Multiple Award Schedule (MAS) Program Continuous Open Season-Operational Change

AGENCY: Federal Acquisition Service, GSA.

ACTION: Notice with a request for comments.

SUMMARY: The General Services Administration (GSA), Federal Acquisition Service (FAS) intends to institute a Demand Based Model (DBM) designed to assess and improve the performance of the Multiple Award Schedule (MAS) contracts operated by GSA. GSA is proposing this operational change to enhance the performance of and modernize the MAS program in three key program areas: Small business viability, operational efficiency, and cost control. The DBM will realign suppliers under the MAS program with current Federal marketplace demands. This will result in directing suppliers, including small businesses, to where government procurement needs are; thereby having a supplier base more focused on providing innovative solutions to address the procurement needs of the government, especially under these current fiscal challenges. Operational efficiencies and cost control thus realized will restore and maintain the MAS program's value to Federal agencies as a streamlined acquisition vehicle through reduction in duplicative contracts, better contract administration support by GSA as well as other increased levels of customer support from GSA. Additionally, DBM is intended to benefit participating members of industry, including small businesses, by improving processing time for awards, modifications and
