POLICY JUSTIFICATIONThailand – UH-60M Blackhawk Helicopters

The Government of Thailand has requested a possible sale of 3 UH-60M Black Hawk Helicopters, 8 T700-GE-701D Engines (6 installed and 2 spares), Dual MXF-4027 VHF/UHF-AM/FM communication radios, AN/ARC-201E Export SINCGARS Airborne Radio, AN/AXP-117 CXP (Common Digital IFF Transponder), government furnished equipment, engineering change proposals, spare and repair parts, support equipment, publications and technical documentation, Aviation Mission Planning Station, Transportable Blackhawk Operations Simulator (TBOS), U.S. Government and contractor technical and logistics support services, aircraft warranty, Air Worthiness Release Support, Repair and Return Support, and other related elements of logistics support. The estimated cost is \$235 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally.

The Government of Thailand intends to use these defense articles and services to modernize its armed forces. This proposed sale will contribute to the Thais military's goal to update its capability while further enhancing greater interoperability among the Government of Thailand, the U.S., and other allies.

The proposed sale of these helicopters and support package will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aircraft Company in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the U.S. Government or contractor representatives to travel to Thailand for 5 weeks for equipment de-processing/fielding, system checkout and new equipment training and a Contractor Furnished Service Representative for one year.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
