

4.0 Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12(a), the exemptions are authorized by law, will not endanger life or property or common defense and security, and is, otherwise, in the public interest. Therefore, the Commission hereby grants the Florida Power and Light Company exemptions from portions of the requirements of Appendix G to 10 CFR part 50 and 10 CFR 50.61, to allow an alternative methodology that is based on using of fracture toughness test data to determine initial, unirradiated properties for evaluating the integrity of the Turkey Point RPV circumferential beltline welds. This exemption addresses only those parts of the regulations (i.e., 10 CFR 50.61 and 10 CFR part 50, Appendix G) which discuss the definition or use of unirradiated nil-ductility reference temperature, $RT_{NDT(U)}$, and its associated uncertainty, $\sigma\Delta$. All other requirements of 10 CFR 50.61 and 10 CFR part 50, Appendix G are unchanged by this exemption.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will not have a significant effect on the quality of the human environment (75 FR 4426)

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 11th day of March 2010.

For the Nuclear Regulatory Commission.

Joseph G. Giitter,

Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.
