

workers receive updated information regarding any safety-related hazards and incidents, and corrective actions taken, prior to the start of each shift. The proposed condition also requires the applicant to ensure that reliable means of emergency communications are available and maintained for affected workers and support personnel during diving activities. Availability of such reliable means of communications would enable affected workers and support personnel to respond quickly and effectively to hazardous conditions or emergencies that may develop during diving activities at NASA's NBL.

F. Worker Qualification and Training

KBR would be required to:

1. Follow the requirements of the NASA NBL Safety Program, including the NBL Safe Practices Manual, as well as any instruction provided by NASA's DSB;

2. Ensure that prior to entering the water, all KBR employees conducting dives at the NBL have been physically examined for fitness to dive by the NBL medical officer of the day or a human test support group medical technician.

G. Recordkeeping

In addition to completing OSHA Form 301 Injury and Illness Incident Report and OSHA Form 300 Log of Work-Related Injuries and Illnesses, KBR would have to:

1. Maintain records of recordable injuries that occur as a result of diving operations conducted for NASA under the NBL;

2. Ensure that the information gathered and recorded under this provision, in concert with the information provided under proposed condition G (using OSHA Form 301 Incident Report Form) to investigate and record dive-related recordable injuries as defined by 29 CFR parts 1904.4, 1904.7, and 1904.8—1904.12, would enable KBR and OSHA to determine the effectiveness of the proposed permanent variance in preventing DCS and other dive-related injuries and illnesses.

H. Notifications

KBR would be required to:

1. Notify OSHA's Office of Technical Programs and Coordination Activities (OTPCA) and the Houston South Texas OSHA Area Office of any recordable injuries, illnesses, in-patient hospitalizations, amputations, loss of an eye, or fatality that occur as a result of diving operations within eight (8) hours of the incident;

2. Provide OTPCA and the Houston South Texas OSHA Area Office within twenty-four (24) hours of the incident

with a copy of the incident investigation report (using OSHA 301 form);

3. Include on the OSHA 301 form information on the diving conditions associated with the recordable injury or illness, the root-cause determination, and preventive and corrective actions identified and implemented;

4. Provide their certification that they informed affected divers of the incident and the results of the incident investigation;

5. Notify OTPCA and the Houston South Texas OSHA Area Office within fifteen (15) working days should the applicant need to revise their dive procedures to accommodate changes in their diving operations that affect their ability to comply with the conditions of the proposed permanent variance;

6. Obtain OSHA's written approval prior to implementing the revision in their dive procedures to accommodate changes in their diving operations that affect their ability to comply with the conditions in the proposed permanent variance;

7. By the fifteenth (15th) of January, at the beginning of each new calendar year, provide OTPCA, and Houston South Texas OSHA Area Office, with a report summarizing the dives completed during the previous year and evaluating the effectiveness of the variance conditions in providing a safe and healthful work environment and in preventing dive-related incidents;

8. Notify OSHA if it ceases to do business, has a new address or location for their main office, or transfers the operations covered by the proposed permanent variance to a successor company; and

9. Ensure that OSHA would approve the transfer of the interim order or permanent variance to a successor company.

OSHA will publish a copy of this notice in the **Federal Register**.

VII. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 655(d), Secretary of Labor's Order No. 8–2020 (85 FR 58393, Sept. 18, 2020), and 29 CFR 1905.11.

Signed at Washington, DC.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

LEGAL SERVICES CORPORATION

Pro Bono Innovation Fund Process for Submitting Pre-Applications for 2024 Grants

AGENCY: Legal Services Corporation.

ACTION: Notice.

SUMMARY: The Legal Services Corporation (LSC) issues this Notice describing the conditions for submitting a Pre-Application for 2024 Pro Bono Innovation Fund grants.

DATES: Pre-applications must be submitted by 11:59 p.m. EST on Monday, January 16, 2024.

ADDRESSES: Letters of Intent must be submitted electronically at <http://lscgrants.lsc.gov>.

FOR FURTHER INFORMATION CONTACT:

Katherine Harris, Special Grant Program Coordinator, Office of Program Performance, Legal Services Corporation, 3333 K Street NW, Washington, DC 20007; (202) 295–1572 or harrisk@lsc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Since 2014, Congress has provided an annual appropriation to LSC “for a Pro Bono Innovation Fund.” *See, e.g.,* Consolidated Appropriations Act, 2023, Public Law 117–328, 136 Stat. 4553 (2022). LSC requested these funds for grants to “develop, test, and replicate innovative pro bono efforts that can enable LSC grantees to expand clients’ access to high quality legal assistance.” LSC Budget Request, Fiscal Year 2014 at 26 (2013). The grants must involve innovations that are either “new ideas” or “new applications of existing best practices.” *Id.* Each grant would “either serve as a model for other legal services providers to follow or effectively replicate a prior innovation.” *Id.* The Senate Appropriations Committee explained that these funds “will support innovative projects that promote and enhance pro bono initiatives throughout the Nation,” and the House Appropriations Committee directed LSC “to increase the involvement of private attorneys in the delivery of legal services to [LSC-eligible] clients.” Senate Report 114–239 at 123 (2016), House Report 113–448 at 85 (2014).

Since its inception, the Pro Bono Innovation Fund has advanced LSC's goal of increasing the quantity and quality of legal services by funding projects that more efficiently and effectively involve pro bono volunteers in serving the critical unmet legal needs of LSC-eligible clients. In 2017, LSC built on these successes by creating three funding categories to better focus

on innovations serving unmet and well-defined client needs (Project Grants), on building comprehensive and effective pro bono programs through new applications of existing best practices (Transformation Grants), and on providing continued development support for the most promising innovations (Sustainability Grants). In 2021, LSC created Non-Direct Service Project Grants to fund organizations to develop and implement innovative solutions to pro bono challenges that do not involve providing direct legal services to clients. In 2022, LSC created a new funding category to provide organizations with resources to plan and establish a strong foundation (Planning Grants). Planning Grants will be available to all eligible applicants in the 2024 funding cycle.

II. Funding Opportunities Information

A. Eligible Applicants

To be eligible for the Pro Bono Innovation Fund's Project, Sustainability, and Transformation grants, Applicants must be current grantees of LSC Basic Field-General, Basic Field-Migrant, or Basic Field-Native American grants. To qualify for a Sustainability Grant, Applicants must also have a 2022 Pro Bono Innovation Fund Project Grant.

B. Pro Bono Innovation Fund Purpose and Key Goals

Pro Bono Innovation Fund grants develop, test, and replicate innovative pro bono efforts that can enable LSC grantees to use pro bono volunteers to serve larger numbers of low-income clients and improve the quality and effectiveness of the services provided. The key goals of the Pro Bono Innovation Fund are to:

1. Address gaps in the delivery of legal services to low-income people;
2. Engage more lawyers and other volunteers in pro bono service;
3. Develop, test, and replicate innovative pro bono efforts.

C. Funding Categories

1. Planning Grants

In 2023, LSC piloted a new grant category, Planning Grants, to provide select organizations with the resources to assess their pro bono program and develop an action plan. Planning Grants are one-time, six-month grants.

2. Project Grants

Pro Bono Innovation Fund Project Grants aim to leverage volunteers to meet a critical, unmet and well-defined client need. Consistent with the key goals of the Pro Bono Innovation Fund, applicants are encouraged to focus on engaging volunteers to increase free civil legal aid for low-income Americans by proposing new, replicable ideas.

Applicants are strongly encouraged to research prior Pro Bono Innovation Fund projects to replicate and improve upon them. LSC is particularly interested in applications that propose to replicate projects LSC has previously funded with "Sustainability" Grants. Project Grants can be either 18 or 24 months.

3. Transformation Grants

Pro Bono Innovation Fund Transformation Grants aim to support LSC grantees in comprehensive assessment and restructuring of pro bono programs through new applications of existing best practices in pro bono delivery. Each Transformation Grant will support a rigorous assessment of an LSC grantee's pro bono program and the identification of best practices in pro bono delivery that are best suited to that grantee's needs and circumstances. Transformation Grants are targeted towards LSC grantees whose leadership is committed to restructuring an entire pro bono program and incorporating pro bono best practices into core, high-priority client services with an urgency to create a high-impact pro bono program. This funding opportunity is open to all LSC grantees but is primarily intended for LSC grantees who have been unsuccessful applying for Project Grants or who have never applied for a Pro

Bono Innovation Fund grant in the past. Transformation Grants can be either 24 or 36 months.

4. Sustainability Grants

Pro Bono Innovation Fund Sustainability Grants are available to current Pro Bono Innovation Fund grantees who received a 2022 Project grant. Sustainability Grants aim to support further development of the most promising and replicable Pro Bono Innovation Fund projects with an additional 24 months of funding so grantees can leverage new sources of revenue for the project and collect meaningful data to demonstrate the project's results and outcomes for clients and volunteers. Applicants for Sustainability Grants will be asked to propose an ambitious strategy that reduces the Pro Bono Innovation Fund contribution to the project over the Sustainability Grant term. Sustainability Grants can only be 24 months.

D. Available Funds and Additional Consideration for 2021 Grants

The amount of funds available for Pro Bono Innovation Fund Grants for FY2024 depends on LSC's final appropriation. LSC currently operates under a Continuing Resolution for FY2024, which funds the Federal government through November 17, 2023. The Continuing Resolution maintains funding for the Pro Bono Innovation Fund at \$5,000,000. LSC will make Pro Bono Innovation Fund grant decisions for FY2023 in the summer of 2023. LSC anticipates publicizing the total amount available for Pro Bono Innovation Fund grants when Congress enacts the FY2023 appropriation.

LSC will not designate fixed or estimated amounts for the three different funding categories and will make grant awards for the three categories within the total amount of funding available.

E. Grant Terms

Pro Bono Innovation Fund awards can have grant terms of 6, 18, 24, or 36 months, depending on the category of grant.

	6 Months	12 Months	18 Months	24 Months	36 Months
Planning Grants	✓	X	X	X	X
Project Grants	X	X	✓	✓	X
Transformation Grants	X	X	X	✓	✓
Sustainability Grants	X	X	X	✓	X

Applicants for Planning Grants can apply for a 6-month grant. Applicants for Project Grants can apply for either an

18- or a 24-month grant. Applicants for Transformation Grants can apply for either a 24- or a 36-month grant.

Applicants for Sustainability Grants can apply for a 24-month grant only. Applications must cover the full

proposed grant term. The grant term is expected to commence on October 1, 2023.

III. Grant Application Process

A. Pro Bono Innovation Fund Grant Application Process

The Pro Bono Innovation Fund application process will be administered in LSC's unified grants management system, GrantEase. Applicants must first submit a Pre-Application to LSC in GrantEase by January 16, 2024 to be considered for a grant. After review by LSC Staff, LSC's President decides which applicants will be asked to submit a full application. Applicants will be notified of approval to submit a full application by early March 2024. Full applications are due to LSC in the GrantEase system on May 6, 2024. Once received, full applications will undergo a rigorous review by LSC staff and other subject matter experts. LSC's President makes the final decision on funding for the Pro Bono Innovation Fund.

B. Late or Incomplete Applications

LSC may consider a request to submit a Pre-Application after the deadline, but only if the Applicant has submitted an email to probonoinnovation@lsc.gov explaining the circumstances that caused the delay prior to the Pre-Application deadline. Communication with LSC staff, including assigned Program Liaisons, is not a substitute for sending a formal request and explanation to probonoinnovation@lsc.gov. At its discretion, LSC may consider incomplete applications. LSC will determine the admissibility of late or incomplete applications on a case-by-case basis.

C. Multiple Pre-Applications

Applicants may submit multiple Pre-applications under the same or different funding category. If applying for multiple grants, applicants should submit separate Pre-applications for each funding request.

D. Additional Information and Guidelines

Additional guidance and instructions on the Pro Bono Innovation Fund Pre-Application and Application processes, will be available and regularly updated at <https://www.lsc.gov/grants-grantee-resources/our-grant-programs/pro-bono-innovation-fund>.

(Authority: 42 U.S.C. 2996g(e).)

Dated: November 14, 2023.

Stefanie Davis,

Deputy General Counsel for Administrative and Regulatory Practice, Legal Services Corporation.

OFFICE OF MANAGEMENT AND BUDGET

Request for Comments on Updated Guidance for Modernizing the Federal Risk Authorization Management Program (FedRAMP); Extension of Public Comment Period

AGENCY: Office of Management and Budget.

ACTION: Notice of extension of public comment period.

SUMMARY: On October 27, 2023, the Office of Management and Budget (OMB) published a notice entitled “Request for Comments on Updated Guidance for Modernizing the Federal Risk Authorization Management Program (FedRAMP).” OMB is extending the public comment period announced in that notice, which currently closes on November 27, 2023, by 26 days. The comment period will now remain open until December 22, 2023, to allow additional time for the public to review and comment on the initial proposals.

DATES: With the extension provided by this notice, comments on the proposed guidance “Modernizing the Federal Risk Authorization Management Program (FedRAMP)” published October 27, 2023, at 88 FR 73878, must be provided in writing to OMB no later than December 22, 2023, to ensure consideration during the final decision-making process.

ADDRESSES: The proposed memorandum is available at <https://www.cio.gov/policies-and-priorities/FedRAMP/>.

Submission of comments is voluntary. Please submit comments via <https://www.regulations.gov>, a Federal website that allows the public to find, review, and submit comments on documents that agencies have published in the **Federal Register** and that are open for comment. Simply type “OMB–2023–0021” in the search box, click “Search,” click the “Comment” button underneath “Request for Comments on Proposed Guidance for Modernizing the Federal Risk Authorization Management Program (FedRAMP),” and follow the instructions for submitting comments. All comments received will be posted to <https://www.regulations.gov>, so commenters should not include

information they do not wish to be posted (e.g., personal or confidential business information). Additionally, the OMB System of Records Notice, OMB Public Input System of Records, OMB/INPUT/01 includes a list of routine uses associated with the collection of this information.

FOR FURTHER INFORMATION CONTACT:

Carol Bales, OMB, at 202.395.9915 or cbales@omb.eop.gov or Laura Gerhardt, at 202.881.8928 or Laura.G.Gerhardt@omb.eop.gov.

SUPPLEMENTARY INFORMATION:

Rationale: Based on consideration of requests received from stakeholders, which are available for the public to view in the docket on www.regulations.gov for OMB's October 27, 2023 notice, OMB is extending the public comment period announced in that notice for an additional 26 days. Therefore, the public comment period will close on December 22, 2023.

Docket: OMB has established a docket for the October 27, 2023 notice under Docket ID No. OMB–2023–0021.

Clare Martorana,

Federal Chief Information Officer, Office of the Federal Chief Information Officer, Office of Management Budget.
