

## V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

If the requests for voluntary cancellation and amendments to terminate uses are granted, the Agency intends to publish a final cancellation order in the **Federal Register**. In any order issued in response to these requests for cancellation of product registrations and for amendments to terminate uses, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Tables 1 and 2 of Unit II.

All chlorpyrifos tolerances expired in the **Federal Register** on February 28, 2022 (87 FR 11222) (FRL-5993-05-OCSPP) and in the **Federal Register** on August 31, 2022 (86 FR 48315) (FRL-5993-04-OCSPP). Therefore, any food or animal feed treated with chlorpyrifos after February 28, 2022, is considered adulterated and cannot be delivered into interstate commerce. Consequently, EPA plans to prohibit existing stocks of chlorpyrifos products identified in Tables 1 and 2 of Unit 2 for food uses. Use of the products identified in Tables 1 and 2 of Unit II are permitted on non-food use sites, as long as such use is consistent with the label. EPA proposes prohibiting all sale and distribution of existing stocks of the chlorpyrifos products identified in Tables 1 and 2 of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal in accordance with state regulations. In addition, EPA is working with Control Solutions, Inc. to develop plans for the return of existing stocks of their chlorpyrifos products. EPA will include in the final cancellation order terms allowing for distribution consistent with that return program.

Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the Science Advisory Board CASTNet Review Panel will hold a public meeting to receive a presentation of review materials, on the charge questions, to receive public comments, and to deliberate upon the charge questions regarding the CASTNet monitoring network.

**Availability of Meeting Materials:** All meeting materials, including the agenda, will be available on the SAB web page at <https://sab.epa.gov>.

**Procedures for Providing Public Input:** Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instruction below to submit comments.

**Oral Statements:** In general, individuals or groups requesting an oral presentation at an in-person meeting will be limited to five minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted above by May 19, 2023, to be placed on the list of registered speakers and to have the written comments posted publicly for consideration on the SAB website.

**Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be submitted to the DFO by May 19, 2023. Written statements should be supplied to the DFO at the contact information above. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder and should be indicated as such at the time of submission.

**Accessibility:** For information on access or services for individuals with disabilities, please contact the DFO, at the contact information noted above, preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.

The Act expands the Commission's statutory authority to encompass “any audio or video communications service used by inmates . . . regardless of technology used.” The Act also amends section 2(b) of the Communications Act of 1934, as amended to make clear that the Commission's jurisdiction extends to intrastate as well as interstate and international communications services used by incarcerated people.

The Act directs the Commission to “promulgate any regulations necessary to implement” the statutory provisions, including its mandate that the Commission establish a “compensation plan” ensuring that all rates and charges for IPCS “are just and reasonable,” not earlier than 18 months and not later than 24 months after its January 5, 2023 enactment. The Act also requires the Commission to consider, as part of its implementation, the costs of “necessary” safety and security measures, as well as “differences in costs” based on facility size, or “other characteristics.” It allows the Commission to “use industry-wide average costs of telephone service and advanced communications services and the average costs of service of a communications service provider” in determining just and reasonable rates.

To ensure that it has the data needed to meet its substantive and procedural responsibilities under the Act, the Commission delegated to the Wireline Competition Bureau (WCB) and the Office of Economics and Analytics (OEA) (collectively, WCB/OEA) authority to “update and restructure” the Commission's latest mandatory data collection, the Third Mandatory Data Collection (OMB Control No. 3060–1300, *Inmate Calling Services (ICS) 2022 One-Time Mandatory Data Collection*), “as appropriate in light of the requirements of the new statute.” This delegation requires WCB/OEA to collect “data on all incarcerated people's communications services from all providers of those services now subject to” the Commission's expanded ratemaking authority, including, but not limited to, requesting “more recent data for additional years not covered by the most recent data collection.”

Pursuant to their delegated authority, WCB/OEA drafted proposed
