Abstract: Integrated Postsecondary Education Data System (IPEDS) is a system of surveys designed to collect basic data from approximately 7,000 Title IV postsecondary institutions in the United States and other jurisdictions. The IPEDS provides information on numbers of students enrolled, degrees completed, other awards earned, dollars expended, staff employed at postsecondary institutions, and cost and pricing information. The amendments to the Higher Education Act of 1998, Part C, Sec. 131, specify the need for the “redesign of relevant data systems to improve the usefulness and timeliness of the data collected by such systems.” As a consequence, in 2000 IPEDS began to collect data through a web-based data collection system. The data collection is now entirely web-based, and is required for those institutions participating in Title IV federal student aid programs; other institutions participate on a voluntary basis. IPEDS data are available to the

public through the College Navigator and IPEDS Data Center Web sites. This clearance package seeks authorization from OMB to continue IPEDS data collection through 2014, describes revisions to the currently approved (2010–11) IPEDS burden estimates, and includes a number of proposed changes to the data collection.

Type of Review: New.

Title of Collection: U.S. Department of Education, Institute of Education Sciences Research Performance Progress Report (RPPR).

OMB Control Number: Pending.

Agency Form Number(s): N/A.

Frequency of Responses: Annually.

Affected Public: Businesses or other for-profit; not-for-profit institutions; State, Local, or Tribal Government, State Educational Agencies or Local Educational Agencies.

Total Estimated Number of Annual Responses: 766.

Total Estimated Number of Annual Burden Hours: 16.

Abstract: The Research Performance Progress Report (RPPR) format and instructions are used in order for Institute of Education Sciences’ (IES) grantees to meet the established due dates for submission of performance

reports for IES discretionary grant programs. Recipients of multi-year discretionary grants must submit an annual performance report for each year funding has been approved in order to receive a continuation award. The annual performance report should demonstrate whether substantial progress has been made toward meeting the approved goals and objectives of the project. The Institute also requires recipients of "forward funded" grants that are awarded funds for their entire multi-year project up-front in a single grant award to submit the RPPR on an annual basis. In addition, the Institute will require recipients to use the ED 524B to submit their final performance reports to demonstrate project success, impact and outcomes. In both the annual and final performance reports, grantees are required to provide data on established performance measures for the grant program (e.g., Government Performance and Results Act measures) and on project performance measures that were included in the grantee's approved grant application. The RPPR will contain research and related (total federal and non-federal) budgetary forms that will be used to collect budgetary data from the recipient organization. The information submitted will be used to conduct periodic administrative/budgetary reviews. Performance reporting requirements are found in 34 CFR 74.51, 75.118, 75.253, 75.590 and 80.40 of the Education Department General Administrative Regulations.
