

environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

V. Objections and Hearing Requests

Any person who will be adversely affected by this regulation may file with the Dockets Management Staff (see **ADDRESSES**) either electronic or written objections. Each objection shall be separately numbered, and each numbered objection shall specify with particularity the provision of the regulation to which objection is made and the grounds for the objection. Each numbered objection on which a hearing is requested shall specifically so state. Failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held. Failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection.

Occupational Exposure to COVID–19; Emergency Temporary Standard

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Interim final rule; correction.

SUMMARY: OSHA is fixing minor errors in the interim final rule published on June 21, 2021, titled Occupational Exposure to COVID–19; Emergency Temporary Standard, including correcting the docket number for submission of comments related to OSHA's information collection estimates under the Paperwork Reduction Act.

DATES: Effective July 14, 2021.

FOR FURTHER INFORMATION CONTACT:

Press inquiries: Frank Meilinger, Director, OSHA Office of Communications; telephone: (202) 693–1999; email: meilinger.francis2@dol.gov.

For technical inquiries: Maureen Ruskin, OSHA Directorate of Standards and Guidance; telephone: (202) 693–1955; email: ruskin.maureen@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Summary and Explanation

On June 21, 2021, OSHA published an interim final rule establishing an emergency temporary standard (ETS) to protect healthcare and healthcare support service workers from occupational exposure to COVID–19 in settings where people with COVID–19

are reasonably expected to be present (86 FR 32376). In the Dates section of the preamble, the agency inadvertently included an incorrect docket number for submitting comments related to the information collection estimates under the Paperwork Reduction Act. The agency is submitting this document to correct this error.

In addition, in Section VI.B Economic Feasibility, several table references were incorrect or missing, some tables were incorrectly numbered, and one subsection heading was labeled incorrectly. Those changes are shown in the table below, titled “Table of Non-substantive Corrections.”

II. Exemption From Notice-and-Comment Procedures

OSHA has determined that these corrections are not subject to the procedures for public notice and comment specified in the Administrative Procedure Act (5 U.S.C. 553) or Section 6(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655(b)). This rulemaking only corrects minor errors in the published rule and does not affect or change any existing rights or obligations. No stakeholder is likely to object to these corrections. Therefore, the agency finds good cause that public notice and comment are unnecessary under 5 U.S.C. 553(b)(3)(B), 29 U.S.C. 655(b), and 29 CFR 1911.5.

III. Correction of Publication

In FR Doc. 2021–12428 appearing in the **Federal Register** of June 21, 2021 (86 FR 32376), make the following corrections in the **DATES** section of the preamble.

On page 32376, in the second column, the second full paragraph is corrected to read as follows:

Comments due: Written comments, including comments on any aspect of this ETS and whether this ETS should become a final rule, must be submitted by July 21, 2021 in Docket No. OSHA–2020–0004. Comments on the information collection determination described in Section VII.K of the preamble (OMB Review under the Paperwork Reduction Act of 1995) may be submitted by August 20, 2021 in Docket Number OSHA–2021–0003.

In addition, the agency provides the following table, which contains a list of corrections of minor, non-substantive errors into section VI.B. These changes are to five table references within the text, six table numbers, and one subsection heading.

Montana Abandoned Mine Land Reclamation Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement

(OSMRE), are approving an amendment to the Montana abandoned mine land (AML) reclamation plan (Montana Plan) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Montana proposed to repeal and replace its existing AML Plan in response to OSMRE's request to amend the Plan and to improve the readability and efficiency of the document.

Montana also submitted a statutory provision enacted by the State legislature in 2007 regarding its AML account for OSMRE approval.

DATES: Effective August 13, 2021.

SUPPLEMENTARY INFORMATION:

- I. Background on the Montana Plan
- II. Submission of the Amendment
- III. OSMRE's Findings
- IV. Summary and Disposition of Comments
- V. OSMRE's Decision
- VI. Procedural Determinations

I. Background on the Montana Plan

The Abandoned Mine Land Reclamation Program was established by Title IV of the Act (30 U.S.C. 1201 *et seq.*) in response to concerns over extensive environmental damage caused by past coal mining activities. The program is funded by a reclamation fee collected on each ton of coal that is produced. The money collected is used to finance the reclamation of abandoned coal mines and for other authorized activities. Section 405 of the Act allows States and Indian Tribes to assume exclusive responsibility for reclamation activity within the State or on Indian lands if they develop and submit to the Secretary of the Interior for approval a program (often referred to as a plan) for the reclamation of abandoned coal mines.

On October 24, 1980, the Secretary of the Interior approved the Montana Plan. You can find general background information on the Montana Plan, including the Secretary's findings and the disposition of comments, in the October 24, 1980, **Federal Register** (45 FR 70445). OSMRE announced in the July 9, 1990, **Federal Register** (55 FR 28022) the Director's decision accepting certification by Montana that it had addressed all known coal-related impacts in the State that were eligible for funding under the Montana Plan. You can also find later actions concerning Montana's AML Program and Plan amendments at 30 CFR 926.25.

II. Submission of the Amendment

Under the authority of 30 CFR 884.15, OSMRE directed Montana to update its Plan by letter dated March 6, 2019 (Document ID No. OSM-2020-0004-0003). OSMRE indicated that the Montana Plan required revisions to meet the requirements of SMCRA as revised on December 20, 2006, under the Tax Relief and Health Care Act of 2006 (Pub. L. 109-432), and in response to changes made to the implementing Federal regulations as revised on November 14, 2008 (73 FR 67576) and February 5, 2015 (80 FR 6435). By letter dated August 4, 2020 (Administrative Record No. OSM-2020-0004-0002), Montana sent us an amendment to its State Plan under SMCRA (30 U.S.C. 1201 *et seq.*). Montana's amendment is intended to address all required amendments identified in OSMRE's letter dated March 6, 2019. The State also proposed additional changes as part of the State's initiative to improve the Plan's readability and operational efficiency. The State also proposed a statutory addition enacted by its legislature in 2007. Montana's amendment will repeal and replace the State's existing Abandoned Mine Lands (AML) Plan.

We announced receipt of the proposed amendment in the December
