

process requires that certain types of documents be tabbed for easy identification. Any tabs removed during the research and copying must be replaced.

3. The researcher will mark the documents that he or she wants to copy using Post-It Notes or WNRC Reproduction Tabs.

4. Any notes taken during the review process must be given to the WNRC staff for transmittal to the Declassification Branch.

5. When documents are being copied, a DoD/WH/Declassification and Historical Research Branch staff member must be present at all times. In agreeing to permit the copying of documents from OSD classified files at the WNRC, the WNRC is requiring that the Declassification and Historical Research Branch be held solely responsible for the copying process. The staff member is only there to monitor the copying and ensure that all records management and security procedures are followed.

6. The Declassification and Historical Research Branch will supply the copier and toner cartridge.

7. The researcher will need to bring paper, staples, staple remover, stapler, and Post-It Notes.

8. When the researcher completes the review of the boxes, he or she must contact the Declassification and Historical Research Branch to establish a final schedule for copying the needed documents.

9. The documents must be given to the Declassification and Historical Research Branch staff member for transmittal to the Declassification and Historical Research Branch Office for processing.

10. When the documents are ready to be picked up or mailed, the Declassification and Historical Research Branch will notify the office.

11. All questions pertaining to the review, copying, or transmittal of OSD documents must be addressed to the OSD action officer.

12. The WNRC staff can only answer questions regarding the use of their facility.

SUPPLEMENTARY INFORMATION:

Background

On January 18, 2007 (72 FR 2340), FMCSA published an NPRM to amend the Federal Motor Carrier Safety Regulations (FMCSRs) to incorporate new performance standards for electronic on-board recorders (EOBRs) installed in commercial motor vehicles (CMVs) manufactured on or after the date 2 years following the effective date of the final rule. On-board hours-of-service recording devices meeting FMCSA's current requirements and voluntarily installed in CMVs manufactured before the implementation date of a final rule may continue to be used for the remainder of the service life of those CMVs.

Under the proposal, motor carriers that have demonstrated a history of serious noncompliance with the hours-of-service (HOS) rules would be subject to mandatory installation of EOBRs meeting the new performance standards. If FMCSA determined, based on HOS records reviewed during each of two compliance reviews conducted within a 2-year period, that a motor carrier had a 10 percent or greater violation rate ("pattern violation") for any regulation in proposed Appendix C to part 385, FMCSA would issue the carrier an EOBR remedial directive. The motor

carrier would be required to install EOBRs in all of its CMVs regardless of their date of manufacture. The motor carrier would have to use the devices for HOS recordkeeping for a period of 2 years, unless: (1) the carrier already had equipped its vehicles with automatic on-board recording devices (AOBRDs) meeting the Agency's current requirements under 49 CFR 395.15 and (2) could demonstrate to FMCSA that its drivers understood how to use the devices.

The FMCSA also proposed changes to the safety fitness standard that would require these carriers, i.e., those with a pattern of violations, to install, use, and maintain EOBRs in order to meet the new standard. Finally, the Agency would encourage industry-wide use of EOBRs by providing the following incentives for motor carriers to voluntarily use EOBRs in their CMVs: (1) Revise the Agency's compliance review procedures to permit examination of a random sample of drivers' records of duty status; (2) provide partial relief from HOS supporting documents requirements, if certain conditions are satisfied; and (3) offer other potential incentives made possible by the inherent safety and driver health benefits of EOBR technology.

Purpose of the Listening Session

The FMCSA is committed to providing all interested parties an opportunity to discuss their perspectives on the pertinent issues that could affect any potential rulemaking changes. The Agency expects to receive numerous comments in response to its EOBR NPRM but believes additional information could be obtained through this listening session. The Agency is planning to hold two additional listening sessions on this rulemaking in the near future. A **Federal Register** notice announcing the dates and locations of the meetings will be published in advance.

Participants in the listening session will be given the opportunity to submit questions that they would like to hear discussed by others in attendance. Participants are discouraged from reading prepared statements. Individuals who wish to submit written comments or statements should submit the information to the public docket identified at the beginning of this notice. Those who desire notification of receipt of comments must include a self-addressed, stamped envelope or postcard. Comments made during the meeting will be transcribed to preserve an accurate record of the discussion.

Meeting Information

The meeting will be held from 9:30 a.m. to 4:30 p.m., e.t., on Monday, March 12, 2007, in Room 2230, Nassif Building, 400 Seventh Street, SW., Washington, DC. Because access to the DOT building is controlled, all visitors must sign in with the security office located at the southwest entrance of the building, present identification with a picture on it, be escorted, and wear a visitor's badge at all times while in the building.

Individuals who wish to make a formal presentation should contact Ms. Deborah Freund at 202-366-4009 or e-mail her at deborah.freund@dot.gov no later than 5 p.m., e.t., on March 8, 2007, to ensure that sufficient time is allotted for the presentation and to identify any audio-visual equipment needed for the presentation.

Individuals who are unable to attend the meeting may submit written comments to the docket identified at the beginning of this notice by April 18, 2007, the closing date for comments to the January 18, 2007, NPRM on EOBRs.

Issued on: February 21, 2007.

Assistant Administrator, Chief Safety Officer.
