However, the Commission makes all information within the Wireless Radio Services publicly available on its Universal Licensing System (ULS) Web page.

Nature and Extent of Confidentiality: Respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of their rules. The Commission has in place the following policy and procedures for records retention and disposal: Records will be actively maintained as long as the individual remains a licensee. Paper records will be archived after being keyed or scanned into the system and

The Wireless Telecommunications Bureau (WTB) of the FCC periodically conducts audits of the construction and/or operational status of various Wireless radio stations in its licensing database that are subject to rule-based construction and operational requirements. The Commission's rules for these Wireless services require construction within a specified timeframe and require a station to remain operational in order for the license to remain valid.

The information will be used by FCC personnel to assure that licensees' stations are constructed and currently operating in accordance with the parameters of the current FCC authorization and rules.
