

6. On page 84665 in Table 28: CY 2021 Work RVUs for New, Revised and Potentially Misvalued Codes, the second column, the third row, the phrase “Take-home supply of auto-injector naloxone” is corrected to read “Take-home supply of injectable naloxone”.

Dated: March 12, 2021.

Wilma M. Robinson,
Deputy Executive Secretary to the
Department, Department of Health and
Human Services.

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 210312–0054]

RIN 0648–BK15

Fisheries Off West Coast States; Emergency Action to Temporarily Extend the Primary Sablefish Fishery Season; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Correcting amendment.

SUMMARY: This action corrects the regulations governing the West Coast Sablefish Primary fishery after the expiration of the emergency rule to temporarily extend the 2020 season for the Sablefish Primary fishery. The amendatory instructions for the temporary rule were written incorrectly so that when the temporary rule expired, important regulations were removed and reserved rather than reinstated correctly. These corrections are necessary so the regulations accurately implement the Pacific Fishery Management Council’s intent.

DATES: This correction is effective March 18, 2021.

FOR FURTHER INFORMATION CONTACT: Colin Sayre, phone: (206) 526 4656 or email: colin.sayre@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS published a temporary emergency rule on October 27, 2020 (85 FR 68001), that extended the season length for the West Coast Sablefish Primary fishery. The temporary rule extended the season close date from October 31 to December 31 for the 2020 fishing year, based on a recommendation from the Pacific Fishery Management Council (the Council) during its September 2020

meeting. The temporary rule expired at noon on December 31, 2020. After expiration of the temporary rule, NMFS noted the need for two corrections.

Corrections

This action corrects the regulations governing the West Coast Sablefish Primary fishery. The season dates for the sablefish primary fishery have historically run from April 1 until October 31 and were established in regulations under Amendment 14 to the Pacific Coast Groundfish Fishery Management Plan (August 7, 2001; 66 FR 41152). The amendatory instructions for the temporary rule (October 27, 2020; 85 FR 68001) were written incorrectly so that when the temporary rule expired, two important regulations were reserved rather than reinstated correctly. Specifically, the season dates codified at § 660.231(b)(1) were inadvertently removed and reserved. This correction will reinstate that paragraph which sets out the season dates for this fishery. The reinstated season dates are April 1 to October 31.

Additionally, NMFS inadvertently removed and reserved a paragraph referring to the season dates for the primary sablefish fishery at § 660.213(d)(2) as part of the recordkeeping and reporting requirements for the fishery. This correction will reinstate that paragraph.

These two corrections are consistent with the Council action to extend the season length for the West Coast Sablefish Primary fishery temporarily for the 2020 fishing year, and are needed to correctly implement the intent of the Council’s recommendation in September 2020. The substance of the text is unchanged from what was in existing regulations prior to the October 27, 2020 temporary rule.

Classification

Pursuant to 5 U.S.C. 553(b)(B), the Assistant Administrator for Fisheries (AA) finds there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be unnecessary and contrary to public interest. Notice and comment are unnecessary and contrary to the public interest because this action corrects inadvertent errors related to the October 27, 2020 temporary rule. Immediate correction of the errors is necessary to prevent confusion among participants in the fishery that could result in issues with enforcement of season dates for the fishery. To effectively correct the errors, the changes in this action must be effective upon publication as the fishery will begin on April 1, 2021. Thus, there

is not sufficient time for notice and comment. In addition, notice and comment is unnecessary because this correcting amendment reinstates previously established regulations and corrects inadvertent errors related to the October 27, 2020 temporary rule. These corrections will not affect the results of analyses conducted to support management decisions in the Pacific coast groundfish fishery. No change in operating practices in the fishery is required.

For the same reasons stated above, the AA has determined good cause exists to waive the 30-day delay in effectiveness pursuant to 5 U.S.C. 553(d). This correcting amendment reinstates season dates in previously established regulations that should have been reinstated following expiration of the October 27 temporary rule. Delaying effectiveness of these corrections would result in conflicts in the regulations and confusion among fishery participants. Because prior notice and an opportunity for public comment are not required to be provided for this rule by 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable. Accordingly, no Regulatory Flexibility Analysis is required for this rule and none has been prepared.

This final rule is not significant under Executive Order 12866.

List of Subjects in 50 CFR Part 660

Fisheries, Fishing, and Indian Fisheries.

Dated: March 12, 2021.

Samuel D. Rauch, III,
Deputy Assistant Administrator for
Regulatory Programs, National Marine
Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 660 is corrected by making the following correcting amendments:

PART 660—FISHERIES OFF WEST COAST STATES

■ 1. The authority citation for part 660 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*, 16 U.S.C. 773 *et seq.*, and 16 U.S.C. 7001 *et seq.*

■ 2. In § 660.213(d)(2), add paragraph (d)(2) to read as follows:

§ 660.213 Fixed gear fishery— recordkeeping and reporting.

* * * * *

(d) * * *

(2) For participants in the sablefish primary season, the cumulative limit period to which this requirement

applies is April 1 through October 31 or, for an individual vessel owner, when the tier limit for the permit(s) registered to the vessel has been reached, whichever is earlier.

* * * * *

■ 3. In § 660.231, add paragraph (b)(1) to read as follows:

§ 660.231 Limited entry fixed gear sablefish primary fishery.

* * * * *

(b) * * *

(1) *Season dates.* North of 36° N lat., the sablefish primary season for the limited entry, fixed gear, sablefish-endorsements vessels begins at 12 noon local time on April 1 and closes at 12 noon local time on October 31, or closes for an individual vessel owner when the tier limit for the sablefish endorsed permit(s) registered to the vessel has been reached, whichever is earlier, unless otherwise announced by the Regional Administrator through the routine management measures process described at § 660.60(c).

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 210217-0022; RTID 0648-XA946]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher/Processors Using Trawl Gear in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting retention of Pacific cod by American Fisheries Act (AFA) trawl catcher/processors in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary because the Pacific cod total allowable catch allocated to AFA trawl catcher/processors in the BSAI has been reached.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), March 15, 2021, through 2400 hours, A.l.t., December 31, 2021.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2021 Pacific cod total allowable catch allocated to AFA trawl catcher/processors is 2,571 metric tons (mt) as established by the final 2021 and 2022 harvest specifications for groundfish in the BSAI (86 FR 11449, February 25, 2021).

In accordance with § 679.20(d)(2), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the Pacific cod total allowable catch allocated to the AFA trawl catcher/processors in the BSAI has been reached. Therefore, NMFS is requiring that Pacific cod caught by

AFA trawl catcher/processors in the BSAI be treated as prohibited species in accordance with § 679.21(b).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay prohibiting retention of Pacific cod by AFA trawl catcher/processors in the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of March 12, 2021.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 15, 2021.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
