Information Collection Requirement

Title: Air Cargo Security Requirements.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0040.

Form(s): Aviation Security Known Shipper Verification Form, Aircraft Operator or Air Carrier Reporting Template, and Security Threat Assessment Application.

Affected Public: This ICR involves regulated entities including aircraft operators, foreign air carriers, and indirect air carriers operating under a TSA-approved security program.

Abstract: Under the authority of 49 U.S.C. 44901, TSA’s regulations impose screening requirements for cargo and other property transported on commercial aircraft (passenger and all-cargo). Chapter XII of title 49, Code of Federal Regulations (CFR) defines how TSA screens all property, including U.S. mail, cargo, carry-on and checked baggage, and other articles, that will be carried aboard passenger and cargo aircraft.

This information collection currently relates to the following requirements:

- Aircraft operators, foreign air carriers, and indirect air carriers (IACs) must collect certain information as part of the implementation of a standard security program, submit modifications to the standard security program to TSA for approval, and update such programs as necessary. As part of these security programs, the regulated entities must also collect personal information and

submit such information to TSA so that TSA may conduct STAs on individuals with unescorted access to cargo.

- Companies and individuals whom aircraft operators, foreign air carriers, and IACs have qualified to ship cargo on passenger aircraft, also referred to as “known shippers,” must submit information to TSA. This information is collected electronically through the KSMS.

- Regulated entities must submit (by entering into the IACMS) information required from applicants requesting to be approved as IACs and the information required for their IAC annual renewal in accordance with 49 CFR 1548.7. Regulated entities must also maintain records, including records pertaining to security programs, training, and compliance to demonstrate adherence with the regulatory requirements.

- Select aircraft operators and foreign air carriers operating under certain amendments to their security programs must provide to TSA detailed screening volumes and the methodology utilized to arrive at these volumes, as well as demonstrating progress toward full compliance with the cargo security measures specified in such amendments.

Number of Respondents: 3,575.

Estimated Annual Burden Hours: An estimated 77,076 hours annually.

Dated: March 20, 2024.

Overview of This Information Collection

(1) *Type of Information Collection Request:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Verification Request and Verification Request Supplement.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* G–845; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* *Primary:* Federal Government; State, local or Tribal government. In the verification process, a participating agency validates an applicant's immigration status by inputting identifying information required into the Verification Information System (VIS), which executes immigration status queries against a range of data sources. If VIS returns an immigration status and the benefit-issuing agency does not find a material discrepancy with the response and the documents provided by the applicant, the verification process is complete. Then, the agency may use that immigration status information in determining whether or not to issue the benefit. In extraordinary situations as determined

by the SAVE Program, agencies that do not access the automated verification system may request prior approval from SAVE to query USCIS by filing Form G–845. Although the Form G–845 does not require it, if needed certain agencies may also file the Form G–845 Supplement with the Form G–845, along with copies of immigration documents to receive additional information necessary to make their benefit determinations. While this collection of information is primarily electronic in nature through the VIS query, these forms were originally developed to facilitate communication between all benefit-granting agencies and USCIS to ensure that basic information required to assess status verification requests is provided.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection VIS Query is 21,577,983 and the estimated hour burden per response is 0.085 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 1,834,129 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$0. The collection of information is primarily electronic in nature and USCIS does not anticipate any mailings of the paper Form G–845 and Supplement and the cost associated with postage.

Dated: March 20, 2024.
