

application is submitted, applicants should submit a certification from the appropriate planning agency that actions are underway at the time of application to include the project in the relevant planning document on or before June 30, 2013. If the obligation of TIGER Discretionary Grant funds for construction or other activities is contingent on the project being included in the relevant planning documents, applicants should demonstrate they can reasonably expect to have the project included in such planning documents by March 30, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated. The applicant should provide a schedule demonstrating when the project will be added to the relevant planning documents.

Environmental Approvals: Projects should have received all environmental approvals, including satisfaction of all Federal, State and local requirements and completion of the National Environmental Policy Act ("NEPA") process at the time the application is submitted or should demonstrate that receipt of all approvals can occur by June 30, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated.

If the obligation of TIGER Discretionary Grant funds for construction or other activities is contingent on completion of other approvals that can only take place after the environmental approvals process, the applicant should demonstrate that they can reasonably expect to have all environmental approvals by March 30, 2013, or other date sufficiently in advance of June 30, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated, because it may be difficult to complete environmental and regulatory review as well as any other necessary pre-obligation activities prior to the statutory obligation deadline of September 30, 2013.

To demonstrate that this suggested milestone is achievable, applicants should provide information about the anticipated class of action, the budget for completing NEPA, including hiring a consultant if necessary, and a schedule that demonstrates when NEPA will be complete. The schedule should show how the suggested milestones described in this section will be complied with, and include any anticipated coordination with Federal and State regulatory agencies for permits and approvals. The budget should demonstrate how costs to complete NEPA factor into the overall cost to complete construction of the project. The budget and schedule for completing NEPA should be reasonable and

be comparable to a budget and schedule of a typical project of the same type. The applicant should provide evidence of support based on input during the NEPA process from State and local elected officials as well as the public. Additionally, the applicant should provide environmental studies or other documents (preferably by way of a Web site link) that describe in detail known potential project impacts and possible mitigation for these impacts. The applicant should supply sufficient documentation for DOT to adequately review the project's NEPA status.

Right-of-Way and Design: If the obligation of TIGER Discretionary Grant funds by an operating administration may be contingent on completion of right-of-way acquisition and final design approval, applicants should demonstrate that they reasonably expect to have right-of-way and design completed, and completion of any other needed pre-final-obligation approvals by June 30, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated. If the obligation of TIGER Discretionary Grant funds for construction or other activities is contingent on the project completing right-of-way acquisition and design, and additional approvals contingent on completion of right of way acquisition and design, applicants should demonstrate they can reasonably expect to have right-of-way acquisition and design completed by June 1, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated. Applicants should submit a reasonable schedule of when right-of-way (if applicable), design, and any other required approvals are expected to be obtained. Applicants may expect that DOT may obligate TIGER funds for right-of-way and design completion only after planning and environmental approvals are obtained.

Completion of Obligation: Applicants should plan to have all TIGER Discretionary Grant funds obligated by June 30, 2013, in order to give DOT comfort that the TIGER Discretionary Grant funds are likely to be obligated in advance of the September 30, 2013 statutory deadline, and that any unexpected delays will not put TIGER Discretionary Grant funds at risk of expiring before they can be obligated. In some instances, DOT may not obligate for construction until all planning and environmental approvals are obtained and right-of-way and final design are complete. If a project is selected for a TIGER Discretionary Grant and the TIGER Discretionary Grant funding will be used to complete all of these activities, DOT may obligate the funding in phases, in accordance with the laws, regulations, and policies of the operating administration that is administering the grant.
