**SUPPLEMENTARY INFORMATION:** DHS is the lead coordinator in the national effort to identify and prioritize the country's critical infrastructure and key resources (CIKR). At DHS, this responsibility is

managed by NPPD/IP. In FY2006, IP engaged in the annual development of a list of CIKR assets and systems to improve IP's CIKR prioritization efforts; this list is called the Critical Infrastructure List. The Critical Infrastructure List includes assets and systems that, if destroyed, damaged or otherwise compromised, could result in significant consequences on a regional or national scale.

The IP Data Call is administered out of IP/IICD. The IP Data Call provides opportunities for States and territories to collaborate with DHS and its Federal partners in CIKR protection. DHS, State and territorial Homeland Security Advisors (HSAs), Sector Specific Agencies (SSAs), and territories build their CIKR data using the IP Data Call application. To ensure that HSAs, SSAs and territories are able to achieve this mission, IP requests opinions and information in a survey from IP Data Call participants regarding the IP Data Call process and the Web-based application used to collect the CIKR data.

The survey data collected is for internal IICD and IP use only. IICD and IP will use the results of the IP Data Call Survey to determine levels of customer satisfaction with the IP Data Call process and application and prioritize future improvements. The results will also allow IP to appropriate funds cost-effectively based on user need and improve the process and application.
