

3050 Martin Luther King, Jr. Drive,
Shreveport, LA 71107. Grant: \$391,490.

Region VII

18. University of Kansas Center for
Research, Ms. Rona Chamberlain, 2385
Irving Hill Road, Lawrence, KS 66045.
Grant: \$400,000.

Region VIII

19. University of Utah, Mr. William
Ernest, 1471 Federal Way, Salt Lake
City, UT 84102. Grant: \$399,702.

Region IX

20. Los Angeles Trade Technical
College, Dr. Denise G. Fairchild, 400
West Washington Blvd., Los Angeles,
CA 90015. Grant: \$200,000.

21. The Regents of the University of
California, Ms. Patricia Gates, 336
Sproul Hall, Berkeley, CA 94720. Grant:
\$200,000.

Dated: December 3, 2004.

Dennis C. Shea,

*Assistant Secretary for Policy Development
& Research.*

BILLING CODE 4210-62-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4900-FA-02]

Announcement of Funding Awards for Fiscal Year 2004 Early Doctoral Student Research Grant Program

AGENCY: Office of the Assistant
Secretary for Policy Development and
Research, HUD.

ACTION: Announcement of funding
awards.

SUMMARY: This document identifies the
doctoral students selected for funding
under the Fiscal Year (FY) 2004 Early
Doctoral Student Research Grant
(EDSRG) Program. The EDSRG program
enables doctoral students to cultivate
their research skills through the
preparation of research manuscripts that
focus on policy-relevant housing and
urban development issues.

FOR FURTHER INFORMATION CONTACT:
Susan Brunson, Office of University
Partnerships, Department of Housing
and Urban Development, Room 8106,
451 Seventh Street, SW., Washington,
DC 20410-6000, telephone (202) 708-
3061, ext. 3852. To provide service for
persons who are hearing-or speech-
impaired, this number may be reached
through TTY by dialing the Federal
Information Relay Service on 800-877-
8339 or 202-708-1455. (Telephone
numbers, other than "800" TTY
numbers are not toll free).

SUPPLEMENTARY INFORMATION: The
EDSRG enables students to cultivate
their research skills through the
preparation of research manuscripts that
focus on policy-relevant housing and
urban development issues. Doctoral
students have 12 months to complete a
major research study. The maximum
amount to be awarded is \$15,000.

This program is administered by the
Associate Deputy Assistant Secretary for
University Partnerships. This Office also
administers Policy Development and
Research's other grant programs for
academics.

The Catalog of Federal Domestic
Assistance number for this program is
14.517.

On May 14, 2004 (69 FR 27111), HUD
published a Notice of Funding
Availability (NOFA) announcing the
availability of \$150,000 in FY 2004
funds for the EDSRG Program. The
Department reviewed, evaluated and
scored the applications received based
on the criteria in the NOFA. As a result,
HUD has funded the applicants
identified below, and in accordance
with Section 102(a)(4)(C) of the
Department of Housing and Urban
Development Reform Act of 1989 (103
Stat. 1987, U.S.C. 3545), the Department
is publishing details concerning the
recipients of funding awards. More
information about the winners can be
found at <http://www.oup.org>.

List of Awardees for Grant Assistance Under the FY 2004 Early Doctoral Student Research Grant Program Funding Competition, by Institution, Address, Grant Amount and Name of Student Funded

1. University of Pittsburgh, Graduate
School of Public and International
Affairs, 350 Thackeray Hall, Pittsburgh,
PA 15260. Grant: \$14,900 to Flexi Au
Yeung.

2. Kansas State University,
Department of Economics, 2 Fairchild
Hall, Manhattan, KS 66506. Grant:
\$15,000 to Heather Luea.

3. University of Texas at Arlington,
School of Urban and Public Affairs, Box
19588, 601 South Nedderman Drive,
Arlington, TX 76019. Grant: \$14,200 to
Marlene O' Meara.

4. The Regents of the University of
California, Political Science
Department, 2000 University Office
Building, Riverside, CA 92521. Grant:
\$15,000 to Jeffery McLaughlin.

5. The Regents of the University of
California, UCLA-Department of
Sociology, 10920 Wilshire Blvd., Suite
1200, Los Angeles, CA 90024. Grant:
\$15,000 to Andrew Deener.

6. Georgia Institute of Technology,
275 5th Street, 1st Floor, Atlanta, GA
30332. Grant: \$15,000 to Valerie Riecke.

7. Virginia Polytechnic Institute &
State University, 460 Turner Street,
Suite 306, Blacksburg, VA 24060. Grant:
\$15,000 to Karen Daniels-Lang.

8. The Regents of the University of
California, UCLA-Department of
Sociology, 10920 Wilshire Blvd., Suite
1200, Los Angeles, CA 90024. Grant:
\$15,000 to R. Varisa Patraporn.

Dated: December 3, 2004.

Dennis C. Shea,

*Assistant Secretary for Policy Development
& Research.*

BILLING CODE 4210-62-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Recovery Plan for Five Plants From Monterey County, CA

AGENCY: U.S. Fish and Wildlife Service,
Interior.

ACTION: Notice of document availability.

SUMMARY: The U.S. Fish and Wildlife
Service ("we") announces the
availability of the final Recovery Plan
for Five Plants from Monterey County,
California. This recovery plan includes
the following species: *Astragalus tener*
var. *titi* (coastal dunes milk-vetch),
Piperia yadonii (Yadon's piperia),
Potentilla hickmanii (Hickman's
potentilla), *Trifolium trichocalyx*
(Monterey clover), and *Cupressus*
goveniana ssp. *goveniana* (Gowen
cypress). *Astragalus tener* var. *titi*,
Piperia yadonii, *Potentilla hickmanii*,
and *Trifolium trichocalyx* are listed as
endangered. *Cupressus goveniana* ssp.
goveniana is listed as a threatened
species. These plant species are found
primarily along the coast of northern
Monterey County, California. *Potentilla*
hickmanii also occurs in San Mateo
County and has occurred historically in
Sonoma County. *Astragalus tener* var.
titi has occurred historically in Los
Angeles and San Diego Counties,
California. This recovery plan includes
specific criteria and actions to be taken
in order to effectively recover the
species.

ADDRESSES: Copies of this recovery plan
are available by request from the U.S.
Fish and Wildlife Service, Ventura Fish
and Wildlife Office, 2493 Portola Road,
Suite B, Ventura, California 93003
(telephone: 805/644-1766). An
electronic copy of the recovery plan is
also available at: <http://>

www.endangered.fws.gov/recovery/index.html#plans.

FOR FURTHER INFORMATION CONTACT:

Diane Steeck, Fish and Wildlife Biologist, at the above Ventura address.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. The Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Recovery plans help guide the recovery effort by describing actions considered necessary for the conservation of the species, establishing criteria for the recovery levels for downlisting or delisting them, and estimating time and cost for implementing the recovery measures needed.

Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. In fulfillment of this requirement, the Draft Recovery Plan for Five Plants from Monterey County, California, was available for public comment from May 13, 2002, through July 12, 2002 (67 FR 32003). Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in the appendix to the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions.

The five plants addressed in this final recovery plan are threatened by one or more of the following: alteration, destruction, and fragmentation of habitat resulting from urban and golf course development; recreational activities; competition with nonnative plant species; herbivory from native or nonnative species; demographic stochasticity; modifications in hydrology; loss of individuals from roadside maintenance activities; and disruption of natural fire cycles due to fire suppression associated with increasing residential development around and within occupied habitat.

The objective of this plan is to provide a framework for the recovery of these species so that protection by the Act is no longer necessary. Actions necessary to accomplish this objective

include: (1) Permanent protection of habitat presently occupied by the species and the surrounding ecosystem on which they depend, with long-term commitments to conserving the species; (2) in protected habitat, successful control of invasive nonnative plants and successful management of other problems through at least 12 years; (3) development of management strategies that include results from research on the life histories of the taxa, and results from monitoring the species' responses to vegetation management; (4) surveys for additional populations, and successful reintroductions or establishment of populations for *Astragalus tener* var. *titi*, *Potentilla hickmanii*, and *Trifolium trichocalyx*, with populations of all five species assured of long-term survival; (5) establishment of seed banks; and (6) existing populations of *Cupressus goveniana* ssp. *goveniana* are assured of long-term survival, including successful recruitment and reproduction. Once these criteria have been met, *Cupressus goveniana* ssp. *goveniana* may be considered for delisting and *Astragalus tener* var. *titi*, *Piperia yadonii*, *Potentilla hickmanii*, and *Trifolium trichocalyx* may be considered for downlisting.

Authority: The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: August 19, 2004.

Steve Thompson,

Manager, California/Nevada Operations Office, Region 1, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Recovery Plan for *Chorizanthe robusta* var. *robusta* (Robust Spineflower)

AGENCY: U.S. Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces the availability of the Recovery Plan for *Chorizanthe robusta* var. *robusta* (Robust Spineflower). This plant taxon is found along the central coast of California, primarily in Santa Cruz and Marin Counties. Historically, this plant also occurred in San Francisco, Alameda, Santa Clara, San Mateo, and Monterey Counties, California.

ADDRESSES: Copies of this recovery plan are available by request from the U.S. Fish and Wildlife Service, Ventura Fish

and Wildlife Office, 2493 Portola Road, Suite B, Ventura, California 93003 (telephone: 805-644-1766). An electronic copy of the recovery plan is also available at: <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT:

Connie Rutherford, Botanist, at the above Ventura address.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. To help guide the recovery effort, we are working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for the recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act (Act) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Draft Recovery Plan for *Chorizanthe robusta* var. *robusta* was available for public comment from September 19, 2000, through November 20, 2000 (65 FR 56590). Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in Appendix C of the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so they can take these comments into account in the course of implementing recovery actions.

Chorizanthe robusta var. *robusta* was listed as endangered in 1994, and 190 hectares (469 acres) of critical habitat were designated in 2002. *Chorizanthe robusta* var. *robusta* is restricted to sandy soils along the coast and near-coastal areas in Santa Cruz County, and from the Point Reyes National Seashore in Marin County, California.

Chorizanthe robusta var. *robusta* is threatened by urban development, recreational activities, and competition with non-native vegetation. In addition, some of the populations contain very
