Award Amounts

Grants will be awarded at \$60,000 for the first year with continuation funding in the second and third year, contingent upon the grantee's performance, the success of the project, and the availability of federal funds.

OVC has allocated up to \$500,000 for this initiative in FY2001, and anticipates supporting up to 10 grant awards. Funding support will be provided for up to three years with an "in-kind" match requirement each year. The purpose of the "in-kind" match is to obtain tribal investment into the partnership from the beginning of the grant award, thereby enhancing the tribe's ability to institutionalize the program after OVC funding ends. The in-kind match must be in the form of staff time, facilities, office space and utilities, employee details/loans, and

agency partnerships. Hard match is allowable in lieu of in-kind match.

Volunteer time cannot be used as match.

The first year award will be limited to \$60,000 per grantee and will require a 10% in-kind match. The second year of funding will be \$75,000 with a 15% in-kind match, and the third year of funding will be \$75,000 with a 25% in-kind match.

Award Period

The grants will be for 12 months, with potential continuations for two additional years.

Dated: October 11, 2000.

BILLING CODE 7036-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461]

In the Matter of AmerGen Energy Company, LLC (Clinton Power Station); Order Approving Application Regarding Proposed Corporate Restructuring

I.

AmerGen Energy Company (AmerGen, the licensee) is the holder of Facility Operating License No. NPF-62, which authorizes AmerGen to possess, use, and operate Clinton Power Station (the facility). The facility is located at the licensee's site in DeWitt County, Illinois. British Energy, Inc., and PECO Energy Company (PECO) each own 50 percent of AmerGen.

II.

By application dated July 19, 2000, AmerGen requested approval of the indirect transfer of the facility operating license to Exelon Corporation, to the extent such would occur upon PECO becoming a subsidiary of Exelon Corporation, a new corporation to be formed in connection with the proposed merger of Unicom Corporation (Unicom), the parent of Commonwealth Edison Company, and PECO. Supplemental information was provided by a submittal dated September 15, 2000.

Under the proposed merger, PECO will become a direct or indirect subsidiary of Exelon Corporation. The merger was previously the subject of an AmerGen application dated February 28, 2000, in which AmerGen requested approval of the indirect transfer of the Clinton license (and certain other licenses held by AmerGen) that would

occur as a result of a proposed transfer of PECO's 50 percent interest in AmerGen to Exelon Generation Company, LLC (EGC). EGC is to be formed in connection with the merger between Unicom and PECO referred to above, and will also become a subsidiary of Exelon Corporation. British Energy, Inc., is not involved in the merger, and its interest in AmerGen will remain unchanged. The February 28, 2000, application is still under review.

According to the July 19, 2000, application, the transfer of PECO's 50 percent interest in AmerGen to EGC may be delayed beyond the closing of the merger. During this interim period, Exelon Corporation would become and continue to be the direct parent of PECO pending the receipt of necessary approvals to allow PECO's generating assets, including its interest in AmerGen, to be transferred to EGC; PECO would continue to hold its 50 percent interest in AmerGen, which will continue to be the sole owner and operator of Clinton.

Approval of the indirect transfer of the facility operating license that would occur under the immediately preceding circumstances was requested by AmerGen pursuant to 10 CFR 50.80. Notice of the request for approval and an opportunity for a hearing was published in the **Federal Register** on August 31, 2000 (65 FR 53035). The Commission received no comments or requests for hearing pursuant to such notice.

Under 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. Upon review of the information in the July 19, 2000, application by AmerGen, the September 15, 2000, supplement, and other information before the Commission, the NRC staff has determined that the proposed corporate restructuring under which Exelon Corporation will become the parent of PECO while PECO continues to hold its ownership interest in AmerGen, will not affect the qualifications of AmerGen as holder of the license described above, and that the indirect transfer of the license, to the extent effected by the proposed corporate restructuring, is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission, subject to the condition set forth below.

The findings set forth above are supported by a safety evaluation dated October 5, 2000.

¹ Incorrect dates printed in these notices were March 3, 2002 and March 31, 2000, respectively.
