SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The National Oceanic and Atmospheric Administration's (NOAA) Fisheries, Southeast Fisheries Science Center, proposes to collect very basic socioeconomic data from federally-permitted for-hire operators in the Gulf of Mexico and South Atlantic fisheries, using a mail sample survey. The National Marine Fisheries Service (NMFS) does not systematically collect information on for-hire trip prices and trip costs in the Southeast. The population consists of those for-hire operators who possess a federal for-hire permit for dolphin-wahoo, coastal migratory pelagics, snapper-grouper, or reef fish species in the South Atlantic or Gulf of Mexico. Each year we will sample approximately a third of the population. The two-page survey will be designed to collect basic data on trip revenues and trip costs as well as other related information. These data are needed to conduct socioeconomic analyses in support of management of the for-hire fishing industry and to satisfy legal requirements. The data will be used to assess how fishermen will be impacted by and respond to federal regulation likely to be considered by fishery managers.

II. Method of Collection

The information will be collected on paper using a mail survey.

Department of the Navy

Record of Decision for the Final Supplemental Environmental Impact Statement for Guam and Commonwealth of the Northern Mariana Islands Military Relocation

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy (DON), after carefully considering the environmental consequences of the proposed action, as well as strategic, operational, and training requirements, obligations under treaties and other international agreements, and cost, announces its decision to construct and operate a main base (cantonment area), a family housing area, a live-fire training range complex (LFTRC), and associated infrastructure on Guam to support the relocation of a substantially reduced number of Marines and dependents than previously analyzed in a 2010 Final Environmental Impact Statement (EIS) (Guam and Commonwealth of the Northern Mariana Islands (CNMI) Military Relocation; Relocating Marines from Okinawa, Visiting Aircraft Carrier Berthing, and Army Air and Missile Defense Task Force).

The proposed action will be accomplished as set out in Alternatives

E and 5 as identified in the 2015 Final Supplemental Environmental Impact Statement (SEIS) as the preferred alternatives. Alternatives E and 5 consist of a cantonment at Naval Computer and Telecommunications Station Finegayan (Finegayan) and family housing at Andersen Air Force Base (AAFB), and a LFTRC at AAFB–Northwest Field (NWF). The LFTRC also includes a stand-alone hand grenade range at Andersen South. Under these selected alternatives, the DON will be able to meet current and future DON and Department of Defense (DoD) training and operational requirements.

The Record of Decision (ROD) documents why the DoD has chosen to implement the preferred alternatives as described in the 2015 Final SEIS. The ROD includes descriptions and discussions of the anticipated environmental impacts of the proposed action. It also includes descriptions and discussions of all related actions and their anticipated impacts.

FOR FURTHER INFORMATION CONTACT: Director, Joint Guam Program Office Forward, P.O. Box 153246, Santa Rita, Guam 96915.

SUPPLEMENTARY INFORMATION: The complete text of the ROD is available for public viewing at www.guambuildupeis.us. Title of Collection: Borrower Defenses Against Loan Repayment.

OMB Control Number: 1845–0132.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 150,000.

Total Estimated Number of Annual Burden Hours: 150,000.

Abstract: This is a request to for an extension of the emergency clearance that was granted on this collection on June 5, 2015 to facilitate the continued collection of information from borrowers who believe they have cause to invoke the borrower defenses against repayment of a student loan as noted in regulation. The regulations for borrower defenses are specified in 34 CFR 685.206(c). The regulation states, in part, “(c)(1) [i]n any proceeding to collect on a Direct Loan, the borrower may assert as a defense against repayment, an act or omission of the school attended by the student that would give rise to a cause of action against the school under applicable State law.” Prior to 2015, the borrower defense identified above was rarely asserted by any borrowers and no specific methods of collecting information was defined or found necessary.

These processes are being offered to aid in preserving borrowers rights and to meet the fiduciary responsibilities of the federal student loan programs. These collections will allow the Department of Education to inform borrowers and loan servicers of the information needed to review and adjudicate requests for relief under borrower defenses regulations.

Dated: September 14, 2015.
