

because of the overwhelmingly positive and eager interest ENs have expressed in using the web portal, and because of manpower limitations we will be facing in the upcoming months, SSA is seeking expedited emergency clearance of this collection.

Delayed implementation of the Web portal could have the following consequences: (1) Reduced productivity for the second half of FY 2012 (since it will continue to take ENs longer to submit requests, and it will take us

longer to process them); (2) subsequent delayed services to beneficiaries; and (3) an inability to process payment requests to EN's and State VR's for the services they provide beneficiaries. In addition, if the portal is not available for use until shortly before we make the remaining contract reductions, and there are problems with transitioning to it, there will not be labor to process ticket assignments, payment requests, and other incoming documents, or to fulfill requests for reports. This would

bottleneck or possibly suspend some daily TTW operations.

Finally, the agency is only planning to pilot this collection with a limited number of ENs after receiving emergency OMB approval. We will not expand rollout to all ENs until seeking standard OMB clearance. We are asking for OMB approval of this Emergency Clearance no later than May 17, 2012.
