The Draft PEIS will also be available for review in the following formats:

- Compact Disc—2 volume set—PDF format (by request).

- Executive Summary only—hard copy (by request).

- The PEIS Web site at <http://www.i70mtncorridor.com>.

Background

This Draft PEIS focuses on broad approaches to address travel demand and performance of transportation systems within the context of the I-70 corridor communities and environmental setting. At this Tier 1 level of analysis, the Draft PEIS provides an evaluation of a broad range of mode choices and general locations of proposed transportation improvements for I-70 between Glenwood Springs and C-470. The study area extends

approximately 144 miles across Garfield, Eagle, Summit, Clear Creek and Jefferson Counties. This Draft PEIS includes an examination of the purpose and need, alternatives under consideration, travel demand, and consistent with a programmatic level of analysis, describes the affected environment, environmental consequences, and identifies mitigation policies for the proposed transportation systems under consideration. Twenty build alternatives and a No-Action Alternative are presented in the Draft PEIS. Of these, a group of nine preferred alternatives have been identified and are under consideration by FHWA and CDOT in the Draft PEIS. After a preferred alternative has been identified in the Final Programmatic EIS, and an alternative is selected in the Record of Decision, subsequent design, environmental analysis, documentation, and review will be prepared in a Tier 2 document, which will include site-specific, project level details.

Comments from interested parties on the Draft PEIS are encouraged and may be presented verbally at a public hearing or may be submitted in writing to the CDOT and/or the FHWA.

The FHWA and CDOT invite interested individuals, organizations, and federal, state, and local agencies to comment on the evaluated alternatives and associated social, economic, or environmental impacts related to the alternatives.

Please refer to the assigned OMB control number or collection title in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated

by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

The scope of the transactions covered under the two rules is the same.
