

AHRQ healthcare research and healthcare information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: January 4, 2011.

Carolyn M. Clancy,
Director.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of

information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Surveys of State, Tribal, Local, and Territorial (STLT) Governmental Health Agencies—New—Office of the Director, Office for State, Tribal Local and Territorial Support (OSTLTS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC's mission includes addressing the leading causes of disease, injury, and disability in the United States, including a focus on tobacco control; improving nutrition, physical activity, and food safety; reducing healthcare-associated infections; preventing motor vehicle injuries; preventing teen pregnancy; and preventing HIV. CDC's priorities for approaching improvements to public health include—strengthening surveillance, epidemiology, and laboratory science; better supporting efforts in states and communities; and pursuing policies that have an impact. As such, CDC's relationship with state, local, tribal and territorial (STLT)

governmental health officials is key to its emergency preparedness, health promotion and disease prevention responsibilities.

CDC is requesting a three-year approval for a generic clearance to assess information related to a myriad of public health issues that affect STLT health agencies. Information will be used to assess situational awareness of current public health emergencies, make decisions that will affect planning, response and recovery activities of subsequent emergencies, and fill gaps in knowledge that will strengthen surveillance, epidemiology, and laboratory science; better supporting efforts in states and communities. CDC will conduct short surveys, across a range of public health topics, using standard questionnaire administration approaches (e.g., phone, Web, e-mail, and paper, in person).

The burden is calculated based on the assumption of querying at most 100% of all available State, territorial (60) and county (3000) health officials/employees and a representative sample of at most 100 municipal/city employees. CDC estimates that it will conduct up to 48 queries with State, territorial or tribal health officials/employees, 6 queries with county health employees, and 6 queries with municipal health employees each year. The total annualized burden hour estimate is 40,080. There are no costs to respondents other than their time.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	No. of respondents	No. of responses per respondent	Average Burden per response (in Hours)
State, Territorial, Tribal Health Officials/Employees	60	48	1
County Health Employees	3000	6	2
Municipal/City Health Employees	100	6	2
Total

Dated: January 6, 2011.

Carol E. Walker,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.
