The tract will be leased to the qualified bidder of the highest cash amount, provided that the high bid meets the FMV for the tract. The minimum bid for the tract is \$100 per acre or fraction thereof. No bid that is less than \$100 per acre, or fraction thereof, will be considered. The minimum bid is not intended to represent FMV. The FMV of the tract will be determined by the Authorized Officer after the sale. In the event identical high sealed bids are received, the tying high bidders will be requested to submit follow-up bids until a high bid is received. All tie-breaking sealed bids must be submitted within 15 minutes following the Sale Official's announcement at the sale that identical high bids have been received. The lease issued as a result of this offering will provide for payment of an annual rental of \$3.00 per acre, or fraction thereof, and of a royalty payment to the United States of 12.5 percent of the value of coal produced by strip or auger mining methods and 8 percent of the value of the coal produced by underground mining methods. The value of the coal will be determined in accordance with 30 CFR 206.250.

Interested parties may submit comments to the BLM at the address stated below with respect to:

SUPPLEMENTARY INFORMATION: The *Over the River™* proposal submitted by OTR Corp. includes exhibit installation, a large-scale art exhibition and visitor event, and exhibit removal actions, including site restoration. The *Over the River™* proposal would involve 911 porous fabric panels, weighing an average 140 lbs/panel, suspended 8 to 25 feet above the water for a total of 5.9 miles over a 40 mile stretch of the Arkansas River, between Cañon City and Salida. The public art project would be constructed utilizing an estimated 8,992 steel anchors drilled along and into the banks of the Arkansas River to support 2,247 steel anchor transition frames for an estimated 1,264 steel cables that would support the fabric panels. OTR Corp also proposes a 4,000 square foot temporary building and a temporary gravel access road on the public land to stage art installation and removal as well as manage the large-

scale visitor event. The entire *Over the River™* event would attract an estimated 560,000 visitors over the course of 700-days from installation to removal.

The public land, consisting of approximately 2,470 acres, is in western Fremont and southeast Chaffee Counties, and within the Arkansas River corridor between the cities of Cañon City and Salida, Colorado. The footprint of the actual project will encumber approximately 310 acres of the lands listed below. The lands are located within:

Extensive scoping has been completed on the proposed project. Three public meetings were held in Cañon City, Cotopaxi, and Salida, Colorado. Over 700 people attended the public meetings.

The BLM has determined the proposed use of the above described tracts of land is in conformance with the Royal Gorge Resource Management Plan (May 1996), and that the above described land is available for that use. Natural resource and public safety issues have been identified and will be addressed in the Environmental Impact Statement including:

- Arkansas Canyonlands Area of Critical Environmental Concern (ACEC);
- Scenic (visual) resources;
- Bighorn sheep habitat;
- Raptor and migratory bird habitat;
- Recreation resources;
- Physical resources;
- Cultural/historic resources.

The BLM will estimate the costs of processing the land use permit application. Before the BLM begins to process the application, the applicant must pay the full amount of the estimated costs to the United States. If a land use permit is not granted, the applicant must pay to the United States, in addition to the estimated costs, the reasonable costs incurred by the BLM in processing the land use permit in excess of the estimated costs.

Adverse comments will be evaluated by the BLM Field Manager, Royal Gorge Field Office, who may sustain, vacate or modify this realty action. In the absence of any adverse comment, this realty action will become a final determination of the BLM as to each one of the two decisions stated above.

Roy L. Masinton,

Field Manager, Royal Gorge Field Office.
