SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the registration of trademarks, service marks, collective trademarks and collective service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the USPTO.

This information collection covers various trademark related communications to the USPTO, including letters of protest, requests to make special, responses to petition inquiry letters, petitions to make special, requests to restore a filing date, and requests for reinstatement. The information is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. Information relating to the registration of a trademark is made available to the public by the USPTO. However, the release of information in a letter of protest is controlled and may be available only upon request.

A letter of protest is a procedure whereby third parties who object to the registration of a mark in a pending application may bring to the attention of the USPTO evidence bearing on the registrability of the mark. A letter of protest must identify the application being protested and the proposed grounds for refusing registration and include relevant evidence to support the protest.

A request to make special may be submitted where an applicant requests that initial examination of an application be advanced out of its

regular order because the mark in the application was the subject of an inadvertently cancelled or expired previous registration.

A response to a petition inquiry letter is submitted by a petitioner who is responding to a notice of deficiency that the USPTO issued after receiving an incomplete petition to the Director. A petition may be considered incomplete if, for example, it does not include the fee required by 37 CFR 2.6 or if it includes an unverified assertion that is not supported by evidence.

The USPTO generally examines applications in the order in which they are received. A petition to make special is a request by the applicant to advance the initial examination of an application out of its regular order.

A request to restore a filing date is submitted by an applicant who previously filed an application that was denied a filing date. The request must include evidence showing that the applicant is entitled to the earlier filing date.

If an applicant has proof that an application was abandoned due to a USPTO error, an applicant may file a request to reinstate the application instead of a petition to revive. To support such a request, the applicant must include evidence of the USPTO error.

II. Method of Collection

Items in this information collection must be submitted via online electronic submissions through the Trademark Electronic Application System (TEAS). In limited circumstances, applicants may also be permitted to submit the information in paper form by mail or hand delivery.

The routine uses are proposed to be updated to allow for disclosure to the Department of State to issue passports/visas to these individuals, and to foreign embassies to obtain a foreign entry visa for these individuals. The DoD is also modifying various other sections within the SORN to improve clarity or update information that has changed.

DATES: This system of records modification is effective upon publication; however, comments on the Routine Uses will be accepted on or before June 2, 2021. The Routine Uses are effective at the close of the comment period.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal:* <https://www.regulations.gov>.

Follow the instructions for submitting comments.

* *Mail:* DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public

viewing on the internet at <https://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

SUPPLEMENTARY INFORMATION:

I. Background

The DoD Media Pool and Pentagon Correspondent Files system of records is used to issue Pentagon building and media press passes, arrange foreign clearances and visas, and to determine an individual's suitability/preparedness for deployment with the media pool. Subject to public comment, the DoD proposes to update this SORN to add standard DoD routine uses (routine uses A through I) and to allow for additional disclosures outside the DoD related to the purpose of this system of records. Specifically, the DoD proposes to add a new routine use (routine use J) to disclose information from this system of records to the Department of State to support issuance of media passports/visas. The DoD proposes to add another new routine use (routine use K) to support sharing of information with foreign embassies to allow members of the media to obtain foreign entry visas. In addition to updating the routine use section, the other modifications are (1) to the Authority for Maintenance of the System section to update citation(s) and add additional authorities; (2) to the Categories of Individuals Covered by the System section to clarify the individuals covered and Categories of Records to clarify how the records relate to the Category of Individuals; (3) to the Administrative, Technical, and Physical Safeguards to update the individual safeguards protecting the personal information; (4) to the Retention and Disposal section to reflect the approved disposition; (5) to the Record Access Procedures section to reflect the need for individuals to identify the appropriate DoD office or component to which their request should be directed; (6) to the Contesting Records Procedures section to update the appropriate citation for contesting records; and (7) to the System Manager and System Location sections to update the addresses and office names. Furthermore, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice.
