Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2012–0227; Airspace Docket No. 12–ACE–1]

Modification of VOR Federal Airway V–14; Missouri

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment.

SUMMARY: This action amends VOR Federal airway V–14 in the vicinity of St. Louis, MO. The FAA is taking this action to correct the V–14 description contained in Part 71 to ensure it matches the information contained in the FAA’s aeronautical database, matches the depiction on the associated charts, and to ensure the safety and efficiency of the National Airspace System (NAS).

DATES: Effective date 0901 UTC May 3, 2012. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Colby Abbott, Airspace, Regulations and ATC Procedures Group, Office of Mission Support Services, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

History

After a recent review of aeronautical data, the Aeronautical Navigation Products Group identified the VOR Federal airway V–14 description published in FAA Order 7400.9, Airspace Designations and Reporting Points, did not match the airway information contained in the FAA’s aeronautical database or the charted depiction of the airway. When V–14 was amended in the **Federal Register** of May 7, 1990 (55 FR 18862), the St. Louis, MO, VOR/DME was deleted from the description in error. The FAA aeronautical database retained the

navigation aid in the route description correctly and the associated aeronautical charts were published accordingly. To overcome any confusion or flight safety issues associated with conflicting route description information being published, the FAA is amending the V-14 legal description to reflect the airway aligned over the St. Louis, MO, VOR/DME. Accordingly, since this is an administrative correction to update the V-14 description to be in concert with the FAA's aeronautical database and charting, notice and public procedures under Title 5 U.S.C. 553(b) are unnecessary.

The Rule

The FAA amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending the legal description of VOR Federal airway V-14 in the vicinity of St. Louis, MO. Specifically, the FAA amends V-14 to reflect the airway aligned over the St. Louis, MO, VOR/DME; thus, matching the information currently contained in the FAA's aeronautical database and the charted depiction of the airway.

VOR Federal airways are listed in paragraph 6010 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document will be revised subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends an existing VOR Federal airway within the NAS.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with 311a, FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures." This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

New Animal Drugs; Ceftiofur Crystalline Free Acid; Gamithromycin; Tylosin

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval actions for new animal drug applications (NADAs) and abbreviated new animal drug applications (ANADAs) during February 2012. FDA is also informing the public of the availability of summaries of the basis of approval and of environmental review documents, where applicable.

DATES: This rule is effective May 3, 2012.

SUPPLEMENTARY INFORMATION: FDA's Center for Veterinary Medicine is adopting the use of a monthly **Federal Register** document to codify approval actions for NADAs and ANADAs. CVM will no longer publish a separate rule for each action. This approach will allow a more efficient use of available resources.

In this document, FDA is amending the animal drug regulations to reflect the original and supplemental approval actions during February 2012, as listed in table 1 of this document. FDA is also informing the public of the availability of summaries of the basis of approval (FOI Summaries) under the Freedom of Information Act (FOIA) and of environmental review documents required under the National Environmental Policy Act (NEPA), where applicable.
