

1,200 SFAs will be conducted by telephone, using computer-assisted telephone interviewing (CATI).

Respondent burden will be minimized for the SFA survey by using CATI methods to streamline the interviewing process, and by carefully training interviewing staff on survey procedures. To minimize the number of open-ended questions asked on the survey, responses to open-ended questions from the 1996 SFA questionnaire were examined and used to develop closed-ended questions on this questionnaire. Pretest interviewing results indicated that respondents wanted more survey items to be included on the fact sheet, thus minimizing the time to look up answers while on the telephone with the interviewer. Responses will be voluntary and confidential. To ensure confidentiality, data will be reported only in tabular form, with analysis cells large enough to prevent identification of individual agencies. The data will not be used to evaluate or assess the performance of individual school districts or of the districts within individual states. SFAs will be notified of these confidentiality assurances in their advance letters.

In addition to the SFA survey, administrative data will be collected from state and county welfare or food stamp agencies. First, the agency in each state that assists SFAs in determining the students eligible or potentially eligible for direct certification will be identified. Next, these agencies will be sent a letter informing them of the study and of the data request. Following this, the agencies will be contacted by phone and asked to provide administrative record data containing two key pieces of information for districts within their state selected for the SFA survey sample: (1) A list of students in the district who were determined to be eligible or potentially eligible for direct certification just prior to the 2001–2002 school year; and (2) a list of students in these districts who would have been eligible or potentially eligible for direct certification as of December 15, 2001.

To reduce burden on these agencies, they will be asked to provide this information in whatever form is most convenient for them. Either electronic files or hard copy lists of students will be accepted.

Estimate of Burden: For the SFA survey, burden on respondents will consist of two parts. First, they will have to complete the fact sheet in preparation for the interview. This will take about 90 minutes (1.5 hours) depending on district size and level of computerization. Second, they will have

to take the time to complete the interview. This takes 30 minutes (.5 hours). For the administrative-records data collection from state or county welfare and food stamp agencies, a 4 hour burden for the respondent is estimated. We anticipate 75 entities will supply this information (49 states, Washington DC, and 25 California counties).

Respondents: Key staff members of SFAs representing public school districts in the 50 states and the District of Columbia; officials designated by the state or county welfare or food stamp office as the most appropriate to supply the files.

Estimated Number of Respondents: 1,275 in total; including 1,200 SFAs, and 75 state or county welfare or food stamp offices.

Estimated Total Annual Burden on Respondents: 2,700 hours total.

Comments

Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technology. Comments should be sent to the address in the preamble. All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will also become a matter of public record.
