

interested party,¹ and nine Taiwanese companies,² Commerce published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on certain steel nails from Taiwan covering 141 companies and the period July 1, 2019 through June 30, 2020.³

On September 21, 2020, the petitioner timely withdrew its request for administrative review of all companies originally requested, except for one company, Create Trading Co., Ltd.⁴ As noted above, nine Taiwanese companies also self-requested an administrative review. On October 15, 2020, pursuant to 19 CFR 351.213(d)(1), Commerce rescinded the administrative review, in part, of all companies under review except for Create Trading Co., Ltd. and the nine companies that self-requested an administrative review and for which their requests for review had not been withdrawn at that time.⁵ Subsequently, on November 30, 2020, the nine Taiwanese companies timely withdrew their requests for review.⁶

Partial Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication of the notice of initiation of the requested review. Because all requests for administrative review of the nine companies that self-

requested review were withdrawn within 90 days of the date of publication of the *Initiation Notice* and no other interested party requested a review of these nine companies, in accordance with 19 CFR 351.213(d)(1), Commerce is rescinding this review with respect to these companies: (1) China Staple Enterprise Corporation, (2) Hor Liang Industrial Corp., (3) Hoyi Plus Co., Ltd., (4) Liang Chyuan Industrial Co., Ltd., (5) Romp Coil Nail Industries Inc., (6) Trim International Inc., (7) UJL Industries Co., Ltd., (8) Yu Chi Hardware Co., Ltd., and (9) Zon Mon Co., Ltd.

The administrative review remains active only with respect to Create Trading Co., Ltd., which has filed a certification of no reviewable sales.⁷

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries at a rate equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period July 1, 2019 through June 30, 2020, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after the publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction

of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

On October 30, 2020, pursuant to these requests and in accordance with 19 CFR 351.221(c)(1)(i), Commerce published a notice initiating an administrative review of the AD order on cold-rolled steel flat products from Brazil.³ On November 25, 2020, the Domestic Interested Parties withdrew their request for an administrative review of all companies for which they had requested a review.⁴

This notice also serves as the only reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Emergency Beacon Registrations

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Emergency Beacon Registrations.

OMB Control Number: 0648-0295.

Form Number(s): None.

Type of Request: Regular submission; Extension of a current information collection.

Number of Respondents: 208,762.

Average Hours per Response: 15 minutes.

Total Annual Burden Hours: 52,191.

Needs and Uses: The United States, Canada, France, and Russia operate the Search and Rescue Satellite-Aided Tracking (COSPAS/SARSAT), a satellite system with equipment that can detect and locate ships, aircraft and individuals in distress if an emergency radio beacon is being carried. This system is used to detect digitally encoded signals in the 406.000–406.100 MHz range, coming from these emergency beacons. The 406.000–406.100 MHz beacons transmit a unique identifier, making possible the ability to combine previously collected data associated with that beacon and transmit this vital data along with the beacon's position to the appropriate rescue coordination center.

Persons buying 406.000–406.100 MHz emergency radio beacons are required to register them with NOAA prior to installation. These requirements are contained in Federal Communications Commission (FCC) regulations at 47 CFR 80.1061, 47 CFR 87.199 and 47 CFR 95.1402.

The registration data is used to facilitate a rescue and to suppress the costly consequences of false alarms, which if unsuppressed would initiate the launch of a rescue mission and thereby deplete limited resources and possibly result in the loss of lives. This is accomplished through the use of the data provided to the rescue forces from the beacon registration database maintained by the NOAA's United States Mission Control Center (USMCC) for Search and Rescue, to contact the distressed person(s) or alternate party via a phone call or radio broadcast. Other data provides rescuers with descriptive material of the element in distress. The registration information must be kept up-to-date.

Four registration forms are used. The EPIRB (Emergency Position Indicating Radio Beacon) form is used for nautical
