**SUPPLEMENTARY INFORMATION:****I. Abstract**

This request is an extension of a current information collection.

National Marine Fisheries Service (NMFS) requires United States (U.S.) fishing vessels registered for use with, or any U.S. citizen issued with, a Special Coral Reef Ecosystem Fishing Permit (authorized under the Fishery Management Plan for Coral Reef Ecosystems of the Western Pacific Region), to complete logbooks and submit them to NMFS. The information in the logbooks is used to obtain fish catch/fishing effort data on coral reef fishes and invertebrates harvested in designated low-use marine protected areas and on those listed in the regulations as potentially-harvested coral reef taxa in waters of the U.S. exclusive economic zone in the western Pacific region. These data are needed to determine the condition of the stocks and whether the current management measures are having the intended effects, to evaluate the benefits and costs of changes in management measures, and to monitor and respond to

incidental takes of endangered and threatened marine animals. NMFS Fishery Management Plans are developed per Section 303 of the Magnuson-Stevens Fishery Conservation and Management Plan.

**II. Method of Collection**

Information is submitted to NMFS in the form of paper logbook sheets and paper transshipment forms within 30 days of each landing of coral reef harvest.

**III. Data**

*OMB Control Number:* 0648-0462.

*Form Number:* None.

*Type of Review:* Regular submission (extension of a current information collection).

*Affected Public:* Business or other for-profit organizations; individuals or households.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

This request is an extension of a currently approved information collection.

On March 28, 2003, the National Marine Fisheries Service (NMFS) and the U.S. Fish and Wildlife Service (Services) announced a final policy on the criteria the Services will use to evaluate conservation efforts by states and other non-Federal entities (68 FR 15100). The Services take these efforts into account when making decisions on whether to list a species as threatened or endangered under the Endangered Species Act. The efforts usually involve the development of a conservation plan or agreement, procedures for monitoring the effectiveness of the plan or agreement, and an annual report.

**II. Method of Collection**

NMFS does not require, but will accept, plans and reports electronically. NMFS has not developed a form to be used for submission of plans or reports. In the past, NMFS has made plans and

annual reports from states available through the Internet and plans to continue this practice.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Southeast Alaska purse seine salmon fishery is a commercial fishery in Alaska state waters and adjacent Federal waters. It encompasses the commercial taking of salmon with purse seine gear, and participation is limited to fishermen designated by the Alaska Commercial Fisheries Entry Commission (CFEC).

NMFS published proposed program regulations on May 23, 2011 (76 FR 29707), and final program regulations on October 6, 2011 (76 FR 61986), to implement the reduction program. Interested persons should review these for further program details. The final

regulations require NMFS to publish this notice before conducting a referendum to determine the industry's willingness to repay a fishing capacity reduction loan to purchase the permits identified in the reduction plan.

Subsequently, the Southeast Revitalization Association submitted a capacity reduction plan to NMFS and NMFS approved the plan.

As of February 24, 2012, there are 379 permits in the fishery designated as S01A by CFEC. These permanent permit holders are eligible to vote in the referendum. Comments may address: (1) Persons who appear on the below list but should not; (2) persons who do not appear on the list but should; (3) persons whose names and/or business mailing addresses are incorrect; and (4) any other pertinent matter. NMFS will update the list, as necessary, immediately before mailing referendum ballots. Mailed ballots will be accompanied by NMFS' detailed voting guidance.

##### **II. Public Meetings**

NMFS will hold a series of public informational meetings with Southeast Alaska purse seine salmon permit holders and interested individuals. The first will be Monday, March 5, 2012, from 10 a.m. to 12 p.m. The meeting will be held in Seattle, WA, at the Nordby Conference Center at Fishermen's Terminal (3919 18th Avenue West).
