Columbia Gulf Transmission, LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on September 24, 2020, Columbia Gulf Transmission, LLC (Columbia Gulf), 700 Louisiana Street, Suite 700, Houston, TX 77002-2700, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization of its East

Lateral XPress Project (Project). The Project consists of the construction: (i) Two new compressor stations, (ii) a new point of delivery meter station, (iii) approximately 8 miles of new 30-inch-diameter natural gas pipeline lateral, (iv) two new mainline valves, a tie-in facility, launcher and receiver facilities, and other auxiliary appurtenant facilities all located in St. Mary, Lafourche, Jefferson, and Plaquemines Parishes, Louisiana. The Project will create 183,000 dekatherms per day (Dth/d) of incremental capacity. The incremental capacity created by the Project, in conjunction with the utilization of existing capacity, will allow for open access firm transportation service on approximately 725,000 Dth/d on Columbia Gulf's East Lateral. Columbia Gulf estimates the total cost of the Project to be \$363,898,548 and proposes a new incremental recourse rate to apply to the Project capacity, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
