the purpose of ocean dumping, subject to the following conditions:

(A) The NSF shall implement a spill prevention, control, and countermeasure (SPCC) plan, consistent with the requirements of 40 CFR 112.3, for the McMurdo Station ice pier. The SPCC plan shall address procedures for loading and unloading the following materials, and shall include methods to minimize the accidental release or discharge of any of the following materials to the ice pier:

(1) Petroleum products unloaded from supply tankers to the storage tanks at McMurdo Station;

(2) Drummed chemicals, petroleum products, and materials unloaded from cargo freighters to supply depots at McMurdo Station;

(3) Materials loaded to freighters destined to be returned to facilities outside Antarctica; and

(4) Material spilled as a result of thermosyphon use or related activities.

(B) If a spill or discharge occurs on an ice pier, it will be completely cleaned up, such that no visible evidence remains, unless 100% removal would result in greater environmental risk or put the safety of personnel at risk. All spills or discharges on an ice pier should be cleaned up soon as possible.

(C) An up-to-date record of the following information shall be kept by NSF:

(1) The date and time of all spills or discharges, the location of the spill or discharge, a description of the material that was spilled or discharged, the approximate volume of the spill or discharge, cleanup procedures employed, the amount of gravel and/or ice removed, photos of the spill sites before and after clean-up, if lighting allows, and the results of the clean-up procedures (*e.g.,* estimate of percentage of spill removed);

(2) The length of the steel cables and steel pipe used in the construction of the ice pier;

(3) The length of the steel cables and steel pipe remaining on the ice pier at the time of its release;

(4) Any other materials remaining on the ice pier at the time of its release; and

(5) The date of detachment of the ice pier from McMurdo Station and the geographic coordinates (latitude and longitude) of the point of its release if the release occurs at a location other than directly from shore at McMurdo Station.

(D) NSF shall place a tracking device, as specified in paragraph (F)(3), on the pier prior to ship operations each season.

(E) An ice pier may be released from shore if NSF finds that rapid deterioration of a pier is becoming a threat to human health and safety or because anticipated weather conditions (*e.g.,* strong storms) are likely to break an ice pier apart or break an ice pier loose from its moorings. Should this unanticipated release be needed, an attempt shall be made to meet all of the requirements described in paragraph F below that can be safely completed given the circumstances.

(F) Prior to the towing of an ice pier to sea for ocean disposal or the planned release from shore due to the absence of vessels capable of towing, the following actions shall be taken by NSF:

(1) Other than the matter embedded in the ice pier (*i.e.,* the ends of pipe frozen in the pier, and the strengthening cables), all other objects (including the non-embedded portions of materials used for maintaining a connection between the pier and the mainland and any removable equipment, debris, or objects of anthropogenic origin), shall be removed from the pier and shall not be disposed in the ocean.

(2) The gravel non-slip surface of the pier shall be removed to the maximum extent practicable.

(3) Documentation including photographs, if lighting allows, of ice pier clean-up and of the ice pier just prior to, during and after release shall be developed.

(4) NSF shall implement a methodology using the tracking device placed on the ice pier under Section D above to track the ice piers disposed of under this permit for as long as the device remains active. NSF shall include the tracking data from this effort as well as any visual observations taken regarding the trajectory of the ice pier in the annual report that NSF is required to submit to EPA under paragraph G below.

(G) NSF shall submit a report by June 30 of every year to the Director of the Oceans, Wetlands and Communities Division, in EPA's Office of Water, on

(1) any spills, discharges, or clean-up procedures on the ice pier at McMurdo Station, including but not limited to:

a. Amount of surface gravel removed due to spills,

b. Description of removal of potentially contaminated ice layers,

c. Images, if lighting allows, documenting the spill sites before and after clean-up, and

d. Copies of spill and cleanup records and other records as developed under Section C above.

(2) Detailed reports of all ice pier ocean disposals from McMurdo Station for the year, including:

a. Detailed descriptions and photographs of release of the ice pier from shore including documentation about the circumstances that led to release of the pier from shore and how the pier was released, and if towed, the name and activity of the vessel associated with the disposal,

b. The time, date, and geographic coordinates (latitude and longitude) of the point of release (if released from a location other than directly from shore at McMurdo Station) in McMurdo Sound or the Ross Sea and the tracking data as the ice pier moves on its trajectory in the Southern Ocean,

c. All reports/materials (*e.g.,* documents, photos) generated under paragraphs C, D, E, and F above,

d. Details of clean-up procedures,

e. Amounts of all materials remaining on the piers at the time of release, and

f. Any tracking efforts of ice piers released from McMurdo Station under this general permit for the year preceding the date of the annual report.

(3) A current copy of the SPCC, if revised or updated since previous submission.

(H) For the purpose of this permit, the term ''ice pier(s)'' means those manmade ice structures containing embedded steel cable, and pipe, and any remaining gravel frozen into the surface of the pier, that are constructed at McMurdo Station, Antarctica, for the purpose of off-loading the annual provision of material and supplies for McMurdo and South Pole Stations and for loading the previous year's accumulation of wastes, which are returned to the United States.

(I) This permit shall be valid for a period of seven years beginning 30 days after the date of publication in the **Federal Register**.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2021–0839; FRL–9277–01–OCSPP]

Pesticide Registration Maintenance Fee: Notice of Receipt of Requests To Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by registrants through 2020 Pesticide Registration Maintenance Fee responses to voluntarily cancel certain pesticide

registrations. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw its requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registrations have been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before January 6, 2022.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2021–0839, through the *Federal eRulemaking Portal* at *http://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at *http://www.epa.gov/dockets.*

Submit written withdrawal request by mail to: Registration Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001. ATTN: Michael Yanchulis.

Due to the public health concerns related to COVID–19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit *https://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: Michael Yanchulis, Registration Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 566–2981; email address: *yanchulis.michael@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at *http://www.epa.gov/dockets/comments.html.*

II. What action is the Agency taking?

This notice announces receipt by the Agency of requests from registrants to cancel 289 pesticide products registered under FIFRA section 3 (7 U.S.C. 136a) or 24(c) (7 U.S.C. 136v(c)). These registrations are listed in sequence by registration number (or company number and 24(c) number) in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the requests or the registrants withdraw their requests, EPA intends to issue an order in the **Federal Register** canceling all the affected registrations.

III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. EPA will provide a 30-day comment period on the proposed requests. Thereafter, the EPA Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in via email to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2022, or the date of that the cancellation notice is published in the **Federal Register** whichever is later. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

FEDERAL MARITIME COMMISSION

Agency Information Collection Activities: 60-Day Public Comment Request

AGENCY: Federal Maritime Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of our continuing effort to reduce paperwork and respondent burden, and as required by the Paperwork Reduction Act of 1995, the Federal Maritime Commission (Commission) invites comments on the continuing information collections listed below in this notice.

DATES: Written comments must be submitted on or before February 7, 2022.

ADDRESSES: Submit comments for the proposed information collection requests to Lucille L. Marvin, Managing Director at email: *omd@fmc.gov.* Please refer to the assigned OMB control number on any correspondence submitted. The FMC will summarize any comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Copies of the information collections and instructions, or copies of any comments received, may be obtained by contacting Donna Lee at *omd@fmc.gov* or 202–523–5800.

SUPPLEMENTARY INFORMATION:

Request for Comments

The Commission, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on the continuing information collections listed in this notice, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Comments submitted in response to this notice will be included or summarized in our request for Office of Management and Budget (OMB) approval of the relevant information collection. All comments are part of the public record and subject to disclosure. Please do not include any confidential or inappropriate material in your comments. We invite comments on: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
