

a result of this change, some checks that are drawn on and deposited at banks located in the affected check processing regions and that currently are nonlocal checks will become local checks subject to faster availability schedules. Because the Denver check processing region serves banks located in multiple Federal Reserve districts, banks located in the expanded Denver check processing region cannot determine that a check is nonlocal solely because the paying bank for that check is located in another Federal Reserve District.

To assist banks in identifying local and nonlocal checks, the Board accordingly is amending the lists of routing symbols associated with the Federal Reserve Banks of Minneapolis and Kansas City to conform to the transfer of operations from the Minneapolis Reserve Bank's Helena branch office to the Kansas City Reserve Bank's Denver branch office. To coincide with the effective date of the underlying check processing changes, the amendments are effective October 20, 2007. The Board is providing advance notice of these amendments to give affected banks ample time to make any needed processing changes. The advance notice also will enable affected banks to amend their availability schedules and related disclosures, if necessary, and provide their customers with notice of these changes.⁵ The Federal Reserve routing symbols assigned to all other Federal Reserve branches and offices will remain the same at this time.

Administrative Procedure Act

The Board has not followed the provisions of 5 U.S.C. 553(b) relating to notice and public participation in connection with the adoption of this final rule. The revisions to the appendix are technical in nature, and the routing symbol revisions are required by the statutory and regulatory definitions of "check-processing region." Because there is no substantive change on which to seek public input, the Board has determined that the § 553(b) notice and comment procedures are unnecessary. In addition, the underlying consolidation of Federal Reserve Bank check processing offices involves a matter relating to agency management, which is exempt from notice and comment procedures.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506;

⁵ Section 229.18(e) of Regulation CC requires that banks notify account holders who are consumers within 30 days after implementing a change that improves the availability of funds.

5 CFR part 1320 Appendix A.1), the Board has reviewed the final rule under authority delegated to the Board by the Office of Management and Budget. This technical amendment to appendix A of Regulation CC will delete the reference to the Helena branch office of the Federal Reserve Bank of Minneapolis and reassign the routing symbols listed under that office to the Denver branch office of the Federal Reserve Bank of Kansas City. The depository institutions that are located in the affected check processing regions and that include the routing numbers in their disclosure statements would be required to notify customers of the resulting change in availability under § 229.18(e). However, because all paperwork collection procedures associated with Regulation CC already are in place, the Board anticipates that no additional burden will be imposed as a result of this rulemaking.

SUPPLEMENTARY INFORMATION: The Kansas City Southern Railway Company requested a temporary deviation for the Kansas City Southern Railroad Drawbridge, Mile 167.1, Monroe, Louisiana across the Ouachita River in order to finish repairs to the pivot pier and connect the navigation span to the pivot pier. The Kansas City Southern Railroad Drawbridge currently operates in accordance with 33 CFR 117.5 which requires the drawbridge to open promptly and fully for the passage of

vessels when a request to open is given. In order to facilitate the repairs to the pivot pier, the drawbridge must be kept in the closed-to-navigation position. This deviation allows the drawbridge to remain closed-to-navigation from 8 a.m., beginning November 1, 2007 for a maximum of 18 consecutive days.

There are no alternate routes for vessels transiting this section of the Ouachita River.

The Kansas City Southern Railroad Drawbridge, in the closed-to-navigation position, provides a vertical clearance of 28.0 feet above normal pool. Navigation on the waterway consists primarily of commercial tows and recreational watercraft. This temporary deviation has been coordinated with waterway users. No objections were received.

Dated: August 7, 2007.
