### Submission for OMB Review; Comment Request

January 12, 2011.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), [OIRA\\_Submission@OMB.EOP.GOV](mailto:OIRA_Submission@OMB.EOP.GOV) or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

### Grain Inspection, Packers & Stockyards Administration

*Title:* Regulations and Related Reporting and Recordkeeping Requirements—Packers and Stockyards Programs.

*OMB Control Number:* 0580-0015.

*Summary of Collection:* The Grain Inspection, Packers and Stockyards Administration (GIPSA) administers the provisions of the Packers and Stockyards Act of 1921 (7 U.S.C. 181-229.) and the regulations under the Act. The Act is designed to protect the financial interests of livestock and poultry producers engaged in commerce of livestock and live poultry sold for slaughter. It also protects members of the livestock and poultry marketing, processing, and merchandising industries from unfair competitive practices. GIPSA will collect information using several forms.

*Need and Use of the Information:* GIPSA will collect information to monitor and examine financial, competitive and trade practices in the livestock, meatpacking, and poultry industries. Also, the information will help assure that the regulated entities do not engage in unfair, unjustly discriminatory, or deceptive trade practices or anti-competitive behavior.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 18,684.

*Frequency of Responses:*

Recordkeeping; Third party disclosure; Reporting: On occasion; Semi-annually; Annually.

*Total Burden Hours:* 318,630.

### Forest Service

#### Six Rivers National Forest, Mad River Ranger District, CA; Buck Mountain Vegetation and Fuel Management Project EIS

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** The Six Rivers National Forest (Six Rivers NF) will prepare an Environmental Impact Statement to disclose the impacts associated with the following proposed actions:

1. Fuel reduction would occur and be located along corridors primarily on strategically placed ridges, along highly traveled roads and within isolated stands near private property. Treatment would consist of thinning trees less than 8" diameter breast-height (DBH) and removing brush within treatment areas. Commercial biomass would be a by-product of this treatment. Fuel treatments would augment on-going road brush treatment projects funded by the Community Wildfire Protection Plan (CWPP) located in the northwest corner of the project area.

2. All previously managed plantations would be treated, either with commercial thinning or timber stand improvements (TSI). Both treatments are designed to reduce stand density, decrease competition and improve growing space for residual trees. Commercially thinned plantations would consist of thinning trees greater than 8" DBH. Plantations without a commercial saw-log component (TSI) would consist of thinning trees less than 8" DBH and reducing brush. Commercial biomass would be a by-product of TSI treatments.

3. Off-site ponderosa pine plantations would be thinned to promote growth of naturally occurring tree species.

4. Douglas-fir/tanoak plantations would be thinned, and most of the planted pine within these plantations would be removed, while a portion of the hardwood component would be maintained.

5. Pure stands of Douglas-fir would be thinned to increase growing space for overstocked early seral stands. Stands that once contained a significant black oak component would be thinned to encourage black oak regeneration.

6. Douglas-fir and white fir stands with viable oak and pine would be thinned to reduce overall stand density, and trees that compete with healthy hardwoods and pines would be removed to increase their viability and promote their regeneration.

7. All treatments would maintain tree species mix of hardwoods and conifers.
