[Project No. 516]

South Carolina Electric and Gas Company; Notice of Meetings to Discuss Three Filings Before the Commission and Soliciting Comments

December 26, 2002.

The Federal Energy Regulatory Commission (FERC or Commission) will hold meetings in the project area to discuss three matters pending before the Commission associated with the South Carolina Electric and Gas Company's

(license or SCE&G) Saluda Project No. 516. The Saluda Project is located on the Saluda River in Richland, Lexington, Saluda, and Newberry counties, near Columbia, South Carolina.

The three matters are as follows: (1) The Commission's request for comments on the September 4, 2002, Environmental Assessment (EA), on SCE&G's applications to sell project lands for future development (subdockets -319, -321, -326, -329, -330, -330, -331, -332, -333, -354, -355, -356, -357, -358, and -359); (2) the Land Use and Shoreline Management Plan update (LUSMP) filed by the licensee on February 1, 2000, and supplemented on March 28, 2002, for Commission review and approval (subdocket -318); and (3) the investigation of alleged unauthorized clearing of lands within the project boundary (subdocket -353).

We invite the written and oral comments from federal and state resource agencies, non-governmental organizations, and the general public at the meetings. We will hold two meetings, one on January 21, 2003, from 6:30-9 p.m. at the Irmo Elementary School, 7401 Gibbes Street, Irmo, SC 29063 and the second meeting on January 22, 2003, from 8:30 a.m.-11:30 a.m. at the Embassy Suites Hotel, Columbia-Greystone, 200 Stoneridge Drive, Columbia, SC 29210. The public and agencies may attend either or both meetings.

SCE&G has requested that the meeting address: (1) A brief history and overview of Lake Murray shoreline management; (2) the status of FERC review of the LUSMP update; (3) the Commission's October 9, 2002, letter regarding shoreline vegetation; (4) the proposed recommendations of the land-sale EA; (5) the factual and scientific basis cited for FERC-imposed shoreline conditions; (6) the standard of proof required to refute allegations of LUSMP violations; (7) the appropriate means for determining factual and scientific basis for evaluation of project lands and waters; and (8) miscellaneous issues as they relate to the three matters.

While we appreciate the suggestions of the licensee, Commission staff will limit comments and discussions to the three matters identified above, and the upcoming licensing process. We also request that the licensee and/or state representative provide a status update on the proposed land swap/donation with the State of South Carolina.

The meetings will be recorded by a stenographer and will become part of the record for this project. An agenda for the meeting is attached.
