

The panel consists of members from the states of Alaska and Washington who represent the broad range fishing and conservation interests in anadromous and ecologically related species in the North Pacific. Certain members also represent relevant state and regional authorities. The panel was established in 1992 to advise the U.S. Section of the NPAFC on research needs and priorities for anadromous species, such as salmon, and ecologically related species occurring in the high seas of the North Pacific Ocean. The upcoming Panel meeting will focus on two major topics: (1) Review of the agenda for the 2011 annual meeting of the NPAFC (October 24–28; Nanaimo, British Columbia, Canada); and (2) logistics for the U.S. Section at the NPAFC meeting. Background material is available from the point of contact noted above and by visiting <http://www.npafc.org>.

This announcement will appear in the **Federal Register** less than 15 days prior to the meeting.

The Department of State finds that there is an exceptional circumstance in that this advisory committee meeting must be held on October 6th in order to adequately prepare for the NPAFC to be convened in Canada beginning October 24th, including the logistics involved in attending the meeting.

Dated: September 23, 2011.

John Field,

Acting Director, Office of Marine Conservation, Department of State.

Buy America Waiver Notification

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate for the use of non-domestic $1/2" \times 0.008$ steel fiber with ultimate tensile strength of 290ksi for experimental use in Ultra High Performance Concrete (UHPC) in the State of Iowa.

DATES: The effective date of the waiver is September 30, 2011.

Electronic Access

An electronic copy of this document may be downloaded from the Federal Register's home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate to use non-domestic $1/2" \times 0.008$ steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Iowa.

In accordance with Division A, section 123 of the "Consolidated Appropriations Act, 2010" (Pub. L. 111-117), the FHWA published a notice of intent to issue a waiver on its Web site for $1/2" \times 0.008$ steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Iowa (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=62>) on August 23rd. The FHWA received seven comments in response to the publication. All seven commenters opposed the waiver request but did not

provide information about domestic manufacturers. During the 15-day comment period, the FHWA conducted additional nationwide review to locate potential domestic manufacturers for $1/2" \times 0.008$ steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Iowa. Based on all the information available to the agency, the FHWA concludes that there are no domestic manufacturers of $1/2" \times 0.008$ steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Iowa.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110-244, 122 Stat. 1572), the FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to the FHWA's Web site via the link provided to the Iowa waiver page noted above.
