SW, Washington, DC 20250; telephone (202) 205-9356, or email melissa.bailey@usda.gov.

SUPPLEMENTARY INFORMATION: The Agricultural Marketing Act of 1946, as

amended (AMA) (7 U.S.C. 1621–1627), provides for the collection of fees to cover costs of various inspection, grading, certification, or auditing services covering many agricultural commodities and products. The AMA also provides for the recovery of costs incurred in providing laboratory services. The Cotton Statistics and Estimates Act (7 U.S.C. 471–476) and the U.S. Cotton Standards Act (7 U.S.C. 51–65) provide for classification of cotton and development of cotton standards materials necessary for cotton classification. The Cotton Futures Act (7 U.S.C. 15b) provides for futures certification services, and the Tobacco Inspection Act (7 U.S.C. 511–511s) provides for tobacco inspection and grading. These Acts also provide for the recovery of costs associated with these services.

On November 13, 2014, the U.S. Department of Agriculture (Department) published in the **Federal Register** a final rule that established standardized formulas for calculating the fees charged by AMS user-funded programs (79 FR 67313). On the basis of rates calculated using these formulas, AMS is to determine the fee rates necessary to sustain program services. Every year since then, the Department has published in the **Federal Register** a notice announcing the rates for its user-funded programs.

This notice announces the 2023/2024 fee rates for voluntary grading, inspection, certification, auditing, and laboratory services for a variety of agricultural commodities including meat and poultry, fruits and vegetables, eggs, dairy products, rice, and cotton and tobacco on a per-hour rate and, in some instances, the equivalent per-unit cost. The per-unit cost is provided to facilitate understanding of the costs associated with the service to the industries that historically used unit-cost basis for payment. Fee rates will be effective at the beginning of the fiscal year, crop year, or as required by specific laws.

Rates reflect direct and indirect costs of providing services. Direct costs include the cost of salaries, employee benefits, and, if applicable, travel and some operating costs. Indirect or overhead costs include the cost of Program and Agency activities supporting the services provided to the industry. The formula used to calculate

these rates also includes operating reserve, which may add to or draw upon the existing operating reserves.

These services include the grading, inspection, or certification of quality factors in accordance with established U.S. Grade Standards or other specifications; audits or accreditation according to International Organization for Standardization (ISO) standards and/or Hazard Analysis and Critical Control Point (HACCP) principles; and other marketing claims. The quality grades serve as a basis for market prices and reflect the value of agricultural commodities to both producers and consumers. AMS' grading and certification, audit and accreditation, plant process and equipment verification, and laboratory approval services are voluntary tools paid for by the users on a fee-for-service basis. The agriculture industry can use these tools to promote and communicate the quality of agricultural commodities to consumers. Laboratory services are provided for analytic testing, including but not limited to chemical, microbiological, biomolecular, and physical analyses. AMS is required by statute to recover the costs associated with these services.

As required by the Cotton Statistics and Estimates Act (7 U.S.C. 471–476), consultations regarding the establishment of the fee for cotton classification with U.S. cotton industry representatives are held in the beginning of the year when most industry stakeholder meetings take place. Representatives of all segments of the cotton industry, including producers, ginner, bale storage facility operators, merchants, cooperatives, and textile manufacturers were informed of the fees during various industry-sponsored forums.

Rates Calculations

AMS calculated the rate for services, per hour per program employee, using the following formulas (a per-unit base is included for programs that charge for services on a per-unit basis):

(1) *Regular rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours for the previous year, which is then multiplied by the next year's percentage of cost of living increase, plus the benefits rate, plus the operating rate, plus the allowance for

bad debt rate. If applicable, travel expenses may also be added to the cost of providing the service.

(2) *Overtime rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours, which is then multiplied by the next year's percentage of cost of living increase and then multiplied by 1.5, plus the benefits rate,

plus the operating rate, plus an allowance for bad debt. If applicable, travel expenses may also be added to the cost of providing the service.

(3) *Holiday rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours, which is then multiplied by the next year's percentage of cost of living increase and then

multiplied by 2, plus the benefits rate, plus the operating rate, plus an allowance for bad debt. If applicable, travel expenses may also be added to the cost of providing the service.

All rates are per-hour except when a per-unit cost is noted. The specific amounts in each rate calculation are available upon request from the specific AMS program.

Foreign-Trade Zones Board

[S–89–2023]

Foreign-Trade Zone 244; Subzone 244A Application for Expansion; Skechers USA, Inc.; Banning, California

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the March Joint Powers Authority, grantee of FTZ 244, requesting an expansion of Subzone 244A on behalf of Skechers USA, Inc., in Banning, California. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on May 16, 2023.

Subzone 244A was approved by the FTZ Board on December 20, 2010 (Board Order 1734, 76 FR 87, January 3, 2011) and was converted to a subzone under the alternative site framework (ASF) on July 9, 2018 (S–99–2018). Subzone 244A currently consists of the following sites in Riverisde County: Site 1 (120.5 acres)—29800 Eucalyptus Avenue, Moreno Valley; Site 2 (16 acres)—22705 Newehope Drive, Moreno Valley; and Site 3 (29.09 acres)—3350 Redlands Avenue, Perris.

The applicant is now requesting to expand Subzone 244A to include an additional site: Site 4 (63.9 acres)—2600 East John Street, Banning, Riverside County. Because the site of the proposed expanded subzone is outside FTZ 244's ASF service area, authorization of the expanded subzone would not be under the ASF. The expanded subzone would
