BILLING CODE 4710-06-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

2003-2004 Allocations of the Tariff-rate Quotas for Raw Cane Sugar, Refined Sugar, and Sugar-Containing Products

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The Office of the United States Trade Representative (USTR) is providing notice of the country-by-country allocations of the in-quota quantity of the tariff-rate quotas for imported raw cane sugar, refined sugar, and sugar-containing products for the period that begins October 1, 2003 and ends September 30, 2004.

EFFECTIVE DATE: October 1, 2003.

ADDRESSES: Inquiries may be mailed or delivered to Sharon Sydow, Director of Agricultural Trade Policy, Office of Agricultural Affairs, Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC 20508.

FOR FURTHER INFORMATION CONTACT: Sharon Sydow, Office of Agricultural Affairs, 202-395-6127.

SUPPLEMENTARY INFORMATION: Pursuant to Additional U.S. Note 5 to chapter 17 of the Harmonized Tariff Schedule of the United States (HTS), the United States maintains tariff-rate quotas for imports of raw cane and refined sugar. Pursuant to additional U.S. Note 8 to chapter 17 of the HTS, the United States

also maintains a tariff-rate quota for certain sugar-containing products.

Section 404(d)(3) of the Uruguay Round Agreements Act (19 U.S.C. 3601(d)(3)) authorizes the President to allocate the in-quota quantity of a tariff-rate quota for any agricultural product among supplying countries or customs areas. The President delegated this authority to the United States Trade Representative under Presidential Proclamation 6763 (60 FR 1007).

The in-quota quantity of the tariff-rate quota for raw cane sugar for the period October 1, 2003-September 30, 2004, has been established by the Secretary of Agriculture at 1,117,195 metric tons, raw value (1,231,497 short tons), the minimum to which the United States is committed under the World Trade Organization Agreement. The quantity of 1,117,195 metric tons, raw value is being allocated to the following countries:

Country	FY 2004 allocation
Argentina	45,281
Australia	87,402
Barbados	7,371
Belize	11,583
Bolivia	8,424
Brazil	152,691
Colombia	25,273
Congo	7,258
Cote d'Ivoire	7,258
Costa Rica	15,796
Dominican Republic	185,335
Ecuador	11,583
El Salvador	27,379
Fiji	9,477
Gabon	7,258
Guatemala	50,546
Guyana	12,636
Haiti	7,258
Honduras	10,530
India	8,424
Jamaica	11,583
Madagascar	7,258
Malawi	10,530
Mauritius	12,636
Mexico	7,258
Mozambique	13,690
Nicaragua	22,114
Panama	30,538
Papua New Guinea	7,258
Paraguay	7,258
Peru	43,175
Philippines	142,160
South Africa	24,220
St. Kitts & Nevis	7,258
Swaziland	16,849
Taiwan	12,636
Thailand	14,743
Trinidad-Tobago	7,371
Uruguay	7,258
Zimbabwe	12,636

These allocations are based on the countries' historical shipments to the United States. The allocations of the raw cane sugar tariff-rate quota to countries that are net importers of sugar are

conditioned on receipt of the appropriate verifications of origin.

This allocation includes the following minimum quota-holding countries: Congo, Cote d'Ivoire, Gabon, Haiti, Madagascar, Papua New Guinea, Paraguay, St. Kitts & Nevis, and Uruguay.

The in-quota quantity of the tariff-rate quota for refined sugar for the period October 1, 2003-September 30, 2004, has been established by the Secretary of Agriculture at 39,000 metric tons, raw value (42,990 short tons), of which the Secretary has reserved 18,656 metric tons (20,565 short tons) for specialty sugars. Of the quantity not reserved for specialty sugars, a total of 10,300 metric tons (11,354 short tons) is being allocated to Canada and 2,954 metric tons (3,256 short tons) is being allocated to Mexico. The remaining 7,090 metric tons (7,815 short tons) of the in-quota quantity not reserved for specialty sugars may be supplied by any country on a first-come, first-served basis, subject to any other provision of law. The 18,656 metric tons (18,360 short tons) reserved for specialty sugars is also not being allocated among supplying countries and is available on a first-come, first-served basis, subject to any other provision of law.

With respect to the tariff-rate quota of 64,709 metric tons (71,329 short tons) for certain sugar-containing products maintained pursuant to additional U.S. Note 8 to chapter 17 of the HTS, 59,250 metric tons (65,312 short tons) of sugar-containing products is being allocated to Canada. The remaining in-quota quantity for this tariff-rate quota is available to other countries on a first-come, first-served basis.

Conversion factor: 1 metric ton=1.10231125 short tons.

Allen F. Johnson,

Chief Agricultural Negotiator.

BILLING CODE 3190-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

FAA Approval of Noise Compatibility Program 14 CFR Part 150, Toledo Express Airport, Toledo, OH

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the Toledo-Lucas county Port Authority under the

provisions of 49 U.S.C. (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 196-52 (1980). On January 24, 2003 the FAA determined that the noise exposure maps submitted by the Toledo-Lucas County Port Authority under Part 150 were in compliance with applicable requirements. On July 18, 2003 the FAA approved the Toledo Express Airport noise compatibility program. All of the recommendations of the program were approved.

DATES: The effective date of the FAA's approval of the Toledo Express Airport noise compatibility program is July 18, 2003.

FOR FURTHER INFORMATION CONTACT: Katherine Jones, Federal Aviation Administration, Great Lakes Region, Detroit Airports District Office, DET ADO-606, Metro Airport Center, 11677 S. Wayne Road, Ste. 107, Romulus, Michigan 48174, (734) 229-2958. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the noise compatibility program for Toledo Express Airport, effective July 18, 2003.

Under Section 47504 of the Act, an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulations (FAR) Part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act and is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the provisions of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against all types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator as prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR Part 150, § 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA. Where federal funding is sought, requests for project grants must be submitted to the FAA Detroit Airports District Office in Romulus, Michigan.

Toledo-Lucas County Port Authority submitted to the FAA on January 21, 2003 the noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study conducted from 1999 through 2002. The Toledo Express Airport noise exposure maps were determined by FAA to be in compliance with applicable requirements on January 24, 2003. Notice of this determination was published in the **Federal Register** on February 14, 2003.

The Toledo Express Airport study contains a proposed noise compatibility program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from the 2002 to the year 2007. It was requested that the FAA evaluate and approve this material as a noise

compatibility program as described in Section 47504 of the Act. The FAA began its review of the program on January 24, 2003 and was required by provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such program within the 180-day period shall be deemed to be an approval of such program.

The submitted program contained ten proposed actions for noise mitigation on and/or off the airport. The FAA completed its review and determined that the procedural and substantive requirements of the Act and FAR Part 150 have been satisfied. The overall program, therefore, was approved by the FAA effective July 18, 2003.

Outright approval was granted for all of the specific program elements. The approved measures were to Establish Runway 25 as preferred for departure by all aircraft, 24 hours per day; Establish Runway 7 as preferred for nighttime arrivals, 10 p.m. to 6:59 a.m.; Straight-in approaches to Runway 7/25 on final approach course beyond the outer marker; Runway heading departures from Runway 7/25 for aircraft to fly runway handing until 6 nautical miles from brake release; Install sound insulation improvements at Swanton Township Elementary School; Establish a noise program office; Establish a noise complaint system; Coordinate and communicate with key agencies; Monitor aircraft activity and evaluate the plan; and Update the plan on a regular basis, as needed.

These determinations are set forth in detail in a Record of Approval signed by the Associate Administrator for Airports on July 18, 2003. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the administrative offices of the Toledo-Lucas County Port Authority. The Record of Approval also will be available on-line at <http://www.faa.gov/arp/environmental/14cfr150/index14.cfm>.

Issued in Romulus, Michigan, July 21, 2003.

Irene R. Porter,

Manager, Detroit Airports District Office, Great Lakes Region.
