Abstract

The Families First Coronavirus Response Act of 2020 (Pub. L. 116–127), enacted March 18, 2020, includes a general provision that allows the Department of Agriculture to issue emergency allotments (EA) based on a public health emergency declaration by the Secretary of Health and Human Services under section 319 of the Public Health Service Act related to an outbreak of COVID–19 when a State has also issued an emergency or disaster declaration. The Department obtained approval through an emergency clearance to collect the information as described in this Notice (OMB Control Number 0854–0652; expiration 9/30/2020). USDA anticipates the need to collect the data beyond the expiration date and is seeking approval of this Information Collection Request in order to meet the continuing information collection and reporting requirements detailed in the Families First Coronavirus Response Act of 2020.

As authorized by Families First Coronavirus Response Act of 2020, State agencies impacted by COVID–19 may submit a waiver request to their FNS Regional Office for approval to provide a EA to households to bring all

households up to the maximum benefit due to pandemic related economic conditions. State agency waivers will generally be approved under one or more the following conditions as it relates to COVID–19:

- Residents of the State are confirmed to have contracted COVID–19.
- Some or all areas of the State are containment or quarantine zones.
- Businesses have closed or significantly reduced their hours.
- The State's residents have experienced economic impacts due to job suspensions or losses.
- The State's residents have been directed to practice social distancing.

Once the State's waiver has been approved by FNS, the State may provide the EA without contacting the household. Following waiver approval, FNS will require State Agencies to attest to FNS on a monthly basis the EA waiver is still needed. Both the initial waiver and the monthly attestation are conducted via email. FNS expects 53 State agencies will submit one initial EA waiver to FNS. Currently 51 State agencies are operating under an EA waiver. It is possible that States may have more than one declared public health emergency over the next year as COVID–19 rates ebb and flow, therefore we are including hours for these initial waiver requests in this IC as a precautionary measure. Each initial EA waiver submission should take approximately one hour to complete. Each monthly email attesting to the continued need for the EA waiver is expected to take 15 minutes to complete.

Section 18(b) of the Food and Nutrition Act of 2008, as amended, requires that, "In any fiscal year, the Secretary shall limit the value of those allotments issued to an amount not in excess of the appropriation for such fiscal year." Because the EA waiver increases the monthly benefit of participants above the amount originally anticipated for this fiscal year, the amount of benefits issued and redeemed must be carefully tracked to ensure FNS does not exceed its appropriation. As such, it is necessary for FNS to collect information from State agencies

operating EA on a more frequent basis than would be reported normally. Generally, States report disaster-related SNAP participation and issuance data to FNS on the FNS-292B, Report of Disaster Supplemental Nutrition Assistance Benefit Issuance, within 45 days of terminating disaster assistance.

While a State is operating under an EA waiver, FNS requires the State to submit *bi-weekly* FNS-292B reports. The burden for a State agency to submit FNS-292B reports during normal operations is currently captured under the information collection for the Food Programs Reporting System (FPRS),

OMB Control Number 0584-0594 (expiration date 7/31/2023). However, FNS is including the burden for submitting this form more frequently under this information collection.

- FNS-292B—.4 hours per response × 53 State Agencies × 26 weeks = 551 hours.

SUPPLEMENTARY INFORMATION:

Title: Advertised Timber for Sale.

OMB Number: 0596-0066.

Expiration Date of Approval:

December 31, 2020.

Type of Request: Extension with Revision.

Abstract: Pursuant to statutory requirements at 16 U.S.C. 472a, unless extraordinary conditions exist as defined by regulation, the Secretary of Agriculture must: (1) Advertise sales of all National Forest System timber or forest products exceeding \$10,000 in appraised value; (2) select bidding methods that ensure open and fair competition; (3) select bidding methods that ensure that the Federal Government receives not less than appraised value of the timber or forest product; and (4) monitor bidding patterns for evidence of unlawful bidding practices.

Pursuant to the Forest Service Small Business Timber Sale Set-Aside Program, developed in cooperation with the Small Business Administration, Forest Service regulations at Title 36 of the Code of Federal Regulations, § 223.84 require that the Forest Service bid form used by potential timber sale bidders include provisions for small business concerns. The data collected will be used by the agency to ensure

that National Forest System timber will be sold at not less than appraised value, that bidders will meet specific criteria when submitting a bid, and that anti-trust violations will not occur during the bidding process.

The tax identification number of each bidder is entered into an automated bid monitoring system, which is used to determine if speculative bidding or unlawful bidding practices are occurring and is required to process electronic payments to the purchaser.

Respondents will be bidders on National Forest System timber sales. Forest Service sale officers will mail bid forms to potential bidders, and bidders will return the completed forms, dated and signed, to the Forest Service sale officer.

The data gathered in this information collection are not available from other sources.
