

SUPPLEMENTARY INFORMATION: Notice is hereby given of the availability of the final evaluation findings for the Hawaii Coastal Management Program and the Hudson River (New York) National Estuarine Research Reserve (NERR). Sections 312 and 315 of the Coastal Zone Management Act of 1972 (CZMA), as amended, require a continuing review of the performance of coastal states with respect to approval of CMPs and the operation and management of NERRs. The State of Hawaii was found to be implementing and enforcing its federally approved coastal management program, addressing the national coastal management objectives identified in CZMA Section 303(2)(A)–(K), and adhering to the programmatic terms of their financial assistance awards. The Hudson River NERR was found to be adhering to programmatic requirements of the NERR System.

Copies of these final evaluation findings may be obtained upon written request from: Kate Barba, Chief, National Policy and Evaluation Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, 10th Floor, N/ORM7, Silver Spring, Maryland 20910, or Kate.Barba@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Kate Barba, Chief, National Policy and Evaluation Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, 10th Floor, N/ORM7, Silver Spring, Maryland 20910, (301) 563–1182.

Foreign–Trade Zones Board

[Order No. 1672]

Expansion of Foreign–Trade Zone 75, Phoenix, Arizona

Pursuant to its authority under the Foreign–Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign–Trade Zones Board (the Board) adopts the following Order:

Whereas, the City of Phoenix, grantee of Foreign–Trade Zone 75, submitted an application to the Board for authority to expand its zone to include the jet–fuel

storage and distribution system at and adjacent to the Phoenix Sky Harbor International Airport (Site 5) in Phoenix, Arizona, within the Phoenix Customs and Border Protection port of entry (FTZ Docket 17–2009, filed 4/23/09);

Whereas, notice inviting public comment was given in the **Federal Register** (74 FR 19935–19936, 4/30/09) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that the proposal is in the public interest;

Now, therefore, the Board hereby orders:

The application to expand FTZ 75 is approved, subject to the FTZ Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 23rd day of March 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration, Alternate Chairman, Foreign–Trade Zones Board.

Attest:

Andrew McGilvray,

Executive Secretary.

National Institute of Standards and Technology

[Document Number: 090306279–0146–02]

Final Voluntary Product Standard; DOC PS 20–10 “American Softwood Lumber Standard”

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) announces voluntary product standard DOC PS 20–10 “American Softwood Lumber Standard” which will supersede DOC PS 20–05. The Standard establishes standard sizes and requirements for developing and coordinating the lumber grades of the various species of softwood lumber, the assignment of design values, and the preparation of grading rules applicable to each species. Its provisions include implementation of the Standard through an accreditation and certification

program; establishment of principal trade classifications and lumber sizes for yard, structural, factory/shop use: Classification, measurement, grading and grade-marking of lumber; Definitions of terms and procedures to provide a basis for the use of uniform methods in the grading, inspection, measurement and description of softwood lumber; commercial names of the principal softwood species; Definitions of terms used in describing standard grades in lumber; and commonly used industry abbreviations. The Standard also includes the organization and functions of the American Lumber Standard Committee, the Board of Review, and the National Grading Rule Committee.

DATES: DOC PS 20–10 “American Softwood Lumber Standard,” a voluntary product standard developed under Department of Commerce procedures, becomes effective June 1, 2010, for products produced thereunder on and after that date. The standard being superseded, DOC PS 20–05 “American Softwood Lumber Standard,” is effective for products produced thereunder through May 31, 2010.

ADDRESSES: Requests for a copy of DOC PS 20–10 should be submitted to: Standards Services Program, NIST, 100 Bureau Drive Stop 2100, Gaithersburg, MD 20899–2150. The standard is also available at <http://ts.nist.gov/Standards/Conformity/vps.cfm>.

FOR FURTHER INFORMATION CONTACT: David F. Alderman, Standards Services Division, telephone: 301–975–4019, fax: 301–975–4715, or e-mail david.alderman@nist.gov.

SUPPLEMENTARY INFORMATION: DOC PS 20–10 “American Softwood Lumber Standard” was developed by the American Lumber Standard Committee, the Standing Committee responsible for maintaining the standard. The revision was processed in accordance with provisions of Department of Commerce “Procedures for the Development of Voluntary Product Standards” (15 CFR part 10). A notice, which appeared in the **Federal Register** on April 3, 2009 (74 FR 15255) announced NIST's circulation of the revision for public review, requested public comments, and provided the history of the revision.

Analysis of Comments

NIST received one comment from an association representing lumber retailers.

Comment: The commenter requested that the standard be expanded to include a “single regime” for verifying the eco-attribute of lumber products with an on-product eco-label.

Response: NIST did not make the requested change because the scope of DOC PS 20 deals with the grade marking of various softwood lumber and the addition of eco-labeling is therefore considered outside the scope of this standard.

DOC PS 20–10 supersedes DOC PS 20–05, effective June 1, 2010. The new edition reflects efforts toward updating and improving DOC PS 20 with clarification and amplification of text and terms while maintaining the technical requirements and administrative structure for implementing and enforcing the Standard.

Dated: March 30, 2010.

Marc G. Stanley,

Acting Deputy Director.

National Oceanic and Atmospheric Administration

Federal Geospatial Summit To Provide Information on Upcoming Improvements To the National Spatial Reference System (NSRS), Including the Replacement of the North American Datum of 1983 (NAD 83) and the North American Vertical Datum of 1988 (NAVD 88)

AGENCY: National Geodetic Survey (NGS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Public meeting.

SUMMARY: The National Geodetic Survey (NGS) will host a Federal Geospatial Summit to discuss the impact updating the National Spatial Reference System (NSRS) will have on federal government agencies by replacing the North American Datum of 1983 (NAD 83), the North American Vertical Datum of 1988 (NAVD 88), and other state and territorial island vertical datums. The proposed changes will affect the surveying, mapping, charting, and Geographic Information System (GIS) programs of federal government agencies, as well as those tribal, state, county, and municipal governments that have adopted the NSRS.

DATES: The public meeting will be held Tuesday, May 11 and Wednesday, May 12, 2010 from 8:30 a.m. to 5 p.m.

ADDRESSES: The meeting location is the National Oceanic and Atmospheric Administration's (NOAA) Science Center and Auditorium, located at 1301

East-West Highway, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Christine Gallagher, Program Analyst, National Geodetic Survey (N/NGS1), 1315 East-West Highway, Silver Spring, MD 20910; Phone: (301) 713–3231 x 105; E-mail: christine.gallagher@noaa.gov.

SUPPLEMENTARY INFORMATION:

Abstract

In January 2008, NGS adopted a 10-year plan identifying the need to change the geometric and vertical geodetic datums of the United States to improve the efficient use of the NAVSTAR Global Positioning System (GPS). Continuing technological developments and enhancements in space-based positioning, navigation, and timing systems by the United States, as well as in other international programs, including the Chinese global satellite navigation system COMPASS, the European Union's satellite navigation system GALILEO, and the Russian GLONASS (Global'naya Navigatsionnaya Sputnikovaya Sistema), will have a profound impact on the integration of Global Navigation Satellite System (GNSS) technologies with Federal surveying, mapping, charting, and GIS programs. In an effort to support these rapid changes in positioning technologies, NGS has adopted a plan to replace NAD 83 and NAVD 88, as well as other state and territorial island datums, with more contemporary geodetic reference systems, thereby reducing several significant impediments to the efficient use of these positioning and navigation systems. This meeting will serve as a forum to allow Federal geospatial program managers, technical specialists, and contractors to address the impacts of the planned changes, offer an opportunity to discuss these changes, and explain how NGS may provide training and technical assistance to ensure minimal technical and budgetary impacts resulting from these new systems.

Dated: March 19, 2010.

Juliana P. Blackwell,

Director, Office of National Geodetic Survey, National Ocean Service, National Oceanic and Atmospheric Administration.

National Oceanic and Atmospheric Administration (NOAA)

Marine Protected Areas Federal Advisory Committee; Public Meeting

AGENCY: National Ocean Service, NOAA, Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: Notice is hereby given of a meeting of the Marine Protected Areas Federal Advisory Committee (Committee) in Charleston, South Carolina.

DATES: The meeting will be held Tuesday, April 20, 2010, from 9 a.m. to 5:30 p.m., Wednesday, April 21, from 8:30 a.m. to 12 p.m., and Thursday, April 22, from 8:30 a.m. to 4:30 p.m. These times and the agenda topics described below are subject to change. Refer to the web page listed below for the most up-to-date meeting agenda.

ADDRESSES: The meeting will be held at the Francis Marion Hotel, 387 King Street, Charleston, South Carolina.

FOR FURTHER INFORMATION CONTACT:

Lauren Wenzel, Designated Federal Officer, MPA FAC, National Marine Protected Areas Center, 1305 East West Highway, Silver Spring, Maryland 20910. (Phone: 301–713–3100 x136, Fax: 301–713–3110); e-mail: lauren.wenzel@noaa.gov; or visit the National MPA Center Web site at <http://www.mpa.gov>.

SUPPLEMENTARY INFORMATION: The Committee, composed of external, knowledgeable representatives of stakeholder groups, was established by the Department of Commerce (DOC) to provide advice to the Secretaries of Commerce and the Interior on implementation of Section 4 of Executive Order 13158 on MPAs. The meeting will be open to public participation from 4 p.m. to 4:45 p.m. on Tuesday, April 20, 2010, and from 8:35 a.m. to 9:30 a.m. on Thursday, April 22, 2010. In general, each individual or group will be limited to a total time of five (5) minutes. If members of the public wish to submit written statements, they should be submitted to the Designated Federal Official by April 15, 2010.

Matters to be Considered: The focus of the Committee's meeting will be the establishment of appropriate Subcommittees and Workgroups and their development of work plans to address the Committee's new charge. The Committee will receive an update on the Administration's Ocean Policy Task Force and Coastal and Marine
