Corrosion-Resistant Steel Products From the People's Republic of China: Final Results of the Antidumping Duty Administrative Review; 2020–2021

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that Metalco S.A. (Metalco), the sole company subject to the 2020–2021 administrative review of the antidumping duty order on corrosion-resistant steel products from the People's Republic of China (China), is part of the China-wide entity because it did not demonstrate its eligibility for a separate rate. The period of review (POR) is July 1, 2020, through June 30, 2021.

DATES: Applicable December 5, 2022.

FOR FURTHER INFORMATION CONTACT: Gene H. Calvert, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–3586.

SUPPLEMENTARY INFORMATION**Background**

On August 4, 2022, Commerce published the *Preliminary Results* of this administrative review in the **Federal Register**.¹ Commerce invited interested parties to comment on the *Preliminary Results*; however, no interested parties submitted comments. Accordingly, Commerce made no changes to the *Preliminary Results*. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order²

The products covered by this *Order* are certain flat-rolled steel products,

either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. The products covered include coils that have a width of 12.7 mm or greater, regardless of form of coil (*e.g.*, in successively superimposed layers, spirally oscillating, *etc.*). The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this *Order* are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

2.50 percent of manganese, or
3.30 percent of silicon, or
1.50 percent of copper, or
1.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or

2.00 percent of nickel, or
0.30 percent of tungsten (also called wolfram), or
0.80 percent of molybdenum, or
0.10 percent of niobium (also called columbium), or
0.30 percent of vanadium, or
0.30 percent of zirconium

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels and high strength low alloy (HSLA) steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

Furthermore, this scope also includes Advanced High Strength Steels (AHSS) and Ultra High Strength Steels (UHSS), both of which are considered high tensile strength and high elongation steels.

Subject merchandise also includes corrosion-resistant steel that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching and/or slitting or any other processing that would not otherwise remove the merchandise from the scope of the *Order* if performed in the country of manufacture of the in-scope corrosion resistant steel.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of this *Order* unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of this *Order*:

Flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead (“terne plate”), or both chromium and chromium oxides (“tin free steel”), whether or not painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating;

Clad products in straight lengths of 4.7625 mm or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness; and

Certain clad stainless flat-rolled products, which are three-layered

¹ See *Corrosion-Resistant Steel Products from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2020–2021*, 87 FR 47714 (August 4, 2022) (*Preliminary Results*).

² See *Certain Corrosion-Resistant Steel Products from India, Italy, the People's Republic of China, the Republic of Korea and Taiwan: Amended Final Affirmative Antidumping Determination for India and Taiwan, and Antidumping Duty Orders*, 81 FR 48390 (July 25, 2016) (*Order*), as corrected by *Certain Corrosion-Resistant Steel Products from India, Italy, the People's Republic of China, the Republic of Korea, and Taiwan: Notice of Correction to the Antidumping Duty Orders*, 81 FR

58475 (August 25, 2016) (where Commerce modified the *Order* to correct unintended errors regarding the estimated weight-average dumping margins for China and the date that the extended period of provisional measures expired).

corrosion-resistant flat-rolled steel products less than 4.75 mm in composite thickness that consist of a flat-rolled steel product clad on both sides with stainless steel in a 20 percent-60 percent-20 percent ratio.

The products subject to the *Order* are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under item numbers:

7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030, 7210.49.0091, 7210.49.0095, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, and 7212.60.0000.

The products subject to the *Order* may also enter under the following HTSUS item numbers: 7210.90.1000, 7215.90.1000, 7215.90.3000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, 7217.90.5090, 7225.91.0000, 7225.92.0000, 7225.99.0090, 7226.99.0110, 7226.99.0130, 7226.99.0180, 7228.60.6000, 7228.60.8000, and 7229.90.1000.

The HTSUS subheadings above are provided for convenience and customs purposes only. The written description of the scope of the *Order* is dispositive.

Final Results of Review

Because Commerce received no comments, we made no changes from the *Preliminary Results*. As a result, Commerce continues to find that Metalco, the sole company subject to this administrative review, has not demonstrated its eligibility for separate rate status because it did not file a no-shipment certification or a separate rate application.³ Therefore, Commerce determines that Metalco is part of the China-wide entity.⁴ In this administrative review, no party requested a review of the China-wide entity, and Commerce did not self-initiate a review of the China-wide entity. Because no review of the China-wide entity is being conducted, the China-wide entity's entries are not subject to this review, and the rate applicable to the China-wide entity was not subject to change as a result of this administrative review. The China-wide entity rate remains 199.43 percent.⁵

³ See *Preliminary Results*, 87 FR at 47715 ("Preliminary Results of Review").

⁴ *Id.*

⁵ See *Order*.

Assessment Rates

Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries in accordance with 751(a)(2)(C) of the Act and 19 CFR 351.212(b). Because Commerce determined that Metalco is not eligible for a separate rate and is part of the China-wide entity, Commerce will instruct CBP to apply an *ad valorem* assessment rate of 199.43 percent to all POR entries of subject merchandise that were exported by Metalco.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of these final results in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication of this notice in the **Federal Register**).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) for previously investigated or reviewed Chinese or non-Chinese exporters that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (2) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the China-wide entity (*i.e.*, 199.43 percent); and (3) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or

countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of the countervailing duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these final results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h) and 19 CFR 351.221(b)(5).

Dated: November 25, 2022.

Abdelali Elouaradia,

Deputy Assistant Secretary for Enforcement and Compliance.

Finished Carbon Steel Flanges From India, Italy, and Spain: Continuation of Antidumping Duty Orders and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) orders on finished carbon steel flanges (flanges) from India, Italy, and Spain and countervailing duty (CVD) order on flanges from India would likely lead to continuation or recurrence of dumping, net countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable November 30, 2022.
