petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If the amendment is issued before the expiration of the 30-day hearing period, the Commission will make a final determination on the issue of no significant hazards consideration. If a hearing is requested, the final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective,

notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to General Council, Tennessee Valley Authority, ET 11H, 400 West Summit Hill Drive, Knoxville, Tennessee, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated July 13, 2000, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (http://www.nrc.gov).

Dated at Rockville, Maryland, this 14th day of July 2000.

For the Nuclear Regulatory Commission. Ronald W. Hernan,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

### **NUCLEAR REGULATORY** COMMISSION

### Public Meeting on 10 CFR Part 70; Standard Review Plan

**AGENCY:** Nuclear Regulatory Commission (NRC). **ACTION:** Notice of meeting.

**SUMMARY:** NRC will host a public meeting in Rockville, Maryland. The meeting will provide an opportunity for discussion of stakeholder comments on the revised Standard Review Plan (SRP) chapters and Nuclear Energy Institute's (NEI) revised Integrated Safety Analysis (ISA) Summary guidance document. The revised SRP can be reviewed on the Internet at the following website: http:/ /techconf.llnl.gov/cgi-bin/ library?source=\*&library= Part 70 lib&file

**PURPOSE:** This meeting will provide an opportunity to discuss any comments on the staff's recently revised SRP chapters.

**DATES:** The meeting is scheduled for Thursday, August 3, 2000, from 9 a.m. to 4:30 p.m. The meeting is open to the public.

ADDRESSES: ASLBP Hearing Room at Two White Flint North, 11545 Rockville Pike, Rockville, Maryland. Visitor parking around the NRC building is limited; however, the meeting site is located adjacent to the White Flint Station on the Metro Red Line.

#### FOR FURTHER INFORMATION CONTACT:

Philip Ting, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone: (301) 415-7156, email pxt@nrc.gov.

Dated at Rockville, Maryland this 14th day of July, 2000.

For the Nuclear Regulatory Commission.

## Philip Ting,

Chief, Fuel Cycle Licensing Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Materials Safety and Safeguards. [FR Doc. 00-18422 Filed 7-19-00; 8:45 am] BILLING CODE 7590-01-P

COMMISSION

### **Notice of Correction to Biweekly Notice Applications and Amendments** to Operating Licenses Involving No Significant Hazards Considerations

On June 28, 2000, the Federal Register published the Biweekly Notice of Applications and Amendments to Operating Licenses Involving No Significant Hazards Consideration. On page 39961, under Southern Nuclear Operating Company, Inc., et al., Docket Nos. 50–424 and 50–425, the Date of amendment request should have been March 6, 2000.

Dated at Rockville, Maryland, this 14th day of July, 2000.

For the Nuclear Regulatory Commission. **John A. Zwolinski**,

Director, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

# NUCLEAR REGULATORY COMMISSION

### Consolidated Guidance about Materials Licenses: Guidance about Administrative Licensing Procedures

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of Availability and Request for Comments.

**SUMMARY:** The NRC is announcing the availability of, and requesting comments on, draft NUREG-1556, Volume 20, "Consolidated Guidance about Materials Licenses: Guidance about Administrative Licensing Procedures,"

dated July 2000.

The NRC is using Business Process Redesign techniques to redesign its materials licensing process, as described in NUREG—1539, "Methodology and Findings of the NRC's Materials Licensing Process Redesign." A critical element of the new process is consolidating and updating numerous guidance documents into a NUREG-series of reports. This draft NUREG report is the 20th guidance document developed for the new process.

This guidance is intended for use by the NRC staff, and will also be available to Agreement States, applicants, and licensees. This document combines and updates the guidance for NRC license reviewers and licensing assistants previously found in the documents listed in Appendix A of the NUREG. When published in final form, NRC licensing staff will use these administrative procedures to process license applications and prepare licenses. Note that this document is strictly for public comment and is not for use in preparing or reviewing license applications until it is published in final form. It is being distributed for comments to encourage public participation in its development. **DATES:** The comment period ends

October 3, 2000. Comments received after that time will be considered if practicable.

ADDRESSES: Submit written comments to: Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555–0001. Hand-deliver

comments to 11545 Rockville Pike, Rockville, Maryland, between 7:15 a.m. and 4:30 p.m. on Federal workdays. Comments may also be submitted through the Internet by addressing electronic mail to dlm1@nrc.gov.

Those considering public comment may request a free single copy of draft NUREG—1556, Volume 20, by writing to the U.S. Nuclear Regulatory Commission, ATTN: Mrs. Carrie Brown, Mail Stop TWFN 9-C24, Washington, D.C. 20555–0001. Alternatively, submit requests through the Internet by addressing electronic mail to cxb@nrc.gov. A copy of draft NUREG—1556, Volume 20, is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, D.C. 20555-0001.

The Presidential Memorandum dated June 1, 1998, entitled, "Plain Language in Government Writing," directed that the Federal government's writing be in plain language. The NRC requests comments on this licensing guidance NUREG specifically with respect to the clarity and effectiveness of the language used. Comments should be sent to the address listed above.

## FOR FURTHER INFORMATION, CONTACT:

Mrs. Carrie Brown, TWFN 9-F-C24, Division of Industrial and Medical Nuclear Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone (301) 415–8092; electronic mail address: cxb@nrc.gov.

### **Electronic Access**

Draft NUREG—1556, Vol. 20 is available electronically by visiting the NRC's Home Page (http://www.nrc.gov/nrc/nucmat.html).

Dated at Rockville, Maryland, this 13th day of July, 2000.

For the Nuclear Regulatory Commission, Catherine Haney,

Acting Chief, Rulemaking and Guidance Branch, Division of Industrial and Medical Nuclear Safety, NMSS.

# NUCLEAR REGULATORY COMMISSION

Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Well Logging, Tracer, and Field Flood Study Licenses

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of availability.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) is announcing the availability of the final NUREG-1556, Volume 14, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Well Logging, Tracer, and Field Flood Study Licenses," dated June 2000. This final NUREG report is the 14th programspecific guidance document developed to support an improved material licensing process. NRC is using Business Process Redesign (BPR) techniques to redesign its material licensing process, as described in NUREG-1539, "Methodology and Findings of the NRC's Materials Licensing Process Redesign." A critical element of the new process is consolidating and updating numerous guidance documents into a NUREGseries of reports.

This final guide has been developed in parallel with the final revision of 10 CFR Part 39, "Energy Compensation Sources for Well Logging and Other Regulatory Clarifications," published as a Final Rule on April 17, 2000 (65 FR 20337). It is intended for use by applicants, licensees, NRC license reviewers, and other NRC personnel.

This final report takes a more risk-informed, performance-based approach to licensing of well logging, tracer, and field flood study operations, and reduces the information (amount and level of detail) needed to support an application to use these devices.

A free single copy of final NUREG—1556, Volume 14, may be requested by writing to the U.S. Nuclear Regulatory Commission, ATTN: Mrs. Carrie Brown, Mail Stop TWFN 9-C24, Washington, DC 20555—0001. Alternatively, submit requests through the Internet by addressing electronic mail to <code>cxb@nrc.gov</code>. A copy of final NUREG—1556, Volume 14, is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC 20555—0001.
